

information collection requirements on the public, and therefore, will create no new paperwork burdens or modifications to existing burdens that are subject to review by the Office of Management and Budget under the PRA.

Regulatory Flexibility Act

The Commission certifies under 5 U.S.C. 605(b) that this NPRM will not have a significant economic impact on a substantial number of small entities because it applies exclusively to employees, applicants for employment, and agencies of the Federal Government and does not impose a burden on any business entities. For this reason, a regulatory flexibility analysis is not required.

Unfunded Mandates Reform Act of 1995

This NPRM will not result in the expenditure by State, local, or tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Congressional Review Act

This NPRM does not substantially affect the rights or obligations of non-agency parties and, accordingly, is not a “rule” as that term is used by the Congressional Review Act (Subtitle E of the Small Business Regulatory Enforcement Fairness Act of 1996). Therefore, the reporting requirement of 5 U.S.C. 801 does not apply.
