SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

I. Background

Section 110(a)(2)(C) of the Clean Air Act (CAA) requires that the SIP include a program to provide for the “regulation of the modification and construction of any stationary source within the areas covered by the plan as necessary to assure that national ambient air quality standards are achieved.” This includes a program for permitting construction and modification of both major and minor sources that the state deems necessary to protect air quality. The State of Michigan’s minor source permit to install rules are contained in Part 2, Air Use Approval, R. 336.1201 to R. 336.1299 of the Michigan Administrative Code. Changes to the Part 2 rules were submitted on November 12, 1993, May 16, 1996, April 3, 1998, September 2, 2003, March 24, 2009, and February 28, 2017. EPA approved changes to the Part 2 rules most recently in a final approval dated August 31, 2018 (83 FR 44485). The Michigan Administrative Code at Part 1, General Provisions, R. 336.1101 to R. 336.1128, contains the definitions of terms used in the Michigan code.

EPA is approving revisions to Michigan’s Part 1. Definitions, and Part 2. Air Use Approval for inclusion in the Michigan SIP. The following Michigan Air Pollution Control Rules are being added or revised: R 336.1101(q), R 336.1103(aa), R 336.1201a, R 336.1202-1203, R 336.1206-1207, R 336.1209, R 336.1214a, R 336.1219(1), R 336.1240-1241, R 336.1278, R 336.1285, and R 336.1291.

The Part 1 definition revisions include new or revised definitions for the following, R 336.1101(q) “Aqueous based parts washer”, and R 336.1103(aa) “cold cleaner”.

The Part 2 modifications consist of wording changes made to help clarify the air use approval rules, and to update references and terminology. Other changes include new and modified definitions of phrases, new timeframes for processing air use permits, and two new exemptions from the permitting program for small sources.

EPA is removing the Michigan Air Pollution Control Rules R 336.1212 “Administratively complete applications; insignificant activities; streamlining applicable requirements; emissions reporting and fee calculations”, R 336.1216 “Modifications to renewable operating permits”, R 336.1219(2) “Amendments for change of ownership or operational

control”, R 336.1220 (rescinded), and R 336.1299 (rescinded) from the Michigan SIP.

The rescinded rules have been moved to other sections in the Michigan Administrative Code where they have already been approved into the Michigan SIP and rescinded from the original Part 2 location. This action completes the transition process for these rescinded rules.

The other Part 2 rules removed from the Michigan SIP by this action do not address the requirements related to attainment and maintenance of the National Ambient Air Quality Standards (NAAQS) under Section 110 of the CAA. EPA has determined that these rules were erroneously incorporated into the SIP. These rules instead address the requirements under title V of the CAA for operating permit programs. EPA fully approved Michigan’s title V Renewable Operating Permit Program on November 10, 2003 (68 FR 63735) to implement its program. Since these rules do not address the requirements related to attainment and maintenance of the NAAQS under Section 110 of the CAA and have been approved as part of the title V program approval, EPA will remove them from this section of the Michigan SIP.

EPA proposed to rescind rule R 336.1220 in a February 6, 2013 (78 FR 8485), action (in addition to approval of revisions to Michigan rules in Parts 1 and 19). EPA did not receive any comments on that proposal and published a final action on December 16, 2013 (78 FR 76064).

As part of the SIP revision request, Michigan submitted a 110(l) demonstration for each of the proposed revisions to the SIP. Section 110(l) of the CAA governs the submittal of SIP revisions as part of Attachment E of its submittal. It states, “Each revision to an implementation plan submitted by a State under this chapter shall be adopted by such State after reasonable notice and public hearing. The Administrator shall not approve a revision of a plan if the revision would interfere with any applicable requirement concerning the attainment and reasonable further progress (as defined by 7501 of this title), or any other applicable requirement of this chapter.” The 110(l) demonstration in the SIP revision request adequately addresses this requirement for each rule revision, and the revisions should cause minimal to no impact on the emissions of any source, will have no effect on Michigan’s National Ambient Air Quality Standards attainment status, or any backsliding on achieved improvements. The revision for the

removed and rescinded rules pertain to the Michigan Title V renewable operating permit program which has already been approved.

II. What action is EPA taking?

EPA is approving revisions to Michigan’s Part 1 and Part 2 regulations. Specifically, EPA is approving revisions to Michigan Air Pollution Control Rules R 336.1101, R 336.1103, R 336.1201a, R 336.1202, R 336.1203, R 336.1206, R 336.1207, R 336.1209, R 336.1214a, R 336.1219, R 336.1240, R 336.1241, R 336.1278, and R 336.1291, effective December 20, 2016, and R 336.1285, effective January 2, 2019. EPA is also removing Michigan Air Pollution Control Rules R336.1212, R 336.1216, and R 336.1299 from the SIP.

We are publishing this action without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve the State plan if relevant adverse written comments are filed. This rule will be effective November 28, 2022, without further notice unless we receive relevant adverse written comments by October 27, 2022. If we receive such comments, we will withdraw this action before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. If we do not receive any comments, this action will be effective November 28, 2022.

III. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of the Michigan Regulations described in Section I of this preamble and set forth in the amendments to 40 CFR part 52 below. EPA has made, and will continue to make, these documents generally available through www.regulations.gov and at the EPA Region 5 Office (please

contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.¹

Also in this document, as described in Section I of this preamble and the amendments to 40 CFR part 52 set forth below, EPA is removing provisions of the EPA-Approved Michigan Regulations from the Michigan SIP, which is incorporated by reference in accordance with the requirements of 1 CFR part 51.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

¹ 62 FR 27968 (May 22, 1997).

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

This action is subject to the Congressional Review Act, and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 28, 2022. Filing a

petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of this **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
