

DEPARTMENT OF COMMERCE**Bureau of Industry and Security****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; International Import Certificate**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on June 8, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: Bureau of Industry and Security, Department of Commerce.

Title: International Import Certificate.

OMB Control Number: 0694-0017.

Form Number(s): BIS-645P.

Type of Request: Regular submission, revision, and extension of a current information collection.

Number of Respondents: 195.

Average Hours per Response: 16 minutes.

Burden Hours: 52.

Needs and Uses: The United States and several other countries have increased the effectiveness of their respective controls over international trade in strategic commodities by means of an Import Certificate procedure. For the U.S. importer, this procedure provides that, where required by the exporting country, the importer submits an international import certificate to the U.S. Government to certify that he/she will import commodities into the United States and will not reexport such commodities, except in accordance with the export control regulations of the United States. The U.S. Government, in turn, certifies that such representations have been made.

Affected Public: Business or other for-profit organizations.

Frequency: On Occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Public Law 95-223 Sec 203. International Emergency Economic Powers Act (IEEPA).

This information collection request may be viewed at www.reginfo.gov.

Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0694-0017.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-33-P

DEPARTMENT OF COMMERCE**International Trade Administration****Notice of Scope Ruling Applications Filed in Antidumping and Countervailing Duty Proceedings**

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) received scope ruling applications, requesting that scope inquiries be conducted to determine whether identified products are covered by the scope of antidumping duty (AD) and/or countervailing duty (CVD) orders and that Commerce issue scope rulings pursuant to those inquiries. In accordance with Commerce's regulations, we are notifying the public of the filing of the scope ruling applications listed below in the month of August 2022.

DATES: Applicable September 27, 2022.

FOR FURTHER INFORMATION CONTACT: Terri Monroe, AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-1384.

Notice of Scope Ruling Applications:

In accordance with 19 CFR 351.225(d)(3), we are notifying the public of the following scope ruling applications related to AD and CVD orders and findings filed in or around the month of August 2022. This notification includes, for each scope application: (1) identification of the AD and/or CVD orders at issue (19 CFR 351.225(c)(1)); (2) concise public

descriptions of the products at issue, including the physical characteristics (including chemical, dimensional and technical characteristics) of the products (19 CFR 351.225(c)(2)(ii)); (3) the countries where the products are produced and the countries from where the products are exported (19 CFR 351.225(c)(2)(i)(B)); (4) the full names of the applicants; and (5) the dates that the scope applications were filed with Commerce and the name of the ACCESS scope segment where the scope applications can be found.¹ This notice does not include applications which have been rejected and not properly resubmitted. The scope ruling applications listed below are available on Commerce's online e-filing and document management system, Antidumping and Countervailing Duty Electronic Service System (ACCESS), at <https://access.trade.gov>.

Scope Ruling Applications

Certain Vertical Shaft Engines Between 99cc and 225c, and Parts Thereof from the People's Republic of China (China) (A-570-124/C-570-125); modified vertical shaft engines;² produced in and exported from China; submitted by Briggs & Stratton, LLC

¹ See *Regulations to Improve Administration and Enforcement of Antidumping and Countervailing Duty Laws*, 86 FR 52300, 52316 (September 20, 2021) (*Final Rule*) ("It is our expectation that the **Federal Register** list will include, where appropriate, for each scope application the following data: (1) identification of the AD and/or CVD orders at issue; (2) a concise public summary of the product's description, including the physical characteristics (including chemical, dimensional and technical characteristics) of the product; (3) the country(ies) where the product is produced and the country from where the product is exported; (4) the full name of the applicant; and (5) the date that the scope application was filed with Commerce.")

² A spark-ignited, single-cylinder engine with a displacement of 209 cubic centimeters, with a maximum power output of 4.3 kW, and with a modified vertical shaft. The specific engine that is the subject of this application is model number R210-S manufactured in China by Chongqing Rato Technology Co., Ltd. ("Rato"), but with a significant modification. The R210-S has a horizontal crankshaft, but the engine has been modified to include a right angle gearbox that redirects power from a horizontal to a vertical orientation. Put simply, the horizontal crankshaft turns a gear, and that gear then turns a vertical take off shaft. As modified with the gearbox, the shaft comes out of the bottom (rather than from the side) of the engine. The complete engine (including the gearbox) may be referred to as a "modified R210-S" or simply as a modified vertical shaft engine ("MVSE"). Prior to entering the United States, the MVSEs at issue are mounted onto a PowerSmart brand lawn mower, model number DB2321SM, by the Chinese mower producer Zhejiang Dohbest Power Tools Co., Ltd. ("Dohbest"). The petitioner hypothesizes that if mounted, the MVSEs would enter under HTSUS number 8433.11.0060. If unmounted, the MVSEs would enter within HTSUS item number 8407.90.1010 because they generate under 4.476 kW of power. As stated above, these engines are produced in and exported from China.
