C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹³ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁴

A proposed rule change filed under Rule 19b-4(f)(6)¹⁵ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹⁶ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay to allow the Exchange to implement the proposal as soon as possible. The Exchange states that the proposed changes are based on rules of other exchanges and that waiver would allow Members to benefit immediately from the clarified and simplified provisions. The Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest because the proposal does not raise any new or novel issues. Accordingly, the Commission hereby waives the 30-day

operative delay and designates the proposal operative upon filing.¹⁷

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

Abstract of Proposed Collection

This information collection is used for two main purposes: (1) the collection and submission of information required for DDTC approval of a reexport or retransfer; and (2) the collection and retention of certain information for authorizations and other approvals, including for reexports and retransfers under an Open General License (OGL) program. Under § 123.9(a) of the International Traffic in Arms Regulations (ITAR), unless an exemption applies, DDTC’s written approval must be obtained before reselling, transferring, reexporting, retransferring, transshipping, or disposing of a defense article to any end-user, end-use, or destination other than as stated on the export license or in the Electronic Export Information filing in cases where an exemption was claimed. Such approval is normally granted through case-by-case review of requests to authorize specific transfers. In addition, ITAR § 126.9(b) allows DDTC to provide export authorization for DDTC’s own initiatives, including pilot programs and other specifically anticipated circumstances for which DDTC considers special authorizations appropriate. DDTC has launched a pilot program pursuant to its authorities in ITAR § 126.9(b) in order to assess the concept of an OGL mechanism by which it may authorize certain transfers of defense articles to predetermined parties. OGLs eliminate the need for the Department to individually review and approve certain lower-risk transactions involving certain recipients. DDTC believes the OGL pilot program will provide unprecedented flexibility for the U.S. defense industry and U.S. allies to operate consistent with the ITAR and will enhance their ability to maintain, repair, and store defense articles. Under ITAR § 123.1(c), DDTC may require pertinent documentation regarding the proposed transaction and proper completion of the application form, including information about the quantity and value of the defense article proposed for export and information on the proposed end-user, end-use, and ultimate destination. Under ITAR § 123.9(c), foreign persons who seek approval from DDTC to reexport or retransfer defense articles are required to submit a description, quantity, and value of the defense article; a description and identification of the new end-user, end-use, and destination. Under ITAR § 123.26 any foreign person engaging in any reexport or retransfer of a defense article pursuant to an exemption must maintain records of each such transfer including the
