#### SUPPLEMENTARY INFORMATION:

##### Background

On May 11, 2022, Commerce published in the **Federal Register** its preliminary affirmative determination in the LTFV investigation of OCTG from Mexico, in which it also postponed the final determination until September 23, 2022.<sup>1</sup> We invited interested parties to comment on the *Preliminary Determination*. A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.<sup>2</sup>

##### Scope of the Investigation

The products covered by this investigation are OCTG from Mexico. For a complete description of the scope of this investigation, *see* appendix I.

### Verification

Commerce was unable to conduct on-site verifications of the information relied upon in making its final determination in this investigation for reasons beyond its control. However, we conducted virtual verifications in lieu of on-site verifications to verify the information relied upon in making this final determination, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act). Specifically, Commerce conducted virtual verifications of the home market sales, U.S. sales, cost of production, and further manufacturing responses submitted by Tubos de Acero de Mexico, S.A. (TAMSA).

### Changes Since the Preliminary Determination

Based on our analysis of the comments received and additional information obtained since the *Preliminary Determination*, we made certain changes to the margin calculation for this final determination. For a discussion of these changes, *see* the Issues and Decision Memorandum.

### All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for individually investigated exporters and producers, excluding rates that are zero, *de minimis*, or determined entirely under section 776 of the Act, *i.e.*, facts otherwise available.

In this investigation, Commerce calculated an individual estimated weighted-average dumping margin for the sole mandatory respondent, TAMSA, that is not zero, *de minimis*, or
