SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–95970; File No. SR–NYSEAMER–2022–43]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Connectivity Fee Schedule

October 4, 2022.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b–4 thereunder,³ notice is hereby given that on September 21, 2022, NYSE American LLC (“NYSE American” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Connectivity Fee Schedule related to colocation to remove obsolete text. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Connectivity Fee Schedule related to

colocation to remove Partial Cabinet Solution bundles Options A and B as obsolete.⁴

The Exchange recently deleted the service “LCN Access—1 Gb Circuit” from the list of types of services available in colocation, due to the lack of User demand for 1 Gb LCN ports.⁵ In making that change, the Exchange explained that the number of 1 Gb LCN ports purchased by Users had steadily declined from 4 in 2017, to 2 in 2018, to 1 in 2021, to zero in 2022. The Exchange understands that this fall-off in demand for the 1 Gb LCN port is due to the fact that market data feeds continue to increase in bandwidth, such that Users prefer to purchase larger port sizes. Based on this trend, the Exchange explained that it believes that there is no remaining User demand for the 1 Gb LCN port, and discontinued the service as obsolete.

The same rationale applies equally to two of the Exchange’s Partial Cabinet Solution (“PCS”) bundles: Options A and B. Options A and B each include various bundled services, including, among other things, a 1 Gb LCN connection. Although Options A and B have been offered by the Exchange and its Affiliate SROs since 2016,⁶ no Users ever purchased an Option B bundle, and only one User purchased an Option A bundle, which it canceled in July 2021. There are currently no Users purchasing either an Option A or B bundle. Accordingly, the Exchange believes that there is no remaining User demand for Options A or B, and proposes to discontinue them as obsolete.

Application and Impact of the Proposed Changes

The Exchange does not expect that the proposed changes would have any impact. As noted above, there was only ever one User that purchased either an Option A or B bundle, and that User canceled its bundled service over a year ago, in July 2021. There are currently no purchasers of either Option A or B bundles.

The proposed changes would not have any affect on the two remaining
