

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments shall be submitted on or before December 13, 2022. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email: PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0695.

Title: Section 87.219, Automatic Operations.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 55 respondents and 55 responses.

Estimated Time per Response: 0.7 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping

requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154, 303 and 307.

Total Annual Burden: 39 hours.

Annual Cost Burden: \$8,250.

Needs and Uses: If airports have control towers of Federal Aviation Administration (FAA) flight service stations and more than one licensee, and wants to have an automated aeronautical advisory station (Unicom), this rule requires that they must write an agreement and keep a copy of the agreement with each licensee's station authorization. This information will be used by compliance personnel for enforcement purposes and by licensees to clarify responsibility in operating Unicom.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meeting

TIME AND DATE: 10 a.m. on Tuesday, October 18, 2022.

PLACE: The meeting is open to the public. Out of an abundance of caution related to current and potential coronavirus developments, the public's means to observe this Board meeting will be via a Webcast live on the internet and subsequently made available on-demand approximately one week after the event. Visit <https://youtu.be/s7moPsvjKto> to view the meeting. If you need any technical assistance, please visit our Video Help page at: <https://www.fdic.gov/video.html>.

Observers requiring auxiliary aids (e.g., sign language interpretation) for this meeting should email DisabilityProgram@fdic.gov to make necessary arrangements.

STATUS: Open.

MATTER TO BE CONSIDERED: Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session to consider the following matters:

Summary Agenda

No substantive discussion of the following items is anticipated. These

matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of Minutes of a Board of Directors' Meeting Previously Distributed.

Memorandum and resolution re: Final Rule on Assessments—Amendments to Incorporate Troubled Debt Restructuring Accounting Standards Update.

Memorandum and resolution re: Designated Reserve Ratio for 2023.

Summary report of actions taken pursuant to authority delegated by the Board of Directors.

Discussion Agenda

Memorandum and resolution re: Final Rule on Assessments, Revised Deposit Insurance Assessment Rates.

Memorandum and resolution re: Proposed Amendments to the Guidelines for Appeals of Material Supervisory Determinations.

CONTACT PERSON FOR MORE INFORMATION: Requests for further information concerning the meeting may be directed to Debra A. Decker, Executive Secretary of the Corporation, at 202-898-8748.

Dated at Washington, DC, on October 11, 2022.

Federal Deposit Insurance Corporation.

James P. Sheesley,

Assistant Executive Secretary.

BILLING CODE 6714-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC-2022-0014]

Notice of Availability of the Final Supplemental Environmental Impact Statement

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention (CDC) within the Department of Health and Human Services (HHS) announces the availability of the Final Supplemental Environmental Impact Statement (SEIS) for CDC's Roybal Campus in Atlanta, Georgia. The Final SEIS was prepared to address changes proposed since completing the 2014 Final Environmental Impact Statement (EIS) for the CDC Roybal Campus 2025 Master Plan (2014 Final EIS) and issuing a

Record of Decision (ROD) dated November 7, 2014. This announcement follows the requirements of the National Environmental Policy Act (NEPA) as implemented by the Council on Environmental Quality (CEQ) regulations and HHS environmental procedures.

DATES: The Final SEIS will be available October 14, 2022.

FOR FURTHER INFORMATION CONTACT: Thayra Riley, NEPA Coordinator, Office of Safety, Security, and Asset Management, Centers for Disease Control and Prevention, 1600 Clifton Road NE, Mailstop H20-4, Atlanta, Georgia 30329. Email: cdc-roybalga-seis@cdc.gov. Telephone: 770-488-8170.

SUPPLEMENTARY INFORMATION: In accordance with NEPA as implemented by CEQ regulations (40 CFR 1507.3) and HHS environmental procedures, CDC prepared a Final SEIS to analyze the effects of additional proposed components that were not analyzed in the 2014 Final EIS. The potential impacts of construction and operation of these components on the natural and built environment were evaluated.

Alternatives Considered

CDC analyzed two alternatives in the Final SEIS: The Proposed Action (Alternative 1) and the No Action Alternative. Alternative 1 consists of the construction and operation of a Hospital, Medical, and Infectious Waste Incinerator (HMIWI) in a new laboratory building and the operation of two emergency standby power diesel generators. The construction of a new laboratory was included in the 2014 Final EIS and was not re-evaluated in the SEIS. The No Action Alternative consists of the construction of the new laboratory without the HMIWI and two emergency standby power generators.

The Final SEIS evaluates the environmental impacts that may result from Alternative 1 and the No Action Alternative on the following resource categories: air quality, climate change and sustainability, environmental justice, and hazardous/medical/infectious waste. The Final SEIS identifies measures to mitigate potential adverse impacts.

Public Involvement

On January 28, 2022, CDC published a Notice of Intent to prepare a SEIS in the **Federal Register** (87 FR 4603). CDC announced a Notice of Availability (NOA) of the Draft SEIS on July 8, 2022 (87 FR 40844) and the public comment period ended August 22, 2022. During the public comment period, a virtual

public meeting was held on July 27, 2022. Two participants attended the meeting.

CDC received five public comments.

- An individual submitted two comments stating they did not agree with the spending associated with the project.

- CDC acknowledges the comment.
- A civic organization submitted one comment asking about noise or odors associated with lab operations and the stringency of the Georgia Department of Natural Resources, Environmental Protection Department (EPD) rules for handling, treating, and disposing of infectious waste.

- CDC's response is that noise and odors were determined not to be issues that needed to be included in the SEIS associated with the addition of a new HMIWI and two new emergency standby power generators. Noise levels will not be an issue and will be controlled/limited to levels below Occupational Safety and Health Administration criteria (60 dBA within 4 feet, which is a normal speaking level). No odors will be released from the new incinerator system during operations. The Georgia EPD rules for handling, treating, and disposing of infectious waste are sufficiently stringent and protective of the environment, workers, and public health. CDC has been operating other incinerators on site and the handling of solid waste, including hazardous and medical waste, will continue to comply with Georgia EPD rules and regulations.

- A community advisory group submitted a request for CDC to present an update on the SEIS during the group's September 20, 2022 meeting.

- CDC declined the request and provided instructions to submit comments on the docket.
- An individual submitted questions about the air quality modeling and cumulative impact analysis.

- For the analysis of the addition of the HMIWI and two emergency generators, CDC conducted a quantitative analysis of carbon monoxide based on the methodology used during the 2014 Final EIS. The SEIS states that further analysis of the criteria pollutants and hazardous air pollutants would be conducted to support the updated Title V operating permit that is required due to the addition of the HMIWI. Cumulative impacts for the overall implementation of the Roybal Campus 2025 Master Plan were included in the 2014 Final FEIS. Cumulative impacts were considered in the SEIS Air Quality and climate change analysis. Since there are no impacts to environmental justice and negligible

impacts to hazardous, medical, infectious waste, these would not contribute to significant cumulative impacts.

CDC made minor revisions to the SEIS based on these comments. The comments and CDC's responses are included in Appendix A of the Final SEIS.

Availability of the Final SEIS: The Final SEIS is available in the Supplemental Materials tab of the docket found on the Federal eRulemaking Portal: <https://www.regulations.gov>, identified by Docket No. CDC-2022-0014.

The NOA of the Final SEIS has been provided to Federal, State, and local agencies and organizations via mail and electronic mail to the interested parties list. The public is being notified of the availability of the Final SEIS through this **Federal Register** publication and a notice published in *The Atlanta Journal-Constitution*. CDC will finalize a ROD no sooner than November 7, 2022.

Angela K. Oliver,

Executive Secretary, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2019-N-0305]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Tobacco Products Subject to the Federal Food, Drug, and Cosmetic Act

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Submit written comments (including recommendations) on the collection of information by November 14, 2022.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be submitted to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under
