

(d) For in-home plant grower products without defrost, the test period shall be a 24-hour period following an 8-hour stabilization period.

5.3. Test Cycle Energy Calculations

* * * * *

(g) For plant grower products tested using the test period defined in section 5.2.(d) of this appendix, the test cycle energy shall be calculated as:

$$E = \frac{1440 \times EP}{T}$$

Where:

E = total per-cycle energy consumption in kilowatt-hours per day;

1440 = conversion factor to adjust to a 24-hour average use cycle in minutes per day;

EP = energy expended in kilowatt-hours during the test;

T = test period duration in minutes.

(3) **Representations.** GEA may not make representations about the energy use of a basic model listed in paragraph (1) of this Order for compliance or marketing, unless the basic model has been tested in accordance with the provisions set forth above and such representations fairly disclose the results of such testing.

(4) This waiver shall remain in effect according to the provisions of 10 CFR 430.27.

(5) DOE issues this waiver on the condition that the statements, representations, and information provided by GEA are valid. If GEA makes any modifications to the controls or configurations of these basic models, such modifications will render the waiver invalid with respect to that basic model, and GEA will either be required to use the current Federal test method or submit a new application for a test procedure waiver. DOE may rescind or modify this waiver at any time if it determines the factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of a basic model's true energy consumption characteristics. 10 CFR 430.27(k)(1). Likewise, GEA may request that DOE rescind or modify the waiver if GEA discovers an error in the information provided to DOE as part of its petition, determines that the waiver is no longer needed, or for other appropriate reasons. 10 CFR 430.27(k)(2).

(6) GEA remains obligated to fulfill any applicable requirements set forth at 10 CFR part 429.

DOE makes decisions on waivers and interim waivers for only those basic models specifically set out in the petition, not future models that may be manufactured by the petitioner. GEA

may submit a new or amended petition for waiver and request for grant of interim waiver, as appropriate, for additional basic models of the In-Home Grower. Alternatively, if appropriate, GEA may request that DOE extend the scope of a waiver or an interim waiver to include additional basic models employing the same technology as the basic model(s) set forth in the original petition consistent with 10 CFR 430.27(g).

Signing Authority

This document of the Department of Energy was signed on October 4, 2022, by Francisco Alejandro Moreno, Acting Assistant Secretary for Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on October 12, 2022.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

[Docket No. AD22-12-000]

Joint FERC-DOE Supply Chain Risk Management Technical Conference; Initial Notice of Joint Supply Chain Risk Management Technical Conference of the Federal Energy Regulatory Commission and the Department of Energy

The Federal Energy Regulatory Commission and the Department of Energy will convene a Technical Conference in the above-referenced proceeding on December 7, 2022, from approximately 8:30 a.m. to 5:00 p.m. Eastern Time. The conference will be held in-person at the Commission's headquarters at 888 First Street NE, Washington, DC 20426 in the Commission Meeting Room.

The purpose of this conference is to discuss supply chain security challenges related to the Bulk-Power System, ongoing supply chain-related activities, and potential measures to secure the supply chain for the grid's hardware, software, computer, and networking equipment. FERC Commissioners and DOE's Office of Cybersecurity, Energy Security, and Emergency Response (CESER) Director will be in attendance, and panels will involve multiple DOE program offices, the North American Electric Reliability Corporation (NERC), trade associations, leading vendors and manufacturers, and utilities.

The conference will be open for the public to attend, and there is no fee for attendance. Supplemental notices will be issued prior to the conference with further details regarding the agenda, how to register to participate, and the format. Information on this technical conference will also be posted on the Calendar of Events on the Commission's website, www.ferc.gov, prior to the event. The conference will also be transcribed. Transcripts will be available for a fee from Ace Reporting, (202) 347-3700. Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov, call toll-free (866) 208-3372 (voice) or (202) 208-8659 (TTY), or send a fax to (202) 208-2106 with the required accommodations.

For more information about this technical conference, please contact Simon Slobodnik at Simon.Slobodnik@ferc.gov or (202) 502-6707. For information related to logistics, please contact Lodie White at Lodie.White@ferc.gov or (202) 502-8453.

Dated: October 11, 2022.

Kimberly D. Bose,
Secretary.

Combined Notice of Filings #1

Take notice that the Commission received the following exempt wholesale generator filings:

Docket Numbers: EG23-6-000.

Applicants: Buena Vista Energy Center, LLC.

Description: Buena Vista Energy Center, LLC Notice of Self-Certification of Exempt Wholesale Generator Status.
