[Docket Nos. CP19-495-000, CP19-495-001]

Double E Pipeline, LLC; Notice of Request for Extension of Time

Take notice that on October 4, 2022, Double E Pipeline LLC (Double E) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time until October 15, 2024, to complete construction of, and place into service, its Double E Pipeline Project (Project), which extends from the Marlan Processing Plant, owned and operated by Pronto Midstream, LLC, a subsidiary of Matador Resources Company, in Eddy County, New Mexico, to the project’s ultimate terminus in Pecos County, Texas. as authorized in the October 15, 2020 Order Issuing Certificate (Certificate Order).¹ Ordering Paragraph B(1) of the Certificate Order required Double E to complete the construction

of the proposed Project facilities² and make them available for service within two years from issuance of the order.³

Double E commenced construction of the Project on January 12, 2021.⁴ Double E has since completed construction of the Project facilities and placed the Project facilities, except for the Lobo Processing Plant and the Big Eddy Plant receipt point meter stations, into service on November 18, 2021.⁵ The Lobo Processing Plant receipt meter is currently under construction and Double E anticipates it will be completed and made available for service by December 2022. Double E is in discussions with its customer at the Big Eddy Plant receipt meter regarding the timing of those facilities and anticipates starting construction of those facilities in late 2023 or early 2024. For these reasons, Double E requests an extension to October 15, 2024, for the date to place the remaining facilities in service.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Double E’s request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you

² The Double E Pipeline Project consists of a 116.6-mile-long trunkline pipeline, several ancillary components including lateral pipe connecting the trunkline to processing plants; several meter stations and meters to receive gas from and deliver gas to diverse markets; and appurtenant facilities to maintain reliable performance of the pipeline.

should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,⁶ the Commission will aim to issue an order acting on the request within 45 days.⁷ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁸ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission’s environmental analysis for the certificate complied with the National Environmental Policy Act.⁹ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2022-0606; FRL-10105-03-OAR]

Notice of Data Availability Relevant to Management of Regulated Substances Under the American Innovation and Manufacturing Act of 2020

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: This Notice of Data Availability (NODA) is to alert stakeholders of information from the U.S. Environmental Protection Agency (EPA) regarding the United States' hydrofluorocarbon reclamation market and to solicit stakeholder input. The Agency is making available a draft report, *Analysis of the U.S. Hydrofluorocarbon Reclamation Market: Stakeholders, Drivers, and Practices*, which analyzes the United States' hydrofluorocarbon reclamation market and describes the reclamation process, factors affecting costs of reclamation, incentives, and barriers to refrigerant reclamation. The Agency is providing this information in preparation for an upcoming regulatory action which EPA intends to propose under subsection (h) of the American Innovation and Manufacturing Act of 2020. The notice identifies possible data gaps and requests comment on areas where additional information could improve the Agency's information on the United States hydrofluorocarbon reclamation market and practices. The Agency is also providing notice of a stakeholder meeting to enable stakeholders to provide input as the Agency prepares to engage in rulemaking.

DATES: To ensure that comments can be accounted for in an upcoming proposed rule that EPA is considering, please submit comments to the Agency by November 7, 2022.

ADDRESSES: You may send comments, identified by Docket ID No. EPA-HQ-OAR-2022-0606, by any of the following methods:
