

will provide a detailed narrative assessment of current TEFAP reach within the State/Territory and will identify any remote, rural, Tribal, and/or low-income areas that are currently underserved by TEFAP. Applicants will also provide an explanation of how the assessment was conducted and provide any attachments (e.g., a map of served/underserved areas within the State/Territory, or a map of TEFAP ERAs overlaid with a map of remote, rural, Tribal, and/or low-income areas) as necessary. If an applicant plans to utilize grants funds to complete such an assessment, they only need to indicate that in their response and will not be required to submit an assessment in the application.

- Applicants that received a Reach and Resiliency—Round 1 grant will provide a brief summary of planned Round 1 project activities and an update on implementation of those activities, indicating how the proposed Round 2 project plan will expand or complement Round 1 activities (if applicable). If Reach and Resiliency—Round 1 grant funds were utilized to conduct an assessment of TEFAP reach within the State/Territory, this update must include a brief description of any interim or final results of the Round 1 assessment, or a description of progress made on the assessment thus far.

- Applicants will provide the definitions of “remote,” “rural,” “Tribal,” and “low-income” that will be utilized for the proposed Round 2 project and an explanation of why specific definitions were chosen.

- Applicants will describe how they consulted with relevant stakeholders and/or utilized available data to form their Round 2 project plans.

- Applicants will state the percentage of requested Round 2 grant funds that will be kept at the State level or that will be expended on State expenses.

- Applicants will indicate interest in requesting additional funding past the maximum eligible funding amount outlined for their State/Territory in the Request for Applications. If interested in additional funding, applicants will state an amount of additional funds that the applicant would be able to utilize on allowable grant activities. Should additional funding be available, FNS will utilize responses to these question to award additional funds to interested applicants.

Supplemental Reporting Questions

- If applicable, applicants will provide a list of any remote, rural, Tribal, and/or low-income areas that have been incorporated into the State’s TEFAP network or that are being better

served as as a result of Round 2 grant funding, to date.

- If grant funds were utilized to conduct an assessment of current TEFAP reach within the State/Territory, and such assessment was finalized within the last reporting period, applicants will be asked to provide a narrative summary of the assessment. The summary should include a list of any remote, rural, Tribal, and/or low-income areas that were identified as underserved via the assessment, how “remote,” “rural,” “Tribal,” and “low-income” areas were defined, and an explanation of how the assessment was conducted.

Time Required To Complete Application Package

The time required to complete this information collection, meaning the TEFAP grant application package, is estimated to average approximately 88.22 hours per application. This burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information for all aspects of the TEFAP Reach and Resiliency—Round 2 Grant, including the pre-award, post-award, and recordkeeping burden.

The supporting statement for OMB Control Number: 0584–0512 (Expiration Date: July 31, 2025) explicitly states that if FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package, and that the information collection has already been approved by OMB. If FNS determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish at least a 30-day notice soliciting comments on its proposal to collect different or additional information before issuing the grant solicitation. FNS is publishing this notice to meet that requirement.

FNS will utilize these comments to adjust the collection of additional information as necessary.

Tameka Owens,

Assistant Administrator, Food and Nutrition Service.
