

- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

DDTC regulates the export and temporary import of defense articles and services enumerated on the USML in accordance with the Arms Export Control Act (AECA) (22 U.S.C. 2751 *et seq.*) and the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120–130). In accordance with ITAR § 124.1, any person who intends to furnish defense services or technical data to a foreign person must submit a proposed technical assistance, manufacturing, or distribution license agreement and obtain prior authorization from DDTC for such agreement. Amendments to existing agreements must also be submitted for approval. The electronic mechanism utilized for submitting, reviewing, and approving agreement proposals is the Defense Export Control and Compliance System, DECCS. Specifically, this process utilizes the DSP–5 license application as the primary instrument or “vehicle” for transmitting agreements and their respective amendments from one phase of the adjudication process to the next.

The ITAR requires persons registered with DDTC to maintain records pertaining to defense trade-related transactions. This information collection approves the record-keeping requirements imposed on registrants by the ITAR. Respondents to this collection may submit their records to DDTC as supporting documentation for disclosures of potential violations of the AECA. The method by which respondents submit these records is approved under OMB control no. 1405–0179. DDTC uses these records to analyze industry compliance processes and procedures, and to help assess whether the activity in question might merit administrative sanctions or referral to the Department of Justice for possible criminal prosecution.

In accordance with part 129 of the ITAR, U.S. and foreign persons required to register as a broker shall provide annually a report to DDTC enumerating

and describing brokering activities by quantity, type, U.S. dollar value, purchaser/recipient, and license number for approved activities and any exemptions utilized for other covered activities. This information is currently used in the review of munitions export and brokering license applications and to ensure compliance with defense trade statutes and regulations. As appropriate, such information may be shared with other U.S. Government entities.

In accordance with part 129 of the International Traffic in Arms Regulations (ITAR), U.S. and foreign persons who wish to engage in ITAR-controlled brokering activity of defense articles and defense services must first register with DDTC. Brokers must then submit a written request for approval to DDTC and must receive DDTC’s consent prior to engaging in such activities unless exempted. This information is currently used in the review of the brokering request submitted for approval and to ensure compliance with defense trade statutes and regulations. It is also used to monitor and control the transfer of sensitive U.S. technology.

Methodology

Respondents will submit information as attachments to relevant license applications or requests for other approval.

Respondents may maintain records in any format consistent with the provisions in ITAR § 122.5.

Brokering Reports are submitted annually with Statement of Registration renewals.

Applicants are referred to ITAR part 129 for guidance on information to submit regarding proposed brokering activity. Applicants may submit a Brokering Prior Approval Request electronically via DDTC’s Defense Export Control and Compliance System (DECCS), using the DS–4294.

Michael Miller,

Deputy Assistant Secretary, Directorate of Defense Trade Controls, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Receipt of Noise Compatibility Program Update and Request for Review; Fort Lauderdale-Hollywood International Airport (FLL), Fort Lauderdale, Florida

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed Noise Compatibility Program (NCP) Update submitted by Broward County, Florida, through its Aviation Department, for Fort Lauderdale-Hollywood International Airport and has found it in compliance with applicable requirements. This NCP Update was submitted subsequent to a determination by the FAA that the associated Noise Exposure Maps (NEMs) for the Fort Lauderdale-Hollywood International Airport, were prepared in compliance with applicable requirements. The NCP Update will be approved or disapproved (other than the proposed use of flight procedures for noise control) on or before April 10, 2023. Finally, this notice announces that the proposed NCP Update will be available for public review and comment for 60 days from the publication date of this notice.

DATES: The effective start date of the FAA’s 180-day review period for the associated NCP Update is October 12, 2022. The FAA must issue an approval or disapproval of the NCP Update (other than the proposed use of flight procedures for noise control) on or before April 10, 2023. The public review and comment period ends 60 days from the publication date of this notice.

FOR FURTHER INFORMATION CONTACT:

Peter Green, Federal Aviation Administration, Orlando Airports District Office, 8427 SouthPark Circle, Suite 524, Orlando, Florida 32819, (407) 487–7296. Comments on the proposed NCP Update should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed NCP Update for the Fort Lauderdale-Hollywood International Airport. As required by Title 14 Code of Federal Regulations part 150 (hereinafter referred to as Part 150), the NCP Update will be approved or disapproved (other than the proposed use of flight procedures for noise control) on or before April 10, 2023. Measures that involve changes to flight procedures require further analysis and are not subject to the 180-day statutory decision deadline. This notice also announces the availability of this NCP Update for public review and comment for 60 days from the publication date of this notice.

Under the Aviation Safety and Noise Abatement Act (49 U.S.C. 47501 *et seq.*), an airport operator (hereinafter referred to as Sponsor) who has submitted NEMs

that are found by the FAA to be in compliance with the requirements of Part 150 may submit for FAA approval a NCP or NCP Update that sets forth the measures the Sponsor has taken, or proposes to take, to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses within the area covered by the NEMs.

The FAA has formally received the NCP Update for the Fort Lauderdale-Hollywood International Airport, effective on October 12, 2022. Broward County, Florida, through its Aviation Department, requested the FAA review this material and that the noise mitigation measures, to be implemented jointly by the Sponsor and surrounding communities, be approved as a NCP Update under the Act. Preliminary review of the submitted material indicates that it conforms to Part 150 requirements for the submittal of an NCP, but that further review is necessary prior to approval or disapproval of the NCP Update. The formal review period, limited by law to a maximum of 180 days, will be completed on or before April 10, 2023, with the exception of NCP measures that propose the use of flight procedures for noise control. A public hearing on the NCP was held by the Sponsor on April 21, 2021.

The FAA's detailed evaluation will be conducted under the provisions of part 150, 105.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Each airport NCP/NCP Update developed in accordance with part 150 is a local program, not a Federal program. The FAA does not substitute its judgment for that of the Sponsor with respect to which measures should be recommended for action. The FAA's approval or disapproval of each specific measure proposed by a Sponsor in an NCP/NCP Update is determined by applying approval criteria prescribed in § 150.35(b) of Part 150. Only measures that meet the approval criteria can be approved and considered for Federal funding eligibility. FAA approval or disapproval of a measure only indicates whether that measure would, if implemented, be consistent with the purposes of Part 150. When a measure is disapproved by the FAA, Sponsors are encouraged to work with their

communities and the FAA, outside of the part 150 process as necessary, to implement initiatives that provide noise benefits for the surrounding community.

Interested persons are invited to comment on the proposed NCP Update with specific reference to these factors. To maximize the effectiveness of comments and the FAA's understanding of them, comments should be as specific as possible, identifying the concern(s) as well as suggested or desired resolution to the concern(s). When possible, quote text and cite details such as page and section numbers, NCP Update measure number, etc. to which the comment(s) pertain. This commenting procedure is intended to ensure that substantive comments and concerns are made available to the FAA in a timely manner so that the FAA has an opportunity to address them in its Record of Approval. All comments in their entirety become part of the public record, including any personal information provided in the comment including name, address, phone number, etc. All relevant comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable.

Copies of the the proposed NCP Update are available for examination online at www.fllpart150.com and by appointment at the following location: Federal Aviation Administration, Orlando Airports District Office, 8427 SouthPark Circle, Suite 524, Orlando, Florida 32819.

Please direct questions or requests to arrange an appointment to review the NCP Update document to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT.**

Issued in Orlando Airports District Office, Orlando, Florida on October 12, 2022.

Rebecca Henry Harper,
Acting Manager, FAA/Orlando Airports District Office.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Limitation on Claims Against a Proposed Public Transportation Project—Midvalley Connector Bus Rapid Transit Project

AGENCY: Federal Transit Administration (FTA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This notice announces final environmental actions taken by the

Federal Transit Administration (FTA) regarding the Midvalley Connector Bus Rapid Transit (BRT) Project in the Cities of Murray, Taylorsville, and West Valley, Salt Lake County, Utah. The purpose of this notice is to publicly announce the FTA's environmental decisions on the subject project and to activate the limitation on any claims that may challenge these final environmental actions.

DATES: A claim seeking judicial review of FTA actions announced herein for the listed public transportation project will be barred unless the claim is filed on or before March 17, 2023.

FOR FURTHER INFORMATION CONTACT: Kathryn Loster, Assistant Chief Counsel, Office of Chief Counsel, (312) 705-1269, or Saadat Khan, Environmental Protection Specialist, Office of Environmental Programs, (202) 366-9647. FTA is located at 1200 New Jersey Avenue SE, Washington, DC 20590. Office hours are from 9:00 a.m. to 5:00 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: Notice is hereby given that FTA has taken final agency actions subject to 23 U.S.C. 139(l) by issuing certain approvals for the public transportation project listed below. The actions on the project, as well as the laws under which such actions were taken, are described in the documentation issued in connection with the project to comply with the National Environmental Policy Act (NEPA) and in other documents in the FTA environmental project files for the project. Interested parties may contact either the project sponsor or the relevant FTA Regional Office for more information. Contact information for FTA's Regional Offices may be found at <https://www.transit.dot.gov>.

This notice applies to all FTA decisions on the listed project as of the issuance date of this notice and all laws under which such actions were taken, including, but not limited to, NEPA (42 U.S.C. 4321-4375), Section 4(f) requirements (23 U.S.C. 138, 49 U.S.C. 303), section 106 of the National Historic Preservation Act (54 U.S.C. 306108), Endangered Species Act (16 U.S.C. 1531), Clean Water Act (33 U.S.C. 1251), Uniform Relocation and Real Property Acquisition Policies Act (42 U.S.C. 4601), and the Clean Air Act (42 U.S.C. 7401-7671q). This notice does not, however, alter or extend the limitation period for challenges of project decisions subject to previous notices published in the **Federal Register**. The project and actions that are the subject of this notice follow:
