

Date: November 16, 2022.

Time: 11:00 a.m. to 7:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Victoria Martinez Virador, Ph.D., Scientific Review Officer, Center for Scientific Review, 6701 Rockledge Drive, Bethesda, Md 20892, 301-594-4703, victoria.virador@nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine; 93.333, Clinical Research, 93.306, 93.333, 93.337, 93.393-93.396, 93.837-93.844, 93.846-93.878, 93.892, 93.893, National Institutes of Health, HHS)

Dated: October 13, 2022.

Melanie J. Pantoja,

Program Analyst, Office of Federal Advisory Committee Policy.

National Institutes of Health

National Institute of Dental & Craniofacial Research; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Dental and Craniofacial Research Special Emphasis Panel, Advancing HIV/AIDS Research at the Intersection of Oral and Mental Health.

Date: November 16, 2022.

Time: 9:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute of Dental & Craniofacial Research, 6701 Democracy Blvd., Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Thomas John O'Farrell, Scientific Review Officer, Scientific Review Branch, National Institute of Dental & Craniofacial Research, National Institutes of Health, 6701 Democracy Blvd., Bethesda, MD 20892, (301) 584-4859, tom.ofarrell@nih.gov.

(Catalogue of Federal Domestic Assistance Program No. 93.121, Oral Diseases and

Disorders Research, National Institutes of Health, HHS)

Dated: October 13, 2022.

Melanie J. Pantoja,

Program Analyst, Office of Federal Advisory Committee Policy.

BILLING CODE 4140-01-P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX23LR000F60100; OMB Control Number 1028-0059/Renewal]

Agency Information Collection Activities; Comprehensive Test Ban Treaty

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing to renew an Information Collection.

DATES: Interested persons are invited to submit comments on or before December 19, 2022.

ADDRESSES: Send your comments on this Information Collection Request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028-0059 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Elizabeth S. Sangine by email at escottsangine@usgs.gov, or by telephone at 703-648-7720. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's

reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of the USGS minerals information mission; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The collection of this information is required by the Comprehensive Test Ban Treaty (CTBT), and we will, upon request, provide the CTBT Technical Secretariat with geographic locations of sites where chemical explosions greater than 300 tons TNT-equivalent have occurred.

Title of Collection: Comprehensive Test Ban Treaty.

OMB Control Number: 1028-0059.

Form Number: USGS Form 9-4040-A.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public:

Business or Other-For-Profit Institutions: U.S. nonfuel mineral producers.

Total Estimated Number of Annual Respondents: 2,500.

Total Estimated Number of Annual Responses: 2,500.

Estimated Completion Time per Response: 15 minutes.

Total Estimated Number of Annual Burden Hours: 625.

Respondent's Obligation: Voluntary.

Frequency of Collection: Annually.

Total Estimated Annual Non-Hour Burden Cost: There are no "non-hour cost" burdens associated with this ICR.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information

unless it displays a currently valid OMB control number.

The authorities for this action are the PRA, the National Materials and Minerals Policy, Research and Development Act of 1980 (30 U.S.C. 1601 *et seq.*), the National Mining and Minerals Policy Act of 1970 (30 U.S.C. 21(a)), the CTBT Part III, and the CTBT USGS-Department of Defense Memorandum of Agreement.

Steven Fortier,

Director, National Minerals Information Center, U.S. Geological Survey.

Deepwater Horizon Oil Spill Natural Resource Damage Assessment, Alabama Trustee Implementation Group: Final Bon Secour National Wildlife Refuge Recreation Enhancements: Supplemental Restoration Plan

AGENCY: Department of the Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the Oil Pollution Act of 1990 (OPA), the National Environmental Policy Act of 1969 (NEPA), the *Final Programmatic Damage Assessment Restoration Plan and Final Programmatic Environmental Impact Statement* (Final PDARP/PEIS), and the *Deepwater Horizon (DWH) Consent Decree*, the Federal and State natural resource trustee agencies for the Alabama Trustee Implementation Group (Alabama TIG) have prepared the *Final Bon Secour National Wildlife Refuge Recreation Enhancements: Supplemental Restoration Plan* (SRP). The Alabama TIG selects their preferred alternative of adding approximately \$2 million to the Mobile Street Boardwalk project budget to facilitate full implementation of the project as originally planned. This would continue the process of restoring lost recreational use in the Alabama Restoration Area that resulted from the DWH oil spill of 2010.

ADDRESSES: *Obtaining Documents:* You may download the Final SRP from the following websites:

- <http://www.gulfspillrestoration.noaa.gov/restoration-areas/alabama>
- <http://www.doi.gov/deepwaterhorizon>

Alternatively, you may request a CD (compact disc) of the Final SRP (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT:

Nanciann Regalado, via email at nanciann_regalado@fws.gov or via telephone at 678–296–6805. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION:

Introduction

On April 20, 2010, the mobile offshore drilling unit, *Deepwater Horizon*, which was being used to drill a well for BP Exploration and Production, Inc. (BP), in the Macondo prospect (Mississippi Canyon 252—MC252), experienced a significant explosion, fire, and subsequent sinking in the Gulf of Mexico, resulting in an unprecedented volume of oil and other discharges from the rig and from the wellhead on the seabed. The DWH oil spill is the largest oil spill in U.S. history, discharging millions of barrels of oil over a period of 87 days. In addition, well over 1 million gallons of dispersants were applied to the waters of the spill area in an attempt to disperse the spilled oil. An undetermined amount of natural gas was also released into the environment as a result of the spill.

State and Federal trustees conducted the natural resource damage assessment (NRDA) for the DWH oil spill under the Oil Pollution Act 1990 (OPA; 33 U.S.C. 2701 *et seq.*). Pursuant to the OPA, Federal and State agencies act as trustees on behalf of the public to assess natural resource injuries and losses and to determine the actions required to compensate the public for those injuries and losses. The OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the completion of restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred).

The DWH Trustees are:

- U.S. Department of the Interior (DOI), as represented by the National Park Service, U.S. Fish and Wildlife Service (USFWS), and Bureau of Land Management;

- National Oceanic and Atmospheric Administration (NOAA), on behalf of the U.S. Department of Commerce;

- U.S. Department of Agriculture (USDA);

- U.S. Environmental Protection Agency (EPA);

- State of Louisiana Coastal Protection and Restoration Authority, Oil Spill Coordinator's Office, Department of Environmental Quality, Department of Wildlife and Fisheries, and Department of Natural Resources;

- State of Mississippi Department of Environmental Quality;

- State of Alabama Department of Conservation and Natural Resources and Geological Survey of Alabama;

- State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; and

- State of Texas: Texas Parks and Wildlife Department, Texas General Land Office, and Texas Commission on Environmental Quality.

The Trustees reached and finalized a settlement of their natural resource damage claims with BP in an April 4, 2016, Consent Decree approved by the U.S. District Court for the Eastern District of Louisiana. Pursuant to that Consent Decree, restoration projects in the Alabama Restoration Area are now chosen and managed by the Alabama TIG. The Alabama TIG is composed of the following six Trustees: Alabama Department of Conservation and Natural Resources, Geological Survey of Alabama, DOI, NOAA, EPA, and USDA.

Background

The Alabama TIG Restoration Plan III/Environmental Assessment (RP III/EA) selected seven projects for implementation, allocating funds from two restoration types identified in the DWH Consent Decree: “Provide and Enhance Recreational Opportunities” and “Birds.” The Alabama TIG RP III addendum subsequently approved funding for the two projects conditionally approved in the RP III/EA, one of which was the Bon Secour National Wildlife Refuge Recreation Enhancement—Mobile Street Boardwalk (Mobile Street Boardwalk) Project. Since then, the project cost estimate has been revised because of increased costs in materials and construction. The cost increases were incurred, in part, due to economic fluctuations accompanying the COVID–19 pandemic, as well as Hurricane Sally which made landfall in September 2020. Given the substantial increase in project cost, the Alabama TIG prepared a Supplemental Restoration Plan to evaluate increasing project funding under the OPA.
