k. *Description of Request:* The licensee requests a non-capacity amendment of its license to upgrade the project's auxiliary spillway with: (1) a new 320-foot-wide labyrinth crested control section; (2) a new converging chute section; (3) a stilling basin; (4) a section of articulated concrete blocks; and (5) a terminal structure that extends to the Muskegon River. The licensee proposes to begin construction during summer 2023 and construction activities would last approximately 3 years. The licensee's proposal would require replacing and widening the road on the dam crest and temporary closure of several recreation sites (e.g., Hardy Dam Nature Trail, Hardy Dam Marina, and Operator's Village Fishing Pier).

To complete the construction described above, the licensee proposes to extend the already permitted temporary variance from Article 401, approved by the Commission on September 6, 2022. Article 401 allows the licensee to, among other things, drawdown the reservoir elevation 12 feet below the normal operating elevation from January 1 to April 30. The temporary variance approved on September 6, 2022, allows the winter drawdown to occur from November 1 until the Friday before Memorial Day from September 2022 through December 10, 2025. On September 16, 2022, the licensee requested to extend the temporary variance to incorporate drawdown periods from September 1, 2023, to July 31, 2024; from November 1, 2024, to the end of May 2025; and from November 1, 2025, to July 31,
