ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 271

[EPA–R08–RCRA–2022–0485; FRL 9896–02–R8]

North Dakota: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The State of North Dakota Department of Environmental Quality (NDDEQ) has applied to the Environmental Protection Agency (EPA) for final authorization of certain changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). The EPA has reviewed North Dakota’s application and determined that North Dakota’s hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. EPA is authorizing the State program revision through this direct final rule. EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial action and does not anticipate adverse comments. However, in the proposed rules section of this issue of the **Federal Register**, EPA is publishing a separate document that will serve as a proposal to authorize the revision should the Agency receive adverse comment. Unless EPA receives adverse written comments during the review and comment period, the decision to authorize North Dakota’s hazardous waste program revision will take effect as provided below.

DATES: This final rule is effective on December 19, 2022 unless EPA receives adverse written comment by November 18, 2022. Should EPA receive such comments, it will publish a timely document by either: withdrawing the direct final publication or affirming the

publication and responding to comments.

ADDRESSES: Submit your comments by one of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Email:* lin.moye@epa.gov.
- *Fax:* (303) 312–6341 (prior to faxing, please notify the EPA contact listed below).

Special arrangements should be made for deliveries of boxed information.

Instructions: EPA must receive your comments by November 18, 2022. Direct your comments to EPA–R08–RCRA–2022–0485; FR 9896–02–R8. The EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information where disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <https://www.regulations.gov> or email. The Federal website <https://www.regulations.gov> is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through <https://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in

the body of your comment. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption and be free of any defects or viruses.

Docket: All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, e.g., CBI or other information where disclosure is restricted by statute. SUPPLEMENTARY INFORMATION:

A. Why are revisions to State programs necessary?

States which have received Final authorization from EPA under RCRA section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal program. As the Federal program changes, States must change their programs and ask EPA to authorize the changes. Changes to State programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must change their programs because of changes to EPA’s regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 268, 270, 273 and 279.

B. What decisions has EPA made in this rule?

On October 29, 2021, the State of North Dakota submitted a final complete program revision application seeking authorization of changes to its
