DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) re-approve the proposed information collection project “*Online Submission Form for Supplemental Evidence and Data for Systematic Reviews for the Evidence-based Practice Center Program.*”

This proposed information collection was previously published in the **Federal Register** on July 19, 2022 and allowed 60 days for public comment. AHRQ did not receive substantive comments during public review period. The purpose of this notice is to allow an additional 30 days for public comment.

DATES: Comments on this notice must be received by November 21, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427-1477, or by email at doris.lefkowitz@ahrq.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

“*Online Submission Form for Supplemental Evidence and Data for Systematic Reviews for the Evidence-Based Practice Center Program.*”

This is an ongoing activity of AHRQ’s Evidence-based Practice Center (EPC) Program.

AHRQ’s EPC Program develops evidence reports and technology assessments on topics relevant to clinical and other health care organization and delivery issues—specifically those that are common, expensive, and/or significant for the Medicare and Medicaid populations. For example, recent reviews have focused on clinical conditions, such as “Radiation Therapy for Brain Metastases”; health delivery topics, such as “Transitions of Care From Pediatric to Adult Services for Children With Special Healthcare Needs”; and specific technologies, such as “Telehealth for Women’s Preventive Services.” These evidence reports include systematic reviews, technical briefs, and rapid reviews; and provide an essential foundation from which to understand what we know from existing research and what critical research gaps remain. These reports, reviews, and

technology assessments are based on rigorous, comprehensive syntheses and analyses of the scientific literature on topics. EPC reports and assessments emphasize explicit and detailed documentation of methods, rationale, and assumptions. EPC reports are conducted in accordance with an established policy on financial and nonfinancial interests. These scientific syntheses may include meta-analyses and cost analyses.

The EPC Program supports AHRQ’s mission by synthesizing and disseminating the available research as a “science partner” with private and public organizations in their efforts to improve the quality, effectiveness, and appropriateness of health care. The EPC Program is a trusted source of rigorous, comprehensive, and unbiased evidence reviews for stakeholders. The resulting evidence reports and technology assessments are used by Federal and State agencies, private-sector professional societies, health delivery systems, providers, payers, and others committed to evidence-based health care. These end-users may use EPC Program evidence reports to inform policy decisions, clinical practice guidelines, and other healthcare decisions.

This research has the following goals:

- Use research methods to gather knowledge on the effectiveness and harms of certain treatments and healthcare delivery processes and models for medical conditions, both published and unpublished, to evaluate the quality of research studies and the evidence from these studies.
- Promote the use of evidence in healthcare decision making to improve healthcare and health.
- Identify research gaps to inform future research investments.

This study is being conducted by AHRQ pursuant to its statutory authority to conduct and support research on healthcare and on systems for the delivery of such care, including activities with respect to the quality, effectiveness, efficiency, appropriateness and value of healthcare services and with respect to quality measurement and improvement. 42 U.S.C. 299a(a)(1) and (2).

Method of Collection

To achieve the goals of this project the following data collection will be implemented:

- **Online Submission Form.** This information is collected for the purposes of providing supplemental evidence and data for systematic reviews (SEADS). The online submission form (OSF) collects data from respondents on their
