SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing the final FONSI and accompanying supplement to the NRC staff's EA for the license renewal of CBR's ISR facility. The EA supplement describes the NRC staff's efforts to address the deficiencies identified in the Atomic Safety and Licensing Board's partial initial decision (LBP-16-7), which found that the NRC staff did not meet its identification obligations under the National Historic Preservation Act (NHPA) and was deficient under the National Environmental Policy Act (NEPA) "for failing to take a hard look at potential TCPs [traditional cultural properties] within the Crow Butte license area[.]" Specifically, the EA supplement describes the methodology, implementation, and results of the 2021 tribal cultural survey to identify sites of significance to the Oglala Sioux Tribe. It also documents the NRC staff's evaluation of the identified sites according to the criteria for listing in the National Register of Historic Places (NRHP) and the NRC staff's assessment of potential impacts of the license renewal on the identified sites under the NHPA (for sites eligible for the NRHP) or NEPA (for other sites of significance to the Tribe). Based on these evaluations in the EA supplement, the NRC staff concludes that there will be no significant impacts to cultural resources identified during the 2021 tribal cultural survey. Accordingly, based on the 2014 EA (ADAMS Accession No. ML14288A517) and the EA supplement, the NRC staff has concluded that an environmental impact statement is not necessary and a FONSI remains appropriate.

II. Finding of No Significant Impact

Based on its review of the proposed action, in accordance with the requirements in part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," the NRC staff has concluded that the proposed action, renewal of NRC Source Materials License No. SUA-1534 for CBR's ISR

facility located in Crawford, Nebraska, will not have a significant impact on the cultural resources discussed in the EA supplement and will not significantly affect the quality of the human environment. Therefore, the NRC staff has determined, pursuant to 10 CFR 51.31, that preparation of an environmental impact statement is not required for the proposed action and a FONSI is appropriate.

III. Additional Information

The NRC published a notice of the availability of the draft EA supplement and draft FONSI in the **Federal Register** on August 26, 2022 (87 FR 52597) for a 30-day public comment period. The public comment period closed on September 26, 2022. The ADAMS accession numbers for the public comments on the draft EA supplement and draft FONSI, and the NRC staff's responses to the public comments, are provided in an appendix to the final EA supplement.

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-496, OMB Control No. 3235-0554]

Proposed Collection; Comment Request; Extension: Rule 6a-4, Form 1-N

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services,

100 F Street NE, Washington, DC 20549-2736.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) is soliciting comments on the collection of information provided for in Rule 6a-4 and Form 1-N, summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval. The Code of Federal Regulation citation to this collection of information is 17 CFR 240.6a-4 and 17 CFR 249.10 under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) (the “Act”).

Section 6 of the Act¹ sets out a framework for the registration and regulation of national securities exchanges. Under the Commodity Futures Modernization Act of 2000, a futures market may trade security futures products by registering as a national securities exchange. Rule 6a-4² sets forth these registration procedures and directs futures markets to submit a notice registration on Form 1-N.³ Form 1-N calls for information regarding how the futures market operates, its rules and procedures, corporate governance, its criteria for membership, its subsidiaries and affiliates, and the security futures products it intends to trade. Rule 6a-4 also requires entities that have submitted an initial Form 1-N to file: (1) amendments to Form 1-N in the event of material changes to the information provided in the initial Form 1-N; (2) periodic updates of certain information provided in the initial Form 1-N; (3) certain information that is provided to the futures market’s members; and (4) a monthly report summarizing the futures market’s trading of security futures products. The information required to be filed with the Commission pursuant to Rule 6a-4 is designed to enable the Commission to carry out its statutorily mandated oversight functions and to ensure that registered and exempt exchanges continue to be in compliance with the Act.

The respondents to the collection of information are futures markets.

The Commission estimates that the total annual burden for all respondents to provide periodic amendments to keep the Form 1-N accurate and up to date as required under Rule 6a-4(b)(1) would be 30 hours (15 hours/respondent per year × 2 respondents) and \$200 of

miscellaneous clerical expenses. The Commission estimates that the total annual burden for all respondents to provide annual amendments under Rule 6a-4(b)(3) would be 30 hours (15 hours/respondent/year × 2 respondents) and \$200 of miscellaneous clerical expenses. The Commission estimates that the total annual burden for all respondents to provide three-year amendments under Rule 6a-4(b)(4) would be 14 hours (20 hours/respondent × 0.67 respondents per year) and \$88 in miscellaneous clerical expenses. The Commission estimates that the total annual burden for the filing of the supplemental information and the monthly reports required under Rule 6a-4(c) would be 12 hours (6 hours/respondent per year × 2 respondents) and \$120 of miscellaneous clerical expenses. Thus, the Commission estimates the total annual burden for complying with Rule 6a-4 is 86 hours and \$608 in miscellaneous clerical expenses.

Compliance with Rule 6a-4 is mandatory. Information received in response to Rule 6a-4 shall not be kept confidential; the information collected is public information.

Written comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing by December 27, 2022.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Please direct your written comments to: David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John Pezzullo, 100 F Street NE, Washington, DC 20549 or send an email to: PRA_Mailbox@sec.gov.

Dated: October 19, 2022.

Assistant Secretary.
