

company-run stress testing requirement in section 165(i)(2) of the Dodd-Frank Act.<sup>8</sup> Specifically, section 401 of EGRRCPA raises the minimum asset threshold for financial companies covered by the company-run stress testing requirement from \$10 billion to \$250 billion in total consolidated assets; revises the requirement for banks to conduct stress tests “annually” and instead requires them to conduct stress tests “periodically”; and no longer requires the OCC to provide an “adverse” stress-testing scenario, thus reducing the number of required stress test scenarios from three to two.

The OCC uses the information to assess the reasonableness of the stress test results and provide forward-looking information to the OCC regarding a covered institution’s capital adequacy. The OCC also may use stress test results to determine whether additional analytical techniques and exercises could be appropriate to identify, measure, and monitor risks at the covered institution. The stress test results support ongoing improvement in a covered institution’s stress testing practices with respect to its internal assessments of capital adequacy and overall capital planning.

Under 12 CFR 46.6(c), each covered institution is required to establish and maintain a system of controls, oversight, and documentation, including policies and procedures, describing the covered institution’s stress test practices and methodologies, and processes for validating and updating the covered institution’s stress test practices. The board of directors of the covered

institution must approve and review these policies at least annually. Section 46.7(a) requires each covered institution to report the results of their stress tests to the OCC annually. Section 46.8(a) requires that a covered institution publish a summary of the results of its annual stress tests on its website or in any other forum that is reasonably accessible to the public.

The 2019 increase in the applicability threshold for these requirements<sup>9</sup> reduced the estimated number of respondents. In addition, the frequency of these reporting, recordkeeping, and disclosure requirements for some institutions were scaled back to biennial.

*Affected Public:* Businesses or other for-profit.

*Estimated Annual Burden:* 6,240 Hours.

*Frequency of Response:* Annual or biannual.

*Comments:* On June 30, 2022, the OCC published a 60-day notice for this information collection, 87 FR 39159. No comments were received. Comments continue to be solicited on:

(a) Whether the collections of information are necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC’s estimates of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including

through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
