

system administrator and this award expand options for connection and support for individuals at higher risk of suicide, expand current language access services to include Spanish chat and text services, work to activate videophone for those deaf and hard of hearing, and improve access and capacity utilization of the nationwide backup system while maximizing state and territory response. Since 2005, Vibrant Emotional Health has provided oversight and management of the NSPL and its local call centers, backup centers, Spanish network, and chat/text functions with a network of over 200 centers in all fifty states. In FY 2021, SAMHSA issued a competitive Notice of Funding Opportunity for the NSPL, which was awarded to Vibrant Emotional Health for a 5-year project period (September 30, 2021, to September 29, 2026). Vibrant Emotional Health has the infrastructure, experience, and national reach to work with the backup centers, language services, and chat/text organizations to address the increased contact volumes expected in 2023. With the transition to 988 accomplished, greater services, such as expanding access to the local and national Lifeline backup centers, language services, system evaluation and data reporting, and access to specialized care for populations to be known at higher risk for suicide, are required for the 988 projected contacts in 2023 and beyond.

It would not be possible for any other organization to establish the relationships or technical systems with crisis centers that Vibrant Emotional Health has built over the last 15 years to accomplish the goals by December 2023. Any significant modification to the current 988 network, technology platform and/or administration would significantly delay operational outcomes and run the risk of significant numbers of unanswered calls, chats, and texts of individuals in crisis. Since the transition to 988, the Lifeline, under Vibrant's network administration and HHS funding, has seen call answer rates significantly improve and far greater numbers of individuals served in crisis. The impact of having administration disruption and splitting of network oversight significantly increases public safety risk now more than ever as 988 is quickly becoming transitioned to a greater utilized public service and an entry way into more centralized behavioral health crisis care. Oversight of the expanded back up, language services, and chat/text centers would be fragmented and run the risk of both inefficiencies and adverse outcomes, as

well as coordination, quality monitoring, and rapid response could be compromised. Vibrant has extensive engagement, including direct contractual obligations, with the Department of Veterans Affairs (VA), Veterans Crisis Line (VCL) that helps ensure call connectivity between Vibrant and VCL, backup services, and engagement across the Lifeline local crisis centers on Veteran identification, care, and linkage to VA. and is uniquely qualified to carry-out the requirements of this funding opportunity.

SUPPLEMENTARY INFORMATION: It is expected this program will: (1) increase operational transparency and improve data and workforce management; (2) increase language access services available to the nation, including adding chat and text Spanish services; and (3) further enhance access for high-risk populations. With this award, Vibrant Emotional Health will directly support the needed expansion of the national back-up system of Lifeline crisis centers, expand options for connection and support, including backup, chat, text, Spanish, and specialized centers; enhance operational administrative and data systems to ensure the Network can meet or exceed established metrics; expand Spanish and other languages chat and text services, and video services for those deaf or hard of hearing; ensure crisis centers across states, and territories are provided enhanced technical assistance for improving response rates for all phone, chat and text services and develop processes for enhanced analytic capability in the actual connection rates for center and state outcomes across all services; develop network operational dashboards to improve oversight of outcomes and enhance public data transparency of network service and response. In addition, this funding will also enhance workforce management solutions for the Lifeline crisis centers, helping to ensure effective workforce projection planning and utilization to meet network, state, and local key performance indicators; develop a plan to expand and/or provide support and response for populations at high risk for suicide; and provide expanded services for populations at higher risk of suicide, including but not limited to LGBTQI+, American Indian/Alaska Native, rural individuals, individuals with mental illness and substance use disorders, Black/African-American youth and older men by September 30, 2023.

This is not a formal request for application. Assistance will be provided only to Vibrant Emotional Health based on the receipt of a satisfactory

application that is approved by an independent review group.

Title: Customs and Border Protection Recordkeeping Requirements.

OMB Number: 1651-0076.

Form Number: N/A

Current Actions: CBP proposes to extend the expiration date of this information collection with no change to the burden hours or to the recordkeeping requirements.

Type of Review: Extension (without change).

Affected Public: Businesses.

Abstract: The North American Free Trade Agreement Implementation Act, Title VI, known as the Customs Modernization Act (Mod Act) amended Title 19 U.S.C. 1508, 1509 and 1510 by revising Customs and Border Protection

(CBP) laws related to recordkeeping, examination of books and witnesses, regulatory audit procedures and judicial enforcement. Specifically, the Mod Act expanded the list of parties subject to CBP recordkeeping requirements; distinguished between records which pertain to the entry of merchandise and financial records needed to substantiate the correctness of information contained in entry documentation; and identified a list of records which must be maintained and produced upon request by CBP. The information and records are used by CBP to verify the accuracy of the claims made on the entry documents regarding the tariff status of imported merchandise, admissibility, classification/nomenclature, value, and rate of duty applicable to the entered goods. The Mod Act recordkeeping requirements are provided for by 19 CFR 163. Instructions are available at: <http://www.cbp.gov/document/publications/recordkeeping>.

The respondents to this information collection are members of the trade community who are familiar with CBP regulations.
