

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart BBBBBB).

Estimated number of respondents: 3 (total).

Frequency of response: Initially, annually, and semiannually.

Total estimated burden: 176 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$21,100 (per year), which includes \$45 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The adjustment decrease in burden from the most-recently approved ICR is due to a decrease in the number of sources. This ICR reflects a substantial decrease in the number of respondents in the currently approved ICR, based on data collected from the chemical preparations industry as part of a 2020 section 114 information collection request. There were 26 affected sources estimated in the most-recently approved ICR, and this ICR renewal estimates there are three affected sources. The number of sources has decreased by 88 percent, which reflects an overall decline in the industry. There are no capital/startup costs in this ICR. The O&M costs decreased due to the decreased number of affected sources.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2020-0641; FRL-10379-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Iron and Steel Foundries Area Sources (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Iron and Steel Foundries Area Sources (EPA ICR Number 2267.08, OMB Control Number 2060-0605), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through September 31, 2023. Public comments were previously

requested, via the **Federal Register**, on February 8, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 28, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2020-0641 to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov/> or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Iron and Steel Foundries Area Sources (40 CFR part 63, subpart ZZZZZ) apply to both new and existing iron and/or steel foundries that are an area source of hazardous air pollutants (HAP) emissions. There are different requirements for foundries based on size. Existing foundries with an annual metal melt production greater than 20,000 tons and new foundries with an annual melt capacity of 10,000 tons are classified as large foundries. Existing foundries with an annual metal melt capacity of 10,000 tons or less are classified as small foundries. Research and development facilities are not covered by the rule. New facilities include those that commenced either construction, modification or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart ZZZZZ.

Form Numbers: 5900-521.

Respondents/affected entities: Iron and steel foundries.

Respondent's obligation to respond: Mandatory (40 CFR 63, Subpart ZZZZZ).

Estimated number of respondents: 390 (total).

Frequency of response: Initially, occasionally, quarterly, semiannually, and annually.

Total estimated burden: 12,970 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,540,000 (per year), which includes \$0 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. There are no changes in the regulatory requirements and there is no significant industry growth since the most-recently approved ICR was developed. The previous ICR reflected those burdens and costs associated with certain one-time activities including reviewing record keeping systems, adjusting methods, and training employees as a result of the 2020 rule

revisions (85 FR 56080). This ICR, by and large, reflects the on-going burden and costs for existing facilities.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0740; FR ID 110405]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments shall be submitted on or before December 27, 2022. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email: PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0740.

Title: Section 95.2109, AMTS Notifications; 95.2195, LPRS Disclosures.

Form No.: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 26 respondents and 26 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement, and third-party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 47 U.S.C. 154 and 303.

Total Annual Burden: 26 hours.

Annual Cost Burden: \$1,300.

Needs and Uses: Manufacturers of Low Power Radio Service (LPRS) used for auditory assistance, health care assistance, and law enforcement tracking purposes must include with each transmitting device the following statement: "This transmitter is authorized by rule under the Low Power Radio Service (47 CFR part 95) and must not cause harmful interference to TV reception or United States Navy SPASUR installations. You do not need an FCC license to operate this transmitter. This transmitter may only be used to provide: Auditory assistance to persons with disabilities, persons who require language translation, or persons in educational settings; health care services to the ill; law enforcement tracking services under agreement with a law enforcement agency; or automated maritime telecommunications system (AMTS) network control communications. Two-way voice communications and all other types of uses not mentioned above are expressly prohibited."

The reporting requirement contained in section 95.2109 states that Prior to operating a LPRS transmitter with an AMTS, the AMTS licensee must notify, in writing, each television station that may be affected by such operations, as defined in section 80.215(h). The notification provided with the station's license application is sufficient to satisfy this requirement if no new television stations would be affected.

The information collection requirement contained in section 95.2195 requires that manufacturers of LPRS transmitters used for auditory assistance, health care assistance, and law enforcement tracking purposes must include with each transmitting device the following statement:

This transmitter is authorized by rule under the Low Power Radio Service (47 CFR part 95) and must not cause harmful interference to TV reception or to the United States Air Force Space Surveillance System operating in the 216.88-217.08 MHz band. With the exception of automated maritime telecommunications system (AMTS) devices, you do not need an FCC license to operate this transmitter. This transmitter may only be used to provide: Auditory assistance to persons with disabilities, persons who require language translation, or persons in educational settings; health care services to the ill; law enforcement tracking services under agreement with a law enforcement agency; or AMTS network control communications. Two-way voice communications and all other types of uses not mentioned above are expressly prohibited.

Please note that sections 95.1015(a) and (b) were renumbered to sections 95.2195 and 95.2109 via FCC 17-57.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
