BILLING CODE P

DEPARTMENT OF JUSTICE

[OMB Number 1121-XXXX]

Agency Information Collection Activities; Proposed eCollection; eComments Requested; Existing Collection in Use Without an OMB Control Number: AVUE Digital Services—Electronic Applications

AGENCY: Office of Justice Programs, Department of Justice.

ACTION: 30 Day notice.

SUMMARY: The Office of Justice Programs, Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: The Department of Justice encourages public comment and will accept input until November 30, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Office of Justice Programs, including whether the information will have practical utility;
• Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
• Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. Type of Information Collection: Existing collection in use without an OMB Control Number.

2. The Title of the Form/Collection: The Avue Digital Services application for federal employment.

3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: NA.

Sponsor: The Office of Justice Programs, Department of Justice.

4. Affected public who will be asked or required to respond, as well as a brief abstract: The primary respondents are public citizens who are applying for OJP federal positions. Avue is a web-based application system that provides automated support for posting federal vacancies. The applicants use the system to submit electronic applications for job vacancies. Candidates enter pertinent information and responds to a series of electronic screens and experience statements. The data is then certified and submitted for OJP HR Specialists to review and certify the applications. The candidate is automatically notified by email that his/her application has been received when he/she certifies and submits his/her electronic application and provided other status updates throughout the hiring cycle.

5. An Estimate of the Total Number of Respondents and the Amount of Time Estimated for an Average Respondent to Respond: In calendar year 2021, there were 1,707 applications submitted for jobs at OJP. A sampling of applicants who started and completed their OJP applications on the same day in 2021 was 740 applicants and using this sample, the system reported a total of 56,832 minutes for those 740 applications, or an average of 76.8 minutes (76 minutes, 48 seconds) spent on each application.

6. An Estimate of the Total Public Burden (in hours) Associated with the collection: The estimated public burden associated with this application is 949 hours in calendar year 2021. This is based on 740 applicants spending 77 (rounded up) minutes on each application for a total of 56,980 minutes.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Comment Request

**AGENCY:** National Center for Science and Engineering Statistics, National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation invites the general public and other federal agencies to comment on a proposed information collection. NCSES plans to collect information from individuals to fulfill its data security requirements when providing the individual with access to restricted use microdata for the purpose of evidence building. NCSES's data security agreements and other paperwork along with the corresponding security protocols allow the agency to maintain careful controls on confidentiality and privacy, as required by law. The purpose of this notice is to allow for 60 days of public comment on the proposed data security information collection, prior to submission of the information collection request (ICR) to the Office of Management and Budget (OMB).

**DATES:** Written comments on this notice must be received by December 30, 2022 to be assured of consideration.

Comments received after that date will be considered to the extent practicable. Send comments to the address below.

*Comments:* Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of NCSES, including whether the information will have practical utility; (b) the accuracy of NCSES estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

#### FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18253, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

**SUPPLEMENTARY INFORMATION:** The Foundations for Evidence-Based Policymaking Act of 2018 mandates that the Office of Management and Budget (OMB) establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. While the adoption of the SAP is required for statistical agencies and units designated under the Confidential Information Protection and Statistical Efficiency Act of 2018, it is recognized that other agencies and organizational units within the Executive branch may benefit from the adoption of the SAP to accept applications for access to confidential data assets. The SAP is to be a process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply to access confidential data assets held by a federal statistical agency or unit for the purposes of developing evidence. With the Interagency Council on Statistical Policy (ICSP) as advisors, the entities upon whom this requirement is levied are working with the SAP Project Management Office (PMO) and with OMB to implement the SAP. The SAP Portal is to be a single web-based

common application for requesting access to confidential data assets from federal statistical agencies and units. NCSES submitted a **Federal Register** Notice in September 2022 announcing plans to collect information through the SAP Portal (87 FR 53793).

Once an application for confidential data is approved through the SAP Portal, NCSES will collect information to meet its data security requirements. This collection will occur outside of the SAP Portal.

*Title of collection:* Data Security Requirements for Accessing Confidential Data.

*OMB Control Number:* 3145–NEW.

*Expiration Date of Current Approval:* Not Applicable.

*Type of Request:* Intent to seek approval to collect information to fulfill NCSES's security requirements allowing individuals to access confidential data assets for the purposes of building evidence.

*Abstract:* Title III of the Foundations for Evidence-Based Policymaking Act of 2018 (hereafter referred to as the Evidence Act) mandates that OMB establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. Specifically, the Evidence Act requires OMB to establish a common application process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply for access to confidential data assets collected, accessed, or acquired by a statistical agency or unit. This new process will be implemented while maintaining stringent controls to protect confidentiality and privacy, as required by law.

Data collected, accessed, or acquired by statistical agencies and units is vital for developing evidence on the characteristics and behaviors of the public and on the operations and outcomes of public programs and policies. This evidence can benefit the stakeholders in the programs, the broader public, as well as policymakers and program managers at the local, State, Tribal, and National levels. The many benefits of access to data for evidence building notwithstanding, NCSES is required by law to maintain careful controls that allow it to minimize disclosure risk while protecting confidentiality and privacy. The fulfillment of NCSES's data security requirements places a degree of burden on individuals, which is outlined below.

The SAP Portal is a web-based application to allow individuals to
