

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration**

[Docket No. 2022–0580]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: QSA Customer Feedback Report**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 13, 2022. The collection involves the voluntary submission of responses to survey questions. The information is collected from holders of FAA production approvals and selected suppliers and provides them an opportunity to offer their input on how well the agency is performing the administration and conduct of the Aircraft Certification Systems Quality System Audit (QSA). The information to be collected will be used to promote continuous improvement initiatives and industry dialog in the FAA oversight process.

DATES: Written comments should be submitted by December 1, 2022.**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.**FOR FURTHER INFORMATION CONTACT:** Joedy Collado, AIR–634 by email at joedy.collado@faa.gov; phone: 202–267–6440.**SUPPLEMENTARY INFORMATION:**

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be

minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0605.*Title:* Quality System Audit Feedback Report.*Form Numbers:* FAA Form 8100–7.*Type of Review:* Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 13, 2022 (87 FR 29426). The feedback information collection is voluntary and is collected by way of a self-addressed stamped envelope. It is used by local field offices, manufacturing inspection offices and the surveillance and oversight policy section of AIR–600 to improve the administration and conduct of the QSA at the local and national levels. Improvements to FAA Order 8120.23, Certificate Management of Production Approval Holders, have been and will continue to be included as policy evolves as a direct benefit of the on-going collection of that feedback information. It will also be used for reporting as a Customer Service Standard in fulfillment of Executive Order 12862, Setting Customer Service Standards, dated September 11, 1993.

Respondents: There are approximately 50 holders of FAA production approvals responding annually. This metric was updated from the 60 day FRN as a wider sampling was taken to more accurately validate and maintain consistency with supporting statement responses. Audit frequencies change from year to year as due dates range from 12 to 48 months. Accordingly, the sampling period was adjusted to capture the most recent three year period that full data was readily available.

Frequency: Feedback information is collected about thirty days after conclusion of the oversight activity. The feedback provided is voluntarily submitted by the audited facility on occasion which is predicated on their audit due date frequency.

Estimated Average Burden per Response: 30 Minutes.*Estimated Total Annual Burden:* 25 Hours.

Issued in Washington, DC, on October 25, 2022.

Joedy Collado,

Aviation Safety Inspector, Compliance Systems, Systems Policy Branch, AIR–630, Policy and Innovation Division.

[Docket No. FAA–2022–0579]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Suspected Unapproved Parts Report**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 18, 2022. The information collection is reported voluntarily by those who wish to report suspected unapproved parts (SUP) to the FAA for review. The information is used to determine if an unapproved part investigation is warranted.

DATES: Written comments should be submitted 30 days after date of publication in the **Federal Register**.**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.**FOR FURTHER INFORMATION CONTACT:**Robert Franklin by email at robert.franklin@faa.gov; phone: 202–267–1603.**SUPPLEMENTARY INFORMATION:**

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0552.*Title:* Suspected Unapproved Parts Report.*Form Numbers:* FAA Form 8120–11.*Type of Review:* Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 18, 2022 (87 FR 30327).

The information collected on the FAA Form 8120–11, Suspected Unapproved Parts Report, is reported voluntarily by manufacturers, repair stations, aircraft owner/operators, air carriers, and the general public who wish to report suspected unapproved parts (SUP) to the FAA for review. The report information is collected and correlated by the FAA Hotline Program Office, and used to determine if an unapproved part investigation is warranted. When unapproved parts are confirmed that are likely to exist on other products or aircraft of the same or similar design or are being used in other facilities, the information is used as a basis for an aviation industry alert or notification. Alerts are used to inform industry of situations essential to the prevention of accidents, if the information had not been collected. The consequence to the aviation community would be the inability to determine whether or not unapproved parts are being offered for sale or use for installation on type-certificated products.

Procedures and processes relating to the SUP program and associated reports are found in FAA Order 8120.16A, Suspected Unapproved Parts Program, and Advisory Circular 21–29, Detecting and Reporting Suspected Unapproved Parts. When unapproved parts are identified, the FAA notifies the public by published Field Notifications, disseminated using Unapproved Parts Notifications, Aviation Maintenance Alerts, Airworthiness Directives, entry into an issue of the Service Difficulty Reporting Summary, a Special Airworthiness Information Bulletin, a display on an internet site, or direct mailing. Reporting of information is strictly voluntary. The information is requested from any individual or facility suspecting an unapproved part. Any burden is minimized by requesting only necessary information to warrant an investigation.

Respondents: Anyone may fill out and send FAA Form 8120–11 to the FAA.

Frequency: Whenever anyone discovers or suspects they have received an unapproved part.

Estimated Average Burden per Response: About 30 minutes to read and disposition each form.

Estimated Total Annual Burden: The FAA collects approximately 200 forms from the public per year.

Issued in Des Moines, Washington, on October 19, 2022.

Michael A. Millage,

Manager, Production & Airworthiness Systems, Policy and Innovation Division, Aircraft Certification Service.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA–2022–0030]

Agency Information Collection Activities: Request for Comments for a New Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA invites public comments about our intention to request the Office of Management and Budget's (OMB) approval for a new information collection, which is summarized below under **SUPPLEMENTARY INFORMATION**. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by January 3, 2023.

ADDRESSES: You may submit comments identified by DOT Docket ID Number 2022–0030 by any of the following methods:

Website: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1–202–493–2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590–0001.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Jason Broehm, Office of Safety 202–366–2201 Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590. Office hours are from 9 a.m. to 5:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Safe Streets and Roads for All Grant Program.

Background: The Department of Transportation's (DOT) Office of the Secretary and the Federal Highway Administration are committed to a comprehensive strategy to address the unacceptable number of traffic deaths and serious injuries occurring on our roads and streets. The Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL), Section 24112 aligns with the Department's safety priority through the creation of the Safe Streets and Roads for All Grant Program. This grant program supports local initiatives to prevent deaths and serious injuries on roads and streets and is intended for metropolitan planning organizations, political subdivisions of a State, Federally recognized Tribal governments, and multijurisdictional groups of these entities.

This program includes grant funds to develop a comprehensive safety action plan; to conduct planning, design and development activities for projects and strategies identified in a comprehensive safety action plan; or to carry out projects and strategies identified in a comprehensive safety action plan. To receive applications for grant funds, evaluate the effectiveness of projects that have been awarded grant funds, and monitor project financial conditions and project progress, a collection of information is necessary.

Eligible applicants will request Safe Streets and Roads for All funds in the form of a grant application. Additional information submission will be required of grant recipients during the grant agreement, implementation, and evaluation phases.

Responding to the grant opportunity is on a voluntary-response basis, utilizing an electronic grant platform. The grant application is planned as a one-time information collection. DOT estimates that it will take approximately 30 hours to complete an application for a comprehensive safety action plan grant and approximately 110 hours to complete an application for an implementation grant.

Respondents: Metropolitan planning organizations, political subdivisions of a State, Federally recognized Tribal governments and multijurisdictional groups of these entities.

Frequency: one time per grant application.

During the project management phase, the grantee will complete quarterly progress and monitoring reports to ensure that the project budget and schedule are maintained to the maximum extent possible, that compliance with Federal regulations will be met, and that the project will be
