[Project No. 15038–001]

Let It Go, LLC; Notice of Intent To Prepare an Environmental Assessment

On December 9, 2021, as supplemented,¹ Let It Go, LLC filed an application for an exemption from licensing for the proposed 20-kilowatt Jefferson Mill Hydroelectric Project (Jefferson Mill Project) (FERC No. 15038). The Jefferson Mill Project would be located on the Hardware River near the Town of Scottsville, Albemarle County, Virginia. The project would not occupy federal land.

In accordance with the Commission's regulations, on July 21, 2022, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that exempting the project from licensing would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to exempt the Jefferson Mill Project from licensing.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's decision on whether to issue an exemption from licensing for the project.

¹ The final exemption application filed December 9, 2021 was supplemented on December 15, 2021, December 28, 2021, and March 9, 2022.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	April 2023. ²
Comments on EA	May 2023

Any questions regarding this notice may be directed to Andy Bernick at (202) 502–8660 or andrew.bernick@ferc.gov.

SUPPLEMENTARY INFORMATION:

Title: FERC–730, Report of Transmission Investment Activity.

OMB Control No.: 1902–0239.

Type of Request: Three-year extension of the FERC–730 information collection requirements with no changes to the current reporting requirements.

Abstract: This collection of information assists the Commission in

implementing section 219 of the Federal Power Act (FPA)¹ and 18 CFR 35.35(h), which address incentive-based rate treatments for transmission infrastructure investment. FERC–730 consists of an annual report that includes projections, details on the level and status of transmission investment, and the reason for delay (if any).

The regulation at 18 CFR 35.35(h) requires public utilities that have been granted incentive rate treatment for specific transmission projects to file FERC Form 730 annually, beginning with the calendar year incentive rate treatment is granted by the Commission. Such filings are due by April 18 of the following calendar year and are due April 18 each year thereafter. The following information must be filed:

(1) In dollar terms, actual transmission investment for the most recent calendar year, and projected, incremental investments for the next five calendar years; and

(2) For all current and projected investments (except projects with projected costs less than \$20 million) over the next five calendar years, a project-by-project listing that specifies for each project the most up-to-date, expected completion date, percentage completion as of the date of filing, and reasons for delays.

For good cause shown, the Commission may extend the time within which any FERC–730 filing is to be filed or waive the requirements applicable to any such filing.

The Commission uses the FERC–730 information collection to determine an accurate assessment of the state of transmission investment by public utilities. Filers are strongly encouraged to submit the FERC–730 electronically via eFiling.

Type of Respondents: Public utilities that have been granted incentive based rate treatment for specific transmission projects under provisions of 18 CFR 35.35.

*Estimate of Annual Burden:*² The Commission estimates 63 responses annually, and per-response burdens of 30 hours and \$2,370. The total estimated burdens per year are 1,890 hours and \$171,990. These burdens are itemized in the following table:

¹ 16 U.S.C. 824s.

² Burden is defined as the total time, effort, or financial resources expended by persons to

generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further

explanation of what is included in the information collection burden, refer to 5 CFR 1320.3.
