Management Agency (FEMA), as part of
its continuing effort to reduce
paperwork and respondent burden,
invites the general public and other
Federal agencies to take this
opportunity to comment on an
extension, with change, of a currently
approved information collection. In
accordance with the Paperwork
Reduction Act of 1995, this notice seeks

comments concerning the information
collection activities required to
administer the Environmental and
Historic Preservation Environmental
Screening Form.

DATES: Comments must be submitted on
or before January 3, 2023.

include the agency name and Docket ID.
Regardless of the method used for
submitting comments or material, all

change, to the Federal eRulemaking
Portal at <http://www.regulations.gov>,

FOR FURTHER INFORMATION CONTACT: Beth
McWaters-Bjorkman, Environmental
Protection Specialist, FEMA, Grant
Programs Directorate, 202-431-8594,

copies of the proposed collection of
information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: FEMA's
Grant Programs Directorate (GPD)
awards thousands of grants each year
through various grant programs. These
programs award funds for projects used
to improve homeland security and
emergency preparedness. The National
Environmental Policy Act of 1969
(NEPA), Public Law 91-190, sec. 102 (B)
and (C), 42 U.S.C. 4332, the National
Historic Preservation Act of 1966
(NHPA), Public Law 89-665, 16 U.S.C.
470f, the Endangered Species Act of
1973, Public Law 93-205, 16 U.S.C.
1531 *et seq.*, and a variety of other
environmental and historic preservation
laws and Executive Orders (E.O.)
require the Federal Government to
examine the potential environmental
impacts of its proposed actions on
communities, public health and safety,
and cultural, historic, and natural
resources including endangered and
threatened species prior to
implementing those actions. The GPD
process of considering these potential
impacts is called an environmental and
historic preservation (EHP) review
which is employed to achieve

compliance with multiple EHP
authorities through one consolidated
process.

With input from recipients, FEMA is
proposing to revise the EHP Screening
Form for clarity and ease of use. The
2022 EHP Screening Form does not
require any new information and
includes an appendix with guidance on
providing photographs with the EHP
submission. Recipients are no longer
required to submit Authorized
Equipment List (AEL) numbers.

Collection of Information

Title: Environmental and Historic
Preservation Screening Form.

Type of Information Collection:
Extension, with change, of a currently
approved information collection.

OMB Number: 1660-0115.

FEMA Forms: FEMA Form FF-119-
FY-21-105 (formerly 024-0-1),
Environmental and Historic
Preservation Screening Form.

Abstract: The National Environmental
Policy Act of 1969 (NEPA) requires that
each Federal agency examine the impact
of a major Federal action (including the
actions of recipients using grant funds)
significantly affecting the quality of the
human environment. This involves
considering the environmental impact
of the proposed action, alternatives to
the proposed action, informing both
decision-makers and the public of the
impacts through a transparent process,
and identifying mitigation measures for
any potential adverse impacts (40 CFR
1500.1, 1501.5 and 1501.6). Among
other environmental laws, the review
also involves considering the effects of
the undertaking on historic properties
under Section 106 of the National
Historic Preservation Act and the effects
of the action on any threatened or
endangered species and their habitat
under Section 7 of the Endangered
Species Act of 1973. This Screening
Form will facilitate the Federal
Emergency Management Agency's
(FEMA's) review of recipient Federally-
funded actions in FEMA's effort to
comply with the environmental
requirements.

SUPPLEMENTARY INFORMATION: The CISA ECD, formed under Title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 571 *et seq.*, as amended, is required to develop and maintain the Nationwide Emergency Communications Plan (NECP). The vision of the NECP is to ensure emergency response personnel can communicate as needed, on demand, and as authorized. To achieve this vision, ECD provides the Communications Assets and Survey Mapping (CASM) Tool. The CASM Tool is the primary resource nationwide for the emergency communications community to inventory and share asset and training information for the purpose of planning public safety communications operability and interoperability.

ECD provides the CASM Tool as a secure and free nationwide database to contain communications capabilities for

use by Federal, State, Local, Territorial, and Tribal (SLTT) emergency personnel. CASM allows Federal employees and SLTT Statewide Interoperability Coordinators (SWIC) to inventory emergency communication equipment and resources. The information entered is voluntary and used by SWIC to support tactical planning and coordination during emergencies. ECD does not utilize the information entered into CASM. ECD only provides, maintains, and stores the information entered in the CASM database and only has administrative access to the information entered. All information is collected via electronic means. The CASM registration and database tool is available online via <https://casm.dhs.gov/>. Users can also access and enter information via the CASM Resource Finder mobile app.

This is an *EXTENSION* of a current approved information collection without change.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.
