

of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Tia Swain, Office of Administration, Management Planning Division, 1200 New Jersey Avenue SE, Mail Stop TAD-10, Washington, DC 20590 (202) 366-0354 or tia.swain@dot.gov.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, Section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On July 19, 2022, FTA published a 60-day notice (87 FR 43102) in the **Federal Register** soliciting comments on the ICR that the agency was seeking OMB approval. FTA received no comments after issuing this 60-day notice. Accordingly, DOT announces that these information collection activities have been re-evaluated and certified under 5 CFR 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c). Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The requirements are being submitted for clearance by OMB as required by the PRA.

Title: National Transit Database.

OMB Control Number: 2132-0008.

Background: The National Transit Database (49 U.S.C. 5335(a) and (b)) requires the Secretary of Transportation to maintain a reporting system, using a uniform system of accounts, to collect financial and operating information from the nation's public transportation systems. Congress created the NTD to be the repository of transit data for the nation to support public transportation service planning. FTA has established the NTD to meet these requirements, and has collected data for over 35 years. The NTD is comprised of multiple modules, including Rural, Urban Annual, Monthly, and Safety Event Reporting. FTA continues to seek ways to reduce the burden of NTD reporting. FTA has expanded collected summarized data, including frequency counts where possible. This approach greatly reduces the burden facing transit operators reporting to the NTD.

Estimated Annual Number of Respondents: 2,481 respondents.

Estimated Annual Number of Responses: 2,481.

Estimated Total Annual Burden Hours: 456,179 hours.

Frequency: Annually.

Title: 49 U.S.C. Section 5310—Enhanced Mobility of Seniors and Individuals with Disabilities Program & Section 5311—Nonurbanized Area Formula Programs.

OMB Number: 2132–0550.

Background: 49 U.S.C. 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program provides formula funding to states and designated recipients to meet the transportation needs of older adults and people with disabilities when the transportation service provided is unavailable, insufficient, or inappropriate to meeting these needs. Funds are apportioned based on each state's share of the population for these two groups. Formula funds are apportioned to designated recipients; for rural and small urban areas, this is the state Department of Transportation or a local government entity that operates a public transportation service, while in large urban areas, a designated recipient is chosen by the governor. Designated recipients have flexibility in how they select subrecipient projects for funding, but their decision process must be clearly noted in a state/program management plan. The selection process may be formula-based, competitive or discretionary, and subrecipients can include states or local government authorities, private non-profit organizations, and/or operators of public transportation. The program aims to improve mobility for older adults and people with disabilities by removing barriers to transportation service and expanding transportation mobility options. This program supports transportation services planned, designed, and carried out to meet the special transportation needs of seniors and individuals with disabilities in all areas—large urbanized (over 200,000), small urbanized (50,000–200,000), and rural (under 50,000). Eligible projects

include both “traditional” capital investment and “nontraditional” capital or operating investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services.

49 U.S.C. 5311—Formula Grants for Rural Areas Program provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000, where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. Eligible direct recipients are States and Indian Tribes. Eligible subrecipients include states and local governmental authorities, nonprofit organizations, and operators of public transportation or intercity bus service. The Tribal Transit program provides funding directly to federally recognized Indian Tribes for capital, operating, and planning purposes, through a formula and a competitive program.

Respondents: States or local governmental entities that operate a public transportation service, federally recognized Indian Tribes, and designated recipients; or eligible subrecipients.

Estimated Annual Number of Respondents: 523 respondents.

Estimated Total Annual Burden: 54,727 hours.

Frequency: Annual.
