SUPPLEMENTARY INFORMATION:

I. Background

The U.S. Small Business Administration (“SBA” or “Agency”) is proposing to revise the regulations for the Small Business Investment Company (“SBIC”) program to significantly reduce barriers to program participation for new SBIC fund managers and funds investing in underserved communities and geographies, capital intensive investments, and technologies critical to national security and economic development. This proposed rule, Small Business Investment Company

Investment Diversification and Growth, 87 FR 63436, introduces an additional type of SBIC (“Accrual SBICs”) to increase program investment diversification and patient capital financing for small businesses and modernize rules to lower financial barriers to program participation. This proposed rule will help SBA implement the Executive order (“E.O.”), Advancing Racial Equity and Support for Underserved Communities Through the Federal Government, by reducing financial and administrative barriers to participate in the SBIC program and modernizing the program’s license offerings to align with a more diversified set of private funds investing in underserved small businesses. The proposed rule also incorporates the statutory requirements of the Spurring Business in Communities Act of 2017, which was enacted on December 19, 2018. More information about the proposed regulation can be found here.

II. Questions

For the public webinar, OII strongly encourages that questions be submitted in advance by November 25, 2022. However, during the public webinar, SBA officials will not provide responses to public comment or suggestions on the proposed rule. SBA requests that commenters focus on SBA’s October 19, 2022, proposed rulemaking and the impacted regulations therein. AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to supersede Airworthiness Directive (AD) 2020-20-05 and AD 2022-09-16, which apply to certain Airbus SAS Model A318 series; A319-111, -112, -113, -114, -115, -131, -132, -133, -151N, and -153N; A320 series; and A321 series airplanes. AD 2020-20-05 and AD 2022-09-16 require revising the existing maintenance or inspection program, as applicable, to incorporate new or more restrictive airworthiness limitations. Since the FAA issued AD 2020-20-05 and AD 2022-09-16, the FAA has determined that new or more restrictive airworthiness limitations are necessary. This proposed AD would continue to require the actions in AD 2022-09-16 and require revising the existing maintenance or inspection program, as applicable, to incorporate additional new or more restrictive
