

battery systems contain an electrolyte that is a flammable fluid.

Special condition no. 5 requires that each non-rechargeable lithium battery and battery system installation not damage surrounding structure or adjacent systems, equipment, or electrical wiring from corrosive fluids or gases that may escape in such a way as to cause a major or more severe failure condition.

While special condition no. 5 addresses corrosive fluids and gases, special condition no. 6 addresses heat. Special condition no. 6 requires that each non-rechargeable lithium battery and battery system installation have provisions to prevent any hazardous effect on airplane structure or systems caused by the maximum amount of heat the battery installation can generate due to any failure of it or its individual cells. The means of meeting special conditions nos. 5 and 6 may be the same, but the requirements are independent and address different hazards.

These special conditions apply to all non-rechargeable lithium battery and battery system installations, in lieu of § 25.1353(b)(1) through (4) at amendment 25–123. Sections 25.1353(b)(1) through (4) at amendment 25–123 remain in effect for other battery installations.

These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

Applicability

As discussed above, these special conditions are applicable to the airplane models listed on the AML of STC no. ST00030IB, available online at *rgl.faa.gov*. All models listed in the AML must be evaluated and determined to comply with these special conditions. Additionally, each new model added to the AML subsequently must also be evaluated and determined to comply with these special conditions.

Should AptoZ apply at a later date for a change to STC no. ST00030IB, to include any other model on the AML to incorporate the same novel or unusual design feature, these special conditions would apply to that model as well.

Should AptoZ apply at a later date for another STC to modify any other model included on the type certificates of the models on the STC no. ST00030IB AML, to incorporate the same novel or unusual design feature, these special conditions would also apply to that model as well. These special conditions are not applicable to those models for

which applicable special conditions for rechargeable lithium batteries and battery systems have already been issued against the type certificate for that specific model.

Conclusion

This action only affects the installation of ELTs that contain non-rechargeable lithium batteries and battery systems for airplanes listed on the AML of STC no. ST00030IB. It is not a rule of general applicability and affects only the applicant who applied to the FAA for approval of these features on the airplane.

Authority Citation

The Special Conditions

Accordingly, pursuant to the authority delegated to me by the Administrator, the following special conditions are issued as part of the type certification basis for the airplane models listed on the approved model list of supplemental type certificate no. ST00030IB, as modified by AptoZ.

In lieu of § 25.1353(b)(1) through (4) at amendment 25–123, or § 25.1353(c)(1) through (4) at earlier amendments, each non-rechargeable lithium battery and battery system installation must:

1. Be designed to maintain safe cell temperatures and pressures, under all foreseeable operating conditions, to prevent fire and explosion.
2. Be designed to prevent the occurrence of self-sustaining, uncontrollable increases in temperature or pressure.
3. Not emit explosive or toxic gases, either in normal operation or as a result of its failure, that may accumulate in hazardous quantities within the airplane.
4. Meet the requirements of § 25.863.
5. Not damage surrounding structure or adjacent systems, equipment, or electrical wiring from corrosive fluids or gases that may escape in such a way as to cause a major or more severe failure condition.
6. Have provisions to prevent any hazardous effect on airplane structure or systems caused by the maximum amount of heat it can generate due to any failure of it or its individual cells.
7. Have a failure-sensing and warning system to alert the flight crew, in the

event its failure affects safe operation of the airplane.

8. Have a means for the flight crew or maintenance personnel to determine the battery charge state if the battery's function is required for safe operation of the airplane.

Note: A battery system consists of the battery, battery charger, and any protective monitoring and alerting circuitry or hardware inside or outside of the battery. It also includes vents (where necessary) and packaging. For the purpose of these special conditions, a battery and the battery system is referred to as a battery.

Rules of Origin for Goods Imported Into the United States

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Final rule; technical corrections.

SUMMARY: This document sets forth technical corrections to U.S. Customs and Border Protection (CBP) regulations to reflect recent changes in the Harmonized Tariff Schedule of the United States. The affected provisions, which are based in part on specified changes in tariff classification, comprise a codified system used for determining: the country of origin for marking purposes for goods imported under the Agreement Between the United States of America, the United Mexican States, and Canada (USMCA); determining the country of origin of imported goods for the purposes specified in paragraph 1 of Annex 311 of the North American Free Trade Agreement (NAFTA) for outstanding pending NAFTA claims; determining whether an imported good is a new or different article of commerce under the United States-Morocco Free Trade Agreement and the United States-Bahrain Free Trade Agreement; and for

determining the country of origin of textile and apparel products (other than those of Israel).

DATES: The final rule is effective on November 15, 2022.

SUPPLEMENTARY INFORMATION:

Background

Section 102.20 of title 19 of the U.S. Customs and Border Protection (CBP) regulations (19 CFR 102.20) prescribes the tariff shift rules that are used to determine country of origin for certain purposes. CBP first promulgated these codified rules (referred to as “the part 102 rules”) to fulfill the United States’ commitment under Annex 311 of the North American Free Trade Agreement (NAFTA), which required the parties to establish rules for determining whether a good is a good of a NAFTA country. The NAFTA Implementation Act, Public Law 103-182, 107 Stat. 2057 (19 U.S.C. 3301 *et seq.*), was repealed by the United States-Mexico-Canada Agreement Implementation Act (USMCA), Public Law 116-113, 134 Stat. 11 (19 U.S.C. Chapter 29), as of July 1, 2020. On July 6, 2021, CBP published an interim final rule in the **Federal Register** (86 FR 35566) implementing certain portions of the USMCA, where CBP stated its decision to continue application of the current part 102 rules to determine the country of origin for marking purposes of imported goods under the USMCA. Thus, the part 102 rules remain in effect. Additionally, the part 102 rules are still applied for outstanding pending claims under NAFTA.

The part 102 rules are also used for several other trade agreements. For instance, as indicated in the scope provision for part 102 (§ 102.0), the rules set forth in §§ 102.1 through 102.21 also apply for purposes of determining whether an imported good is a new or different article of commerce under § 10.769 of the United States-Morocco Free Trade Agreement regulations and § 10.809 of the United States-Bahrain Free Trade Agreement regulations. Section 102.21 also provides the rules of origin for determination of country of origin of imported textile and apparel products for certain purposes, other than those that are products of Israel.

Need for Correction

Pursuant to section 1205 of the Omnibus Trade and Competitiveness Act of 1988 (codified at 19 U.S.C. 3005), the United States International Trade Commission (ITC) is required to keep the Harmonized Tariff Schedule of the United States (HTSUS) under continuous review and prepare investigations proposing modifications to the HTSUS to the President. In July 2015, the ITC issued “Recommended Modifications in the Harmonized Tariff Schedule to Conform with Amendments to the Harmonized System Recommended by the World Customs Organization, and to Address Other Matters: Proposed Commission Recommendations,” Inv. No. 1205-11, USITC Publication No. 4556. The modifications proposed in the report were effective on January 1, 2017, pursuant to Presidential Proclamation 9549. 81 FR 87401, 87406 (Dec. 2, 2016). In July 2016, the ITC issued “Commission Recommendations to the President to Modify the Tariff Nomenclature in Chapters 3, 44, and 63 of the Harmonized Tariff Schedule,” Inv. No. 1205-12, USITC Publication No. 4621. The modifications proposed in the report were effective on January 1, 2018, pursuant to Presidential Proclamation 9687. 82 FR 61413, 61417 (Dec. 27, 2017). In April 2021, the ITC issued, “Recommended Modifications to the Harmonized Tariff Schedule, 2021,” Inv. No. 1205-13, USITC Publication No. 5171. The modifications proposed in the report were effective on January 1, 2022, pursuant to Presidential Proclamation 10326. 86 FR 73593, 73597 (Dec. 28, 2021).

As a result of these modifications to the HTSUS, certain tariff provisions were added or removed, and certain goods were transferred, for tariff classification purposes, to different or newly-created tariff provisions. The changes to the HTSUS involved product coverage and/or numbering of certain headings and subheadings and were not intended to have any other substantive effect. Accordingly, this document makes technical corrections to §§ 102.20 and 102.21 in order for the regulations to conform the numbering in the tariff shift rules to the numbering in the current version of the HTSUS. This document also makes minor conforming changes to chapter notes 42, 64, 70, and 96, and adds a new chapter note 65. In addition, this document also corrects typographical errors that occurred in previous updates.

The following examples are offered to illustrate the need for technical corrections to §§ 102.20 and 102.21.

Example 1: Under current § 102.20(o), there is a tariff shift rule for subheading 8469.00, HTSUS. Under the 2017 amendments to the HTSUS, heading 8469, HTSUS, which covered “Typewriters other than printers of heading 8443; word processing machines,” was deleted. The goods previously classified under this provision are now classified under subheading 8472.90. As a result, the terms of the tariff shift rule for subheading 8469.00 are being revised to reflect the fact that heading 8469, HTSUS, was deleted, as well as to indicate the transfer of goods to subheading 8472.90. In other words, instead of referring to the since-deleted heading 8469, the new tariff shift rules refer to heading 8472 or subheading 8472.90, as appropriate. Lastly, the rule, revised as described above, is now incorporated into the rule for goods of subheading 8471.60-8472.90.

Example 2: Pursuant to the existing terms of § 102.20(f), the tariff shift rules for subheading 2910.10-2910.90, HTSUS, permit a tariff shift to “dieldrin (ISO, INN) of subheading 2910.40 from any other subheading, except from subheading 2910.90.” The second part of the tariff shift rule for subheading 2910.10-2910.90, HTSUS, permits a tariff shift “to subheading 2910.90 from any other subheading, except from subheading 2910.40.” Under the 2017 amendments to the HTSUS, new subheading 2910.50, HTSUS, was created to provide separately for endrin (ISO), which was previously provided for in subheading 2910.90, HTSUS. This new subheading was created to facilitate monitoring and control of products under the Stockholm Convention on Persistent Organic Pollutants. In order to maintain the original result of the tariff shift rules for subheading 2910.10-2910.90, HTSUS, the tariff shift rules in § 102.20(f) must be amended to reflect the transfer of endrin (ISO) previously classified in subheading 2910.90 to new subheading 2910.50, HTSUS, as follows: “[a] change to dieldrin (ISO, INN) of subheading 2910.40 from any other subheading, except from subheading 2910.50 through 2910.90.” Similarly, the second part of the tariff shift rule for subheading 2910.10-2910.90, HTSUS, must also be amended to reflect the 2017 amendment that resulted in a transfer of endrin (ISO) from subheading 2910.90 to the newly created subheading 2910.50, HTSUS. Additionally, the second tariff shift rule for subheadings 2910.10 through 2910.90 must be amended to provide for “[a] change to subheading 2910.50 through 2910.90,” with the addition of

the phrase “outside that group” following the clause “from any other subheading.” The first clause is expanded to include a change to subheadings 2910.50 through 2910.90 to reflect the transfer of endrin (ISO) to subheading 2910.50, HTSUS. The purpose of the additional language “outside that group” after the clause, “from any other subheading,” is to clarify that the tariff shift rule is not triggered if there is a change to a good of subheadings 2910.50 through 2910.90, HTSUS, from a good of subheadings 2910.50 through 2910.90, HTSUS.

Example 3: Pursuant to the existing terms of § 102.21(e)(1), the tariff shift rule for subheadings 4202.32.40, HTSUS, through 4202.32.95, HTSUS, permits a tariff shift to these subheadings “from any other heading, provided that the change is the result of the good being wholly assembled in a single country, territory, or insular possession.” Pursuant to the 2016 amendments to the HTSUS, the eight-digit subheading 4202.32.95, HTSUS, which provided, in relevant part, for “Articles of a kind normally carried in the pocket or in the handbag: With outer surface of sheeting of plastic or of textile materials: With outer surface of textile materials: Other: Other,” was deleted. In its place, subheadings 4202.32.91 through 4202.32.99, HTSUS, were created to cover products that were previously classified in 4202.32.95, HTSUS. As subheading 4202.32.95, HTSUS, no longer exists in the HTSUS, § 102.21(e)(1) must be amended to reflect the applicable renumbering of the tariff shift rule. Specifically, § 102.21(e)(1) must be amended to indicate that the tariff shift rule for subheadings 4202.32.40–4202.32.95, HTSUS, has been renumbered to subheadings 4202.32.40–4202.32.99, HTSUS. The new rule provides for “A change to subheading 4202.32.40 through 4202.32.99 from any other heading, provided that the change is the result of the good being wholly assembled in a single country, territory, or insular possession.”

Example 4: Pursuant to the existing terms of § 102.21(e)(1), the tariff shift rule for subheading 7019.19.28, HTSUS, allows, in relevant part, that “[i]f the good is of staple fibers, a change to subheading 7019.19.28 from any other subheading, except from subheading 7019.19.30 through 7019.19.90, 7019.31.00 through 7019.39.50, and 7019.90, and provided that the change is the result of a spinning process.” Pursuant to the 2022 amendments to the HTSUS, the six-digit subheading 7019.19.28, HTSUS, which provided for

“Glass fibers (including glass wool) and articles thereof (for example, yarn, woven fabrics): Silvers, rovings, yarn and chopped strands: Other: Yarns: Colored: Other,” was deleted. In its place, subheading 7019.13.28, HTSUS, was created, which provides for “Glass fibers (including glass wool) and articles thereof (for example, yarn, rovings, woven fabrics): Silvers, rovings, yarn and chopped strands and mats thereof: Other yarn, silvers: Yarns: Colored: Other,” and covers products that were previously classified in 7019.19.28, HTSUS. As subheading 7019.19.28, HTSUS, no longer exists in the HTSUS, § 102.21(e)(1) must be amended to reflect the renumbering of the tariff shift rule. Similarly, amendments to § 102.21(e)(1) must be made to reflect the following: subheading 7019.19.90, HTSUS, was deleted and replaced with subheadings 7019.13.35, HTSUS, and 7019.19.91, HTSUS; subheading 7019.31.00, HTSUS, was deleted and replaced with subheadings 7019.14.00, HTSUS, and 7019.15.00, HTSUS; subheading 7019.32.00, HTSUS, was deleted and replaced with 7019.71.00, HTSUS; subheading 7019.39.10, HTSUS, was deleted and replaced with 7019.80.10, HTSUS; and subheading 7019.39.50, HTSUS, was deleted and replaced with 7019.80.90, HTSUS.

Inapplicability of Notice and Delayed Effective Date

The Administrative Procedure Act (APA) requirements in 5 U.S.C. 553 govern agency rulemaking procedures. Section 553(b) of the APA generally requires notice and public comment before issuance of a final rule. In addition, section 553(d) of the APA generally requires that a final rule have a thirty-day delayed effective date. The APA, however, provides exceptions from the prior notice and public comment requirement and the delayed effective date requirements, when an agency for good cause finds that such procedures are impracticable, unnecessary, or contrary to the public interest.

Pursuant to 5 U.S.C. 553(b)(B), CBP has determined for good cause that it would be unnecessary and contrary to the public interest to delay publication of this rule in final form pending an opportunity for public comment because the technical corrections set forth in this document merely conform the tariff shift rules in the regulations to the current HTSUS and will facilitate trade by ensuring that country of origin determinations made using the regulations are consistent with the HTSUS. In addition, pursuant to 5 U.S.C. 553(d)(3), CBP has determined

that there is good cause for this final rule to become effective immediately upon publication for the same reasons.

Executive Orders 12866

These amendments do not meet the criteria for a “significant regulatory action” as specified in Executive Order 12866. 58 FR 51735 (October 4, 1993).

Regulatory Flexibility Act

Because this document is not subject to the notice and public procedure requirements of 5 U.S.C. 553, it is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Signing Authority

This regulation is being issued in accordance with 19 CFR 0.1(a)(1) pertaining to the Secretary of the Treasury’s authority (or that of his/her delegate) to approve regulations related to customs revenue functions. Pursuant to Treasury Directive 28–03, CBP retains authority to sign a document making non-substantive technical corrections to a previously issued regulation. For this reason, the CBP Commissioner is the proper official to sign this document.

Chris Magnus, the Commissioner of CBP, having reviewed and approved this document, has delegated the authority to electronically sign this document to Robert F. Altneu, who is the Director of the Regulations and Disclosure Law Division for CBP, for purposes of publication in the **Federal Register**.
