

recommendations for the Secretary's determination of primary purpose.

Following a primary purpose determination by the Secretary of Agriculture, the Secretary of the Treasury determines if the payments made under the conservation program substantially increases the annual income derived from the property benefited by the payments.

Environmental Review

From this Federal action, approving tax deferral will not result in impacts to the environment, therefore, no further National Environmental Policy Act (NEPA) documentation will be prepared.

Determination

As provided for by Section 126 of the Internal Revenue Code, the Secretary examined the authorizing legislation, regulations, and operating procedures regarding the New York Suffolk County SIP. In accordance with the criteria specified in 7 CFR part 14, the Secretary has determined the primary purpose of cost share payments made under the New York Suffolk County SIP is conserving soil and water resources or protecting and restoring the environment.

A current residential property owner residing in any area of Suffolk County may apply for a SIP grant to design, purchase, or install an Innovative and Alternative Onsite Wastewater Treatment System (I/A OWTS). The I/A OWTS must be approved for use by the Suffolk County Department of Health. All residential property owners are eligible because nitrogen loading does not affect just the property on which it occurs, but instead affects the entire regional area. However, since there are properties in areas that are even more susceptible to damage, the Suffolk County Commissioner of Health Services may authorize preferential review of an application for a grant if the grant application is for a residence in an area specified by Health Services as environmentally sensitive.

Rules were developed that allow for a priority order on the issuance of grants, based on the environmental sensitivity of the area (for example, groundwater travel time to surface water in the home's geographic area). Suffolk County executes a grant contract with the property owner, which is recorded, but Suffolk County directly pays the designer, installer, or manufacturer of the I/A OWTS from a list established by the County. The amount of the grant award is based on actual eligible costs, up to \$20,000, with the property owner incurring any additional expenses for

the design, purchase, and installation costs over the grant amount.

A "Record of Decision" for the New York Suffolk County SIP to provide grants to homeowners to design, purchase, or install an I/A OWTS has been prepared and is available upon request from the Acting Director, Financial Assistance Programs Division, NRCS, 1400 Independence Avenue SW, Room 4529 South Building, Washington, DC 20250.

The Secretary's determination is in accordance with section 126 of the Internal Revenue Code, and permits recipients of cost share payments to exclude those payments from gross income to the extent allowed by the Internal Revenue Service.
