Abstract: The regulations at 25 CFR 36, Subpart G, Home-living Programs, implement section 1122 of the Native American Education Improvement Act of 2001 (Pub. L. 95–561, title XI, § 1120, as added Pub. L. 107–110, title X, § 1042, Jan. 8, 2002, 115 Stat. 2007). These regulations require the BIE to implement national standards for home-living situations in all BIE-funded residential schools. The BIE must collect information from all BIE-funded residential schools in order to assess each school’s progress in meeting the national standards. Submission of this information allows the BIE to ensure that minimum academic standards for the education of Indian children and criteria for dormitory situations in Bureau-operated schools and Indian-controlled contract schools are met.

Notice of Intent To Prepare a Supplemental Environmental Impact Statement for December 2007 Record of Decision Entitled Colorado River Interim Guidelines for Lower Basin Shortages and Coordinated Operations For Lake Powell and Lake Mead

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent; overview of proposed approach; request for comments.

SUMMARY: The Secretary of the Interior has directed the Bureau of Reclamation (Reclamation) to prepare a Supplemental Environmental Impact Statement (SEIS). The Supplement is to the December 2007 Record of Decision entitled Colorado River Interim Guidelines for Lower Basin Shortages and Coordinated Operations for Lake Powell and Lake Mead (2007 Interim Guidelines). The Secretary is directing this action because the existing operating guidelines are insufficient given current hydrology and reservoir conditions and in light of plausible low runoff conditions in the Colorado River Basin over the next four years. Through this **Federal Register** notice, Reclamation is providing an overview of the purpose and need for the SEIS, as well as its anticipated approach and timeframe for decisions on revised operating guidelines for Lake Powell and Lake Mead.

DATES: This **Federal Register** notice initiates the public-scoping process for the SEIS. Reclamation requests that the public submit comments concerning the scope of the analysis, potential alternatives, and identification of relevant information, and studies on or before December 20, 2022.

Reclamation will host two public webinars to summarize the content and purpose of this **Federal Register** notice and to receive oral comments:

- Tuesday, November 29, 2022, 10:00 a.m. to 12:00 p.m. MST.
- Friday, December 2, 2022, 11:00 a.m. to 1:00 p.m. MST.

ADDRESSES: Send written comments or questions regarding the proposed SEIS to Reclamation 2007 Interim Guidelines SEIS Project Manager, Upper Colorado Basin Region, 125 South State Street, Suite 8100, Salt Lake City, Utah 84138; or by email to CRinterimops@usbr.gov.

Background

On August 16, 2022, the Department of the Interior announced: "Prolonged drought and low runoff conditions accelerated by climate change have led to historically low water levels in Lakes Powell and Mead. Over the last two decades, Department leaders have engaged with Colorado River Basin partners on various drought response operations. However, given that water levels continue to decline, additional action is needed to protect the System." Recognizing that the Colorado River Basin is facing unprecedented risks, the development of revised operating guidelines for Lake Powell and Lake Mead represents one of many Departmental efforts underway to respond to the rapidly changing conditions in the Basin in order to better protect the System.
