PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new airworthiness directive:

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by January 6, 2023.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Schempp-Hirth Flugzeugbau GmbH (Schempp-Hirth) Model Duo Discus and Duo Discus T gliders, all serial numbers, certified in any category.

(d) Subject

Joint Aircraft System Component (JASC) Code 2760, Drag Control System.

(e) Unsafe Condition

This AD was prompted by mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI identifies the unsafe condition as blocking or jamming of the airbrake. The FAA is issuing this AD to detect and correct such blockage or jamming of the airbrake system. The unsafe condition, if not addressed, could result in reduced control of the glider.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Actions

(1) Within 12 months after the effective date of this AD and thereafter at intervals not to exceed 12 months, inspect the airbrake system for smooth operation, for sufficient airbrake panel overlap, and for proper cockpit control adjustment in accordance with Section I, and either II or III, depending on your glider configuration, of Schempp-Hirth Flugzeugbau GmbH Technical Note 96–21, dated January 26, 2022.

(2) If, during any inspection as required by paragraph (g)(1) of this AD, any part of the airbrake system is not properly adjusted, before further flight, adjust the airbrake system in accordance with a method approved by the FAA: the European Union Aviation Safety Agency (EASA); or Schempp-Hirth’s Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(h) Alternative Methods of Compliance (AMOCs)

The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in § 39.19. In accordance with § 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the International Validation Branch, send it to the attention of the person identified in paragraph (i)(2) of this AD or email to: 9-AVS-AIR-730-AMOC@faa.gov. If mailing information, also submit information by email.

(i) Additional Information

(1) Refer to EASA AD 2022–0138, dated July 7, 2022, for related information. This EASA AD may be found in the AD docket at regulations.gov under Docket No. FAA–2022–1484.

(2) For more information about this AD, contact Jim Rutherford, Aviation Safety Engineer, General Aviation & Rotorcraft Section, International Validation Branch, FAA, 901 Locust, Room 301, Kansas City, MO 64106; phone: (816) 329–4165; email: jim.rutherford@faa.gov.

(3) Service information identified in this AD that is not incorporated by reference is available at the addresses specified in paragraphs (j)(3) and (4) of this AD.

(j) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(3) For service information identified in this AD, contact Schempp-Hirth Flugzeugbau GmbH, Krebenstrasse 25, Kirchheim unter Teck, Germany; phone: +49 7021 7298–0; email: info@schempp-hirth.com; website: schempp-hirth.com.

(4) You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 901 Locust, Kansas City, MO 64106. For information on the availability of this material at the FAA, call (817) 222–5110.

(5) You may view this service information that is incorporated by reference at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, email: fr.inspection@nara.gov, or go to: www.archives.gov/federal-register/cfr/ibr-locations.html.

Issued on November 16, 2022.

Christina Underwood,
Acting Director, Compliance & Airworthiness Division, Aircraft Certification Service.

Federal Aviation Administration

14 CFR Part 71

RIN 2120–AA66

Proposed Amendment of Multiple Air Traffic Service (ATS) Routes and Revocation of a VOR Federal Airway in the Vicinity of Wolbach, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

DATES: Comments must be received on or before January 6, 2023.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. For further information, you can contact the Rules and Regulations Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.
FOR FURTHER INFORMATION CONTACT: Colby Abbott, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the ATS route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA–2022–1395 Airspace Docket No. 22–ACE–10) and be submitted in triplicate to the Docket Management Facility (see ADDRESSES section for address and phone number). You may also submit comments through the internet at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Office (see ADDRESSES section for address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Operations Support Group, Central Service Center, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX, 76177.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

This document proposes to amend FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the ADDRESSES section of this document. FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The FAA is planning to decommission the Wolbach, NE, VOR in June 2023. The Wolbach VOR was one of the candidate VORs identified for discontinuance by the FAA’s VOR MON program and listed in the Final policy statement notice, “Provision of Navigation Services for the Next Generation Air Transportation System (NextGen) Transition to Performance-Based Navigation (PBN) (Plan for Establishing a VOR Minimum Operational Network),” published in the Federal Register of July 26, 2016 (81 FR 48694), Docket No. FAA–2011–1082. Although the VOR portion of the Wolbach VORTAC is planned for decommissioning, the co-located Distance Measuring Equipment (DME) portion of the NAVAID is being retained to support NextGen PBN flight procedure requirements.

The Air Traffic Service (ATS) routes affected by the Wolbach VOR decommissioning are Jet Routes J–10, J–84, J–100, J–128, J–144, and J–197; VOR Federal airways V–172, V–219, and V–380; and RNAV route T–288. With the planned decommissioning of the Wolbach VOR, the remaining ground-based NAVAID coverage in the area is insufficient to enable the continuity of the affected ATS routes. As such, proposed modifications to J–10, J–84, J–100, and J–128 would result in a gap being created in the ATS routes; to J–144, J–197, V–172, and V–380 would result in the ATS routes being shortened; to T–288 would result in the Wolbach VOR/DME end point being changed; and to V–219 would result in the airway being revoked.

To overcome the proposed modifications to the affected ATS routes, instrument flight rules (IFR) traffic in the high altitude enroute structure could use portions of Jet Routes J–44, J–60, J–94, J–114, J–146, J–148, and J–151 for conventional navigation or RNAV routes Q–92, Q–114, Q–122, and Q–136 for Global Positioning Satellite (GPS) navigation for properly equipped aircraft. IFR traffic in the low altitude enroute structure could use portions of VOR Federal airways V–6, V–8, V–71, V–80, and V–148 for conventional navigation or RNAV routes T–286, T–288, T–302, and T–413 for GPS navigation for properly equipped aircraft. Additionally, pilots equipped with RNAV capabilities could also navigate point to point using the existing NAVAIDs and fixes that would remain in place to support continued operations though the affected area. Visual flight rules (VFR) pilots who elect to navigate via the affected ATS routes could also take advantage of the adjacent ATS routes or ATC services listed previously. Lastly, IFR and VFR aircraft may request and receive air traffic control (ATC) radar vectors to fly around or through the affected area. Further, RNAV route T–288 would be amended to change the Wolbach VORTAC route end point to a new route end point located near the Wolbach VORTAC. This T–288 amendment action would be aimed at retaining the safety and efficiency of the route while minimizing impact to the RNAV route’s structure.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend Jet Routes J–10, J–84, J–100, J–128, J–144, and J–
VORTAC.

As amended, the route would extend between the Haynes Center, NE, VORTAC and the Norfolk, NE, VORTAC. The FAA proposes to remove the airway in its entirety.

V–380: V–380 currently extends between the O’Neill, NE, VORTAC and the Mankato, KS, VORTAC. The FAA proposes to remove the airspace overlying the O’Neill Military Operations Area (MOA) is excluded when the MOA is activated by Notice to Air Missions (NOTAM). The FAA proposes to remove the airway segment overlying the Wolbach VORTAC between the Grand Island VOR/DME and the Mankato VORTAC.

T–288: T–288 currently extends between the Gillette, WY, VOR/DME and the Wolbach, NE, VORTAC. The FAA proposes to replace the Wolbach VORTAC route point with the ISTIQ, NE, waypoint (WP) that is located 3 nautical miles northeast of the Wolbach VORTAC on RNAV route T–413. Additionally, the Rapid City, SD, VORTAC latitude/longitude geographic coordinates are updated to match the FAA’s National Airspace System Resource database information. As amended, the route would extend between the Gillette VOR/DME and the ISTIQ WP.

All NAVAID radials listed in the ATS route descriptions below are unchanged and stated in True degrees.

Jet Routes are published in paragraph 2004, VOR Federal airways are published in paragraph 6010(a), and United States Area Navigation Routes (T-routes) are published in paragraph 6011 of FAA Order JO 7400.11, dated August 19, 2022, and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The ATS routes listed in this document would be published subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F. “Environmental Impacts: Policies and Procedures,” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 2004 Jet Routes.
J–10 [Amended]
From Los Angeles, CA; INT Los Angeles 083° and Twentynine Palms, CA, 269° radians; Twentynine Palms 075° and Flagstaff, AZ, 251° radians; Flagstaff; Rattlesnake, NM; Blue Mesa, CO; Falcon, CO; to North Platte, NE. From Des Moines, IA; to Iowa City, IA.

J–84 [Amended]
From Oakland, CA; Linden, CA; Mina, NV; Delta, UT; Meeker, CO; to Sidney, NE. From Dubuque, IA; Northbrook, IL; to Danville, IL.

J–100 [Amended]
From Los Angeles, CA; Daggett, CA; Las Vegas, NV; INT of Las Vegas 046° and Bryce Canyon, UT; 240° radians; Bryce Canyon; Meeker, CO; to Sidney, NE. From Dubuque, IA; to Northbrook, IL.

J–128 [Amended]
From Los Angeles, CA; INT Los Angeles 083° and Peach Springs, AZ, 244° radians; Peach Springs; Tuba City, AZ; Blue Mesa, CO; Falcon, CO; to Hayes Center, NE. From Dubuque, IA; to Northbrook, IL.

J–144 [Amended]
From Des Moines, IA; to Dubuque, IA.

J–197 [Amended]
From Dove Creek, CO; Hugo, CO; to Goodland, KS.

T–288 GILLETTE, WY (GCC) TO ISTIQ, NE [AMENDED]
Gillette, WY (GCC) VOR/DME (Lat. 44°20’51.98” N, long. 105°32’36.55” W)
Karas, WY FIX (Lat. 44°16’22.88” N, long. 104°18’49.64” W)
Rapid City, SD (RAP) VORTAC (Lat. 43°58’33.74” N, long. 103°00’44.38” W)
WnDED, SD WP (Lat. 43°19’14.00” N, long. 101°32’19.00” W)
Valentine, NE (VTN) NDB (Lat. 42°51’41.85” N, long. 100°32’58.73” W)
Ainsworth, NE (ANW) VOR/DME (Lat. 42°34’08.81” N, long. 99°59’22.78” W)
Fesnt, NE WP (Lat. 42°03’57.00” N, long. 99°17’18.00” W)
IstiQ, NE WP (Lat. 41°24’52.04” N, long. 99°8’24.89” W)

Issued in Washington, DC, on November 16, 2022.
Scott M. Rosenbloom,
Manager, Airspace Rules and Regulations.

DEPARTMENT OF COMMERCE
Census Bureau

15 CFR Part 90
[Docket Number: 221116–0243]
RIN 0607–AA60

Resumption of the Population Estimates Challenge Program and Proposed Changes to the Program

AGENCY: Census Bureau, Department of Commerce.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The Bureau of the Census (Census Bureau) is proposing to amend the regulations for the Population Estimates Challenge Program which provides eligible general-purpose governmental entities (units) with the opportunity to file requests for the review of their population estimates for 2021 and subsequent years in forthcoming estimates series, beginning with the Vintage 2022 series that is scheduled to be published in 2023. Under this program, a governmental unit may file a challenge to its official population estimate by submitting additional data to the Census Bureau for evaluation, or by identifying a technical error in processing input data or producing the estimates. Specifically, the Census Bureau is proposing to amend its regulations to: update references to the input data used to produce the official population estimates and revise the evidence required to support a challenge.

DATES: Written comments must be submitted on or before December 22, 2022.

ADDRESSES: Interested persons are invited to submit written comments by email to POP.challenge@census.gov. You also may submit comments, identified by RIN number 0607–AA60, to the Federal e-Rulemaking Portal: https://www.regulations.gov. All comments received are a part of the public record. Comments will be posted to https://www.regulations.gov for public viewing on a rolling basis. Comments generally will be posted without change. All Personal Identifying Information (for example, name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. The Census Bureau will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT:
Requests for additional information should be directed to Amel Toukabri, Chief, Local Government Estimates and Migration Processing Branch, Population Division, 301–763–2461 or POP.challenge@census.gov.

SUPPLEMENTARY INFORMATION:

Background

The Census Bureau typically releases annual population estimates, in accordance with Title 13 of the United States Code (U.S.C.). These estimates are typically based to some extent upon the most recent Decennial Census of Population and Housing and compiled from the most current administrative and survey data available for that purpose. Although not required by any statute, the Census Bureau also typically offers an opportunity for local units of general-purpose government (hereinafter collectively “governmental unit”) to challenge these official estimates through its Population...
