

Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR part 200) on December 26, 2014, at 2 CFR part 3002, (79 FR 75867, December 19, 2014). This rule eliminates overlapping and duplicative requirements for stakeholders, including states, territories and Indian tribal governments, by using general terms such as “recipient” and “pass-through entity.”

The HMGP regulation describes the application process in 44 CFR 206.436. Information collected through the financial award application is the minimum information necessary for the financial award administration under the HMGP and includes the project narrative, analysis of the measure’s cost-effectiveness referred to as the benefit-cost determination, and environmental review used in conjunction with OMB No. 1660–0025.

44 CFR 206.436(d) states: “The State must submit all local HMGP applications and funding requests for the purpose of identifying new projects to the Regional Administrator within 12 months of the date of disaster declaration.” Furthermore, Section 311 of the DHS Appropriations Act, 2022 (Pub. L. 117–103, 136 Stat. 331) states: “beginning between January 1, 2020, and December 31, 2021, the Federal share of assistance, including direct Federal assistance, provided under such sections shall be not less than 90 percent of the eligible cost of such assistance.” The legislation applies to all current FY 2022 HMGP local and Tribal sub applicants and significantly alters application and program financial management information collection requirements. The DHS Appropriations Act, 2022 does not provide additional funding for HMGP COVID–19 relief beyond the already established \$3.46 billion.

Per 44 CFR 206.438(c), progress reports must be submitted by the HMGP Recipient to the Regional Administrator on a quarterly basis, certifying how the funds are being used and reporting on the progress of activities funded under the subrecipient awards made to the Recipient by FEMA. The Regional Administrator and Recipient negotiate the date for submission of the first report. Quarterly progress reports describe the status of those projects on which a final payment of the Federal share has not been made to the recipient, and outline any problems or circumstances expected to result in noncompliance with the approved award conditions.

The legislative changes are expected to trigger a significant increase in requests by local sub applicants who

have not yet developed FY 2022 project applications. The requests will likely extend the application deadline beyond the standard 12-month deadline of August 5, 2022. Applications Period extension requests, authorized under 44 CFR 206.436(e), may add additional information collection burden.

The Foundations for Evidence-Based Policymaking Act of 2018 (Evidence Act) (Pub. L. 115–435, 5 U.S.C. 311–315) establishes evaluation using systematic data collection and analysis of programs, policies, and organizations intended to assess their effectiveness and efficiency as an essential program activity. Hazard Mitigation programs are currently revising information collections to simply data collection, reduce burden, coordinate data collection across programs, develop performance metrics, and meet goals and priorities as stipulated in the Evidence Act. Program implementation of the Evidence Act will necessitate changes to information collections. Additionally, the Build America, Buy America Act (BABAA) (Pub. L. 117–58, 70901–70927) and Executive Order (E.O.) 14008, *Tackling the Climate Crisis At Home and Abroad*, (86 FR 7619, February 1, 2021) establishes additional information collection requirements, goals and priorities.

Collection of Information

Title: Hazard Mitigation Grant Program (HMGP) Application and Reporting.

Type of Information Collection: Extension, with change, of a currently approved information collection.

OMB Number: OMB No. 1660–0076.

FEMA Forms: Project Narrative; Benefit-Cost Determination; Environmental Review; FEMA Form FF–206–FY–22–154 (formerly 009–0–111A), Quarterly Progress Reports.

Abstract: The Federal Emergency Management Agency (FEMA) administers the Hazard Mitigation Grant Program, which is a post-disaster program that contributes funds toward the cost of hazard mitigation activities to reduce the risk of future damage hardship, loss or suffering in any area affected by a major disaster. FEMA uses applications to provide financial assistance in the form of grant awards and, through grantee quarterly reporting, monitor grantee project activities and expenditure of funds.
