II. What is the Agency’s authority for taking this action?

Section 11 of the Federal Insecticide, Fungicide, Rodenticide Act (FIFRA), 7 U.S.C. 136 *et seq.*, requires certifying authorities to have an EPA-approved certification plan to certify applicators of RUPs. The Certification of Pesticide Applicators (CPA) regulation at 40 CFR part 171 was amended in 2017 (Ref. 1). As a result, federal, state, territory, and tribal certifying authorities with existing certification plans were required to revise their existing certification plans to conform with the updated federal standards for the certification of applicators of RUPs and submit their revisions to EPA by March 2020 for EPA review and approval. The CPA regulation specifies that the existing certification plans remain in place until the revised plans are approved by EPA on or before the regulatory deadline established in 40 CFR 171.5. The Agency has since issued a final rule extending the original deadline for certification plans to comply with the updated federal standards under the 2017 CPA rule. State, territory, tribal, and federal authorities can now continue existing applicator certification programs to November 4, 2023 (Ref. 2).

III. What action is the Agency taking?

This action gives notice that the following thirteen certifying authorities’ certification plans submitted to the Agency meet or exceed the standards of 40 CFR part 171: ADEC, DPR, NDA, NYSDEC, ODA, PRDA, USDA APHIS PPQ, USDA FS, DoD, DoE, DOI BLM, VAAFM and VIDPNR. EPA hereby gives notice that the thirteen amended certification plans for certifying applicators of RUPs listed in this document are now approved plans; the certifying authorities may certify pesticide applicators and continue with implementation of the certification plans as outlined in the approved plans.

These thirteen plans represent the first in a series of batched notifications announcing the approval of the federal, state, territory, and tribal certification plans moving through the approval process. These batched notifications will continue to occur on a regular basis as plans are approved. EPA also provides frequent status updates on its website at <https://www.epa.gov/pesticide-worker-safety/certification-standards-pesticide-applicators>.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Perchloroethylene Dry Cleaning Facilities (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Perchloroethylene Dry Cleaning Facilities (EPA ICR Number 1415.13, OMB Control Number 2060–0234) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2023. Public comments were previously requested, via the **Federal Register**, on April 8, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 23, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2022–0073, to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Muntasir Ali, Sector Policies and Program Division (D243–05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541–0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at either <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Perchloroethylene Dry Cleaning Facilities (40 CFR part 63, subpart M) were proposed on December 9, 1991; promulgated on September 22, 1993; and most-recently amended on November 19, 2020. These regulations apply to both existing and new dry-cleaning facilities that use perchloroethylene (PCE). New facilities include those that either commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart M.

Form Numbers: None.

Respondents/affected entities: Dry cleaning facilities that use perchloroethylene (PCE).

Respondent's obligation to respond: Mandatory (40 CFR 63, subpart M).

Estimated number of respondents: 28,020 (total).

Frequency of response: Annual.

Total estimated burden: 1,590,343 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$197,000,000 (per year), which includes \$948,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations: (1) the regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Regulatory Support Division.
