

local agencies)? What are their roles in the program?

13. What is the breadth (number and type of partnership), quality, and quantity of the partnership(s) (number and frequency of joint activities and the strength)?

14. How were partnerships built and maintained?

15. How do grantee and sponsor organizations work with partners to build community resilience?

16. To what extent do the climate change grant programs: (a.) improve energy efficiency and increase the use of renewable energy sources? (b.) help communities prepare, respond, and recover from natural disasters and other climate change effects? (c.) preserve public lands and waterways and protect or restore biodiversity? (d.) increase community members' knowledge, attitudes, and behaviors around climate change? (e.) build capacity of the community to be resilient?

17. How do the climate change grant programs lead to increased civic engagement?

18. In what ways does participation in the climate change grant programs influence national service members' job skills development toward green jobs?

19. To what extent does participation in the climate change grant programs: (a.) increase national service members' functional and technical job skills? (b.) increase national service members' interest/willingness to pursue a career in a green job? (c.) lead to a job after their service? (d.) lead to a career in a green job after their service?

This bundled evaluation of grantees is being conducted by ICF through a contract with AmeriCorps; it will have an explicit emphasis on activities related to addressing climate change. By bundling, this evaluation combines a group of state commissions with similar program approaches into a single evaluation. Spanning 32 months, the evaluation includes up to 30 grantees to examine program design, implementation, and outcomes using surveys, interviews, and focus groups with a wide range of stakeholders including grantee staff, partner organizations, national service members, and community members. This is a new information collection.

Defense Acquisition Regulations System

[Docket Number DARS-2022-0021]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement; Rights in Technical Data and Computer Software (OMB Control Number 0704-0369)

AGENCY: Defense Acquisition Regulations System; Department of Defense (DoD).

ACTION: Notice.

SUMMARY: The Defense Acquisition Regulations System has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by December 23, 2022.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS) Subpart 227.71, Rights in Technical Data, and Subpart 227.72, Rights in Computer Software and Computer Software Documentation, and related provisions and clauses of the Defense Federal Acquisition Regulation Supplement (DFARS); OMB Control Number 0704-0369.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Reporting Frequency: On occasion.

Type of Request: Extension of a currently approved collection.

Number of Respondents: 75,250.

Responses Per Respondent: 13, approximately.

Annual Responses: 959,602.

Average Burden per Response: 1 hour, approximately.

Annual Response Burden Hours: 904,574.

Annual Recordkeeping Burden Hours: 90,600.

Total Annual Burden Hours: 995,174.

Needs and Uses: DFARS subparts 227.71 and 227.72 prescribe the use of solicitation provisions and contract clauses containing information collection requirements that are associated with rights in technical data and computer software. DoD needs this information to implement 10 U.S.C. 2320, Rights in technical data, and 10 U.S.C. 2321, Validation of proprietary data restrictions. DoD uses the information to recognize and protect contractor rights in technical data and

computer software that are associated with privately funded developments; and to ensure that technical data delivered under a contract are complete and accurate and satisfy contract requirements.

DoD uses the following DFARS provisions and clauses in solicitations and contracts to require offerors and contractors to identify and mark data or software requiring protection from unauthorized use, release, or disclosure in accordance with 10 U.S.C. 2320:

252.227-7013, Rights in Technical Data—Noncommercial Items.

252.227-7014, Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation.

252.227-7017, Identification and Assertion of Use, Release, or Disclosure Restrictions.

252.227-7018, Rights in Noncommercial Technical Data and Computer Software—Small Business Innovation Research (SBIR) Program.

In accordance with 10 U.S.C. 2320(a)(2)(D), DoD may disclose limited rights data to persons outside the Government, or allow those persons to use data with use, release, or disclosure restrictions, if the recipient agrees not to further release, disclose, or use the data. Therefore, the clause at DFARS 252.227-7013, Rights in Technical Data—Noncommercial Items, requires the contractor to identify and mark data or software that it provides with limited rights.

In accordance with 10 U.S.C. 2321(b), contractors and subcontractors at any tier must be prepared to furnish written justification for any asserted restriction on the Government's rights to use or release data. The following DFARS clauses require contractors and subcontractors to maintain adequate records and procedures to justify any asserted restrictions:

252.227-7019, Validation of Asserted Restrictions—Computer Software.

252.227-7037, Validation of Restrictive Markings on Technical Data.

In accordance with 10 U.S.C. 2320, DoD must protect the rights of contractors that have developed items, components, or processes exclusively at private expense. Therefore, the clause at DFARS 252.227-7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, requires a contractor or subcontractor to submit a use and non-disclosure agreement when it obtains data from the Government to which the Government has less than unlimited rights. In addition, DFARS 227.7103-7, Use and non-disclosure agreement, requires intended recipients

of technical data or computer software delivered to the Government with restrictions on use, modification, reproduction, release, performance, display, or disclosure, to sign the use and non-disclosure agreement at 227.7103-7(c) prior to release or disclosure of the data, unless the recipient is a Government contractor that requires access to a third parties data or software for the performance of a Government contract that contains the clause at 252.227-7025, Limitations on Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. According to 10 U.S.C. 2320(a)(2)(D), DoD may disclose limited rights data to persons outside the Government, or allow those persons to use limited rights data, if the recipient agrees not to further use, release, or disclose the data.

The provision at DFARS 252.227-7028, Technical Data or Computer Software Previously Delivered to the Government, requires an offeror to identify any technical data or computer software that it previously delivered, or will deliver, under any Government contract. DoD needs this information to avoid paying for rights in technical data or computer software that the Government already owns.

Comments and recommendations on the proposed information collection should be sent to Ms. Susan Minson, DoD Desk Officer, at Oira_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer and the Docket ID number and title of the information collection.
