

1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute. Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:**

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

**Abstract:** The New Source Performance Standards (NSPS) for Secondary Brass and Bronze Production (40 CFR part 60, subpart M) apply to both existing facilities and new facilities that commenced either construction or modification after June 11, 1973. These standards apply to the following facilities in secondary brass or bronze production plants: reverberatory and electric furnaces of 1,000 kg or greater production capacity and blast (cupola) furnaces of 250 kg/hr or greater production capacity. Furnaces from which molten brass or bronze are cast into the shape of finished products, such as foundry furnaces, are not considered to be affected facilities. The NSPS for Primary Copper Smelters (40 CFR part 60, subpart P) apply to both existing facilities and new facilities that commenced either construction or modification after October 16, 1974. These standards apply to the following facilities in primary copper smelters:

dryer, roaster, smelting furnace, and copper converter. The NSPS for Primary Zinc Smelters (40 CFR part 60, subpart Q) apply to both existing facilities and new facilities that commenced either construction or modification after October 16, 1974. These standards apply to the following facilities in primary zinc smelters: roaster and sintering machines. The NSPS for Primary Lead Smelters (40 CFR part 60, subpart R) apply to both existing facilities and new facilities that commenced either construction or modification after October 16, 1974. These standards apply to the following facilities in primary lead smelters: sintering machine, sintering machine discharge end, blast furnace, dross reverberatory furnace, electric smelting furnace, and converter. The NSPS for Primary Aluminum Reduction Plants (40 CFR part 60, subpart S) apply to both existing facilities and new facilities that commenced either construction or modification after October 23, 1974. These standards apply to the following facilities in primary aluminum reduction plants: potroom groups and anode bake plants. The NSPS for Ferroalloy Production Facilities (40 CFR part 60, subpart Z) apply to both existing facilities and new facilities that commenced either construction or modification after October 21, 1974. These standards apply to the following facilities in ferroalloy production plants: electric submerged arc furnaces which produce silicon metal, ferrosilicon, calcium silicon, silicomanganese zirconium, ferrochrome silicon, silvery iron, high-carbon ferrochrome, charge chrome, standard ferromanganese, silicomanganese, ferromanganese silicon, or calcium carbide; and dust-handling equipment.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

**Form Numbers:** None.

**Respondents/affected entities:** Owners and operators of secondary brass and bronze production facilities, primary copper smelters, primary zinc smelters, primary lead smelters, primary aluminum reduction plants, and ferroalloy production facilities.

**Respondent's obligation to respond:** Mandatory (40 CFR 60, subparts M, P, Q, R, S, and Z).

**Estimated number of respondents:** 14 (total).

**Frequency of response:** Monthly, semiannually, annually.

**Total estimated burden:** 2,008 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$349,000 (per year), which includes \$107,000 in annualized capital/startup and/or operation & maintenance costs.

**Changes in the Estimates:** The decrease in burden from the most-recently approved ICR is due to an adjustment(s). Based on information collected by the Agency, all facilities subject to 40 CFR part 60, subpart S are complying with MACT Subpart LL for potroom groups and anode back furnaces as an alternative to the NSPS requirements. In addition, the MACT rule requirements for anode bake plants are more stringent and superseded the NSPS requirements for such affected facility. We assume all facilities subject to this NSPS will continue to comply with the MACT instead; therefore, this ICR adjusts the burden for Subpart S to reflect no respondents. In addition, Capital/Startup vs. O&M costs have decreased due to the same reasons as stated above.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2022-0085; FRL-10456-01-OMS]

### Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Oil and Natural Gas Production (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Oil and Natural Gas Production (EPA ICR Number 1788.13, OMB Control Number 2060-0417), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through January 31, 2023.

Public comments were previously requested, via the **Federal Register**, on July 22, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**DATES:** Additional comments may be submitted on or before December 28, 2022.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2022-0085, to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to [docket@epa.gov](mailto:docket@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:** Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov/>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's

public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Oil and Natural Gas Production (40 CFR part 63, subpart HH) were proposed on February 6, 1998, and promulgated on June 17, 1999, only for major sources. On July 8, 2005, a supplemental proposal was proposed for area sources, with the final rule effective date on January 3, 2007. The rule was subsequently amended on August 16, 2012, to include emission sources for which standards were not previously developed. These regulations apply to emission points located at both new and existing oil and natural gas production facilities that are both major and area sources. A major source of hazardous air pollutants (HAP) is one that has the potential to emit 10 tons or more of any single HAP or 25 tons or more of total HAP per year; an area source is one with the potential to emit less than these amounts. New facilities include those that commenced either construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart HH.

**Form Numbers:** None.

**Respondents/affected entities:** Oil and natural gas production facilities.

**Respondent's obligation to respond:** Mandatory (40 CFR part 63, subpart HH).

**Estimated number of respondents:** 5,146 (total).

**Frequency of response:** Initially, semiannually.

**Total estimated burden:** 60,600 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$8,390,000 (per year), which includes \$1,110,000 in annualized capital/startup and/or operation & maintenance costs.

**Changes in the estimates:** There is an increase in burden from the most-recently approved ICR currently identified in the OMB Inventory of Approved Burdens due to an increase in the number of new or modified sources. This ICR updates the number of affected sources subject to these regulations based on an assumption that the industry continues to grow at a constant rate since the previous renewal. Because the industry growth rate is constant, the number of new sources each year is constant, and there is no change in the capital/startup costs from the most recently approved ICR. However, the number of existing sources has increased due to the industry growth

rate, resulting in an increase to the operation & maintenance (O&M) costs.

## FEDERAL COMMUNICATIONS COMMISSION

[FR ID 114675]

### Radio Broadcasting Services; AM or FM Proposals To Change the Community of License

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**DATES:** The agency must receive comments on or before January 27, 2023.

**ADDRESSES:** Federal Communications Commission, 45 L Street NE, Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Rolanda F. Smith, 202-418-2054.

**SUPPLEMENTARY INFORMATION:** The following applicants filed AM or FM proposals to change the community of license: NEBRASKA RURAL RADIO ASSOCIATION, KOLT(AM), Fac. ID No. 67472, FROM TERRYTOWN, NE, TO LEXINGTON, NE, File No. BMP-20220907AAE; ROGER WRIGHT DBA PROSPECT COMMUNICATIONS, WWLX(AM), Fac. ID No. 53665, FROM LAWRENCEBURG, TN, TO LORETTO, TN, File No. BP-20221026AAE; MARIA ELENA JUAREZ, KRXR(AM), Fac. ID No. 2805, FROM GOODING, ID, TO FILER, ID, File No. BMP-20221114AAA; CHRISTIAN MINISTRIES OF THE VALLEY, INC., KABV(FM), Fac. ID No. 762470, FROM PREMONT, TX, TO BEN BOLT, TX, File No. 0000203091; ALBERT BENAVIDES, KAMZ(FM), Fac. ID No. 77643, FROM TAHOKA, TX, TO ROPESVILLE, TX, File No. 0000200878; QXZ MEDIAWORKS LLC, KQXZ(FM), Fac. ID No. 762373, FROM RICHLAND SPRINGS, TX, TO ADAMSVILLE, TX, File No. 0000199020; RADIO BY GRACE, INC., WKIH(FM), Fac. ID No. 172182, FROM VIDALIA, GA, TO TWIN CITY, GA, File No. 0000202985; WILLIAM WALTER MCCUTCHEN, KSZX(FM), Fac. ID No. 190385, FROM SANTA ANNA, TX, TO MENARD, TX, File No. 0000203633; and TRACY MCCUTCHEN, KTCY(FM), Fac. ID No. 189553, FROM MENARD, TX, TO WALL, TX, File No. 0000203634.
