SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

Title of Collection: "Oil and Gas Production in the Outer Continental Shelf."

Abstract: This ICR addresses regulations under 30 CFR part 550, subparts A and K, which deal with regulatory requirements of oil, gas, and sulfur operations on the Outer Continental Shelf (OCS). This request also covers the related notices to lessees and operators (NLTs) that BOEM issues to clarify and provide guidance on some aspects of its regulations, and forms BOEM-0127, BOEM-0140, BOEM-1123, and BOEM-1832.

The OCS Lands Act, as amended (43 U.S.C. 1331 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS and all operations conducted under a lease. Leasing on the OCS must balance orderly energy resource development with protection of the human, marine, and coastal environments; ensure the public receives fair market value for the resources of the OCS; and preserve and maintain market competition.

BOEM uses the information collected under these regulations to ensure that leasing and operations on the OCS are carried out in a safe and environmentally sound manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources.
