

Total

Total Annual Burden Hours: 915.

Annual Responses: 1,860.

Frequency: This is expected to be a one-time collection.

Both surveys will be administered online using a password-protected Qualtrics account. Qualtrics is a Federal Risk and Authorization Management Program (FedRAMP) certified program. All respondents will receive the same survey instrument. Respondents to the scholar survey will answer questions about their experiences with the SMART Program, to include the application process, degree pursuit, and post-graduation employment with DoD. Respondents to the SF survey will answer questions about the SF's use of the SMART Program, to include outreach, selection of scholars, scholar professional development opportunities, hiring of scholars, and retention. Respondents to both surveys retain the ability to skip any survey question they do not wish to answer. Respondents may also end the survey at any time without penalty. Respondents return the collection by clicking a button (indicated by a right arrow) on the last page of the survey, which logs their answers in a Qualtrics database attached to the survey.
