

reactor that uses molten fluoride-based fuel salt. A notice of receipt and availability of this portion of the application was published in the **Federal Register** on October 14, 2022 (87 FR 62463).

The MSRR construction permit application consisted of the following information:

- The general information required by 10 CFR 50.33,
- The Preliminary Safety Analysis Report required by 10 CFR 50.34(a), and
- Environmental Information as required by 10 CFR 51.41.

On September 27, 2022, the NRC staff notified ACU that it needed additional information and was pausing the docketing review to allow ACU the opportunity to supplement its construction permit application (ADAMS Package Accession No. ML22270A170). On October 14, 2022, ACU supplemented its construction permit application with additional information regarding the proposed MSRR's instrumentation and control system design (ADAMS Package Accession No. ML22293B816).

The NRC staff determined that the application, as supplemented, is acceptable for docketing under Docket No. 50–610. The NRC staff provided ACU notice of the determination that its application was acceptable for docketing by letter dated November 18, 2022 (ADAMS Accession No. ML22313A097).

The NRC staff will perform a detailed technical review of the construction permit application and document its safety findings in a safety evaluation report. Also, in accordance with 10 CFR part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," the NRC staff will conduct an environmental review of the proposed action.

Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. If the Commission finds that the construction permit application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that any required notifications to other agencies and bodies have been made, the Commission will issue a construction permit, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

The Commission will announce, in a future **Federal Register** notice, the opportunity to petition for leave to

intervene on the construction permit application.

SUPPLEMENTARY INFORMATION: Section 4262 of the Employee Retirement Income Security Act of 1974 (ERISA) requires PBGC to provide special financial assistance (SFA) to certain financially troubled multiemployer plans upon application for assistance. Part 4262 of PBGC's regulations, "Special Financial Assistance by PBGC," provides guidance to multiemployer pension plan sponsors on eligibility, determining the amount of SFA, content of an application for SFA, the process of applying, PBGC's review of applications, restrictions and conditions, and reporting and notice requirements.

To apply for SFA, a plan sponsor must file an application with PBGC and include information about the plan, plan documentation, and actuarial information, as specified in §§ 4262.6 through 4262.9. Also, if the plan is changing certain assumptions for purposes of demonstrating its eligibility for SFA or its requested amount of SFA, then the plan sponsor may use PBGC's SFA assumptions guidance. PBGC needs the application information to review a plan's eligibility for SFA, priority group status (if applicable), and amount of requested SFA. In this renewal, PBGC is making clarifying changes to the application instructions, including to the information required to be filed. For example, PBGC is clarifying the required documentation of a death audit and the information to be filed for certain assumptions changes. PBGC estimates that over the next 3 years an annual average of 59 plan sponsors will file applications for SFA (initial, revised, and supplemented) with an average annual hour burden of 590 hours and an average annual cost burden of \$1,770,000.

Under § 4262.10(g), a plan sponsor may, but is not required to, file a lock-in application as a plan's initial application. The lock-in application contains basic information about the plan and a statement of intent to lock-in base data. PBGC needs the

information in the lock-in application to ensure that a plan sponsor intends to lock-in the plan's data. PBGC estimates that over the next 3 years an annual average of 23 plan sponsors will file lock-in applications for SFA with an average annual hour burden of 23 hours and an average annual cost burden of \$18,400.

Under § 4262.16(i), a plan sponsor of a plan that has received SFA must file an Annual Statement of Compliance with the restrictions and conditions under section 4262 of ERISA and part 4262 once every year through 2051. In this renewal, PBGC is making clarifying changes and adding required documents that must be provided with this filing. PBGC needs the information in the Annual Statement of Compliance to ensure that a plan is compliant with the imposed restrictions and conditions. PBGC estimates that over the next 3 years an annual average of 120 plan sponsors will file Annual Statements of Compliance with an average annual hour burden of 240 hours and an average annual cost burden of \$288,000.

Under § 4262.15(c), a plan sponsor of a plan with benefits that were suspended under sections 305(e)(9) or 4245(a) of ERISA must issue notices of reinstatement to participants and beneficiaries whose benefits were suspended and are being reinstated. Participants and beneficiaries need the notice of reinstatement to better understand the calculation and timing of their reinstated benefits and, if applicable, make-up payments. PBGC estimates that over the next 3 years an average of 5 plans per year will be required to send notices to participants with suspended benefits. PBGC estimates that these notices will impose an average annual hour burden of 10 hours and average annual cost burden of \$10,000.

Finally, under § 4262.16(d), (f), and (h) a plan sponsor must file a request for a determination from PBGC for approval for an exception under certain circumstances for SFA conditions under § 4262.16 relating to reductions in contributions, transfers or mergers, and settlement of withdrawal liability. PBGC needs the information required for a request for determination to determine whether to approve an exception from the specified condition of receiving SFA. PBGC estimates that beginning in 2023, PBGC will receive an average of 2.2 requests per year for determinations. PBGC estimates an average annual hour burden of 7.6 hours and average annual cost burden of \$19,000.

The estimated aggregate average annual hour burden for the next 3 years for the information collection in part

4262 is 870.6 hours for employer and fund office administrative, clerical, and supervisory time. The estimated aggregate average annual cost burden for the next three years for the information collection request in part 4262 is \$2,105,400, for approximately 5,264 contract hours assuming an average hourly rate of \$400 for work done by outside actuaries and attorneys. The actual hour burden and cost burden per plan will vary depending on plan size and other factors.

The existing collection of information was approved under OMB control number 1212-0074 (expires January 31, 2023). On August 11, 2022, PBGC published in the **Federal Register** (at 87 FR 49617) a notice informing the public of its intent to request an extension of this collection of information. No comments were received. PBGC is requesting that OMB extend approval of the collection with modifications for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Issued in Washington, DC.

Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
