

competition because the ORF is charged to all ATP Holders on all their transactions that clear in the Customer range at the OCC; thus, the amount of ORF imposed is based on the amount of Customer volume transacted. The Exchange believes that the proposed temporary waiver of the ORF would not place certain market participants at an unfair disadvantage because all options transactions must clear via a clearing firm. Such clearing firms can then choose to pass through all, a portion, or none of the cost of the ORF to its customers, *i.e.*, the entering firms. In addition, because the ORF is collected from ATP Holder clearing firms by the OCC on behalf of NYSE American, the Exchange believes that using options transactions in the Customer range serves as a proxy for how to apportion regulatory costs among such ATP Holders. The Exchange also believes recommencing the ORF on February 1, 2023 at the current rate (unless the Exchange determines it necessary at that time to adjust the ORF to ensure that ORF collections do not exceed ORF Costs) would not impose an undue burden on competition because it would permit the Exchange to resume collecting an ORF that is designed to recover a material portion, but not all, of the Exchange's projected ORF Costs and the ORF would, as currently, apply to all ATP Holders on their options transactions that clear in the Customer range at the OCC. The Exchange further believes that the proposed change to remove the semi-annual requirement would not impose any burden on competition because the change would impact all ATP Holders subject to the ORF, and the Exchange will continue to provide advance notice of changes to the ORF to all ATP Holders via Trader Update. The Exchange also believes that the proposed change to eliminate language relating to the August 2019 ORF would not impact intramarket competition because it would simply add clarity to the Fee Schedule by removing text describing a fee that is no longer effective.

Intermarket Competition. The proposed fee change is not designed to address any competitive issues. Rather, the proposed change is designed to help the Exchange adequately fund its regulatory activities while seeking to ensure that total collections from regulatory fees do not exceed total regulatory costs and to promote clarity in the Fee Schedule by deleting obsolete text.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A)¹⁷ of the Act and subparagraph (f)(2) of Rule 19b-4¹⁸ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.
