

HUD forms used are part of the collection effort for non-performing insured mortgage loans.

Respondents: Mortgagees or Mortgagors.

Estimated Number of Respondents: 412,966.

Estimated Number of Responses: 1,254,958.

Frequency of Response: On occasion.

Average Hours per Response: 1.38 hours.

Total Estimated Burdens: 1,736,478.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

- (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) The accuracy of the agency's estimate of the burden of the proposed collection of information;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.

Jeffrey D. Little,

General Deputy Assistant Secretary, Office of Housing.

Final Programmatic Environmental Impact Statement for the 2015 Integrated Resource Management Plan for the Colville Indian Reservation, Nespelem, Washington

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA),

as lead agency, and the Confederated Tribes of the Colville Reservation (Tribes) intends to file a Final Programmatic Environmental Impact Statement (FEIS) with the Environmental Protection Agency (EPA) for the 2015 Colville Reservation Integrated Resource Management Plan (IRMP). This notice announces that the FEIS is now available for public review.

DATES: The BIA will not issue a final decision on the proposal for a minimum of 30 days after the date that the EPA publishes its Notice of Availability (NOA) in the **Federal Register**. Any comments on the FEIS must arrive on or before the date 30 days after the EPA publishes a Notice of Availability in the **Federal Register**. The Record of Decision (ROD) on the proposed action will be issued no sooner than 30 days after the release of the FEIS.

ADDRESSES:

Comments: You may mail or hand-deliver written comments to Randall Friedlander, Superintendent, Bureau of Indian Affairs, Colville Agency, P.O. Box 111, 21 Colville Street, 3rd Floor NE, Nespelem, WA 99155-0111. Please include your name, return address, and the caption "FEIS Comments, Colville Reservation IRMP," on the first page of your written comments. You can also submit comments by email to randall.friedlander@bia.gov. If emailing comments, please use "FEIS Comments, Colville Reservation IRMP," as the subject of your email.

Public Review: The FEIS is available online at <http://www.colvilletribes.com/irmp>. The FEIS is also available for review during regular business hours at the following locations:

- BIA Colville Agency, 21 Colville St., 3rd Floor NE, Nespelem, WA 99155-0111.
- Inchelium Resource Center, 12 Community Center Loop, Inchelium, WA 99138.

FOR FURTHER INFORMATION CONTACT:

Randall Friedlander, Superintendent, Bureau of Indian Affairs, Colville Agency, P.O. Box 111, Nespelem, WA 99155-0111, (509) 634-2316.

SUPPLEMENTARY INFORMATION: The purpose of the proposed action is approval the IRMP for the Tribes' natural and cultural resources. The proposed action updates the original IRMP that was prepared and implemented in 2000. The IRMP incorporates management goals and objectives for the commercial forest, rangeland, and agricultural lands of the Tribes.

The Tribes' forest products industry, livestock grazing, and agriculture have the potential to impact the natural and

human environments of the Reservation. The FEIS analyzes the potential impacts associated with these activities. These include impacts to land resources such as geology, minerals, and soils, watershed function, surface and groundwater resources, air quality, biological resources, cultural and paleontological resources, socioeconomic conditions, transportation and forest access roads, land use, public services, noise, aesthetics, recreation, climate change, cumulative effects, and indirect and growth-inducing effects.

The FEIS considers five management alternatives developed by the Tribes' IRMP Core Team. The interdisciplinary team developed these management alternatives for consideration and analysis and designated a preferred alternative (Alternative 2) that was approved by the Colville Business Council in June 2014. The team also conducted a community survey in 2014 that asked community members to choose a preferred alternative. All groups were unanimous in selecting Alternative 2 as the preferred alternative. The alternatives are:

1. Continue the Current Management Strategy
2. Enhance and Improve the Current Management Strategy (Preferred Alternative)
3. Concentrate on Forest and Rangeland Health Problems
4. Expand Forest and Livestock Production
5. Eliminate Timber Harvesting and Livestock Grazing

A Notice of Intent (NOI) to prepare an EIS was released in the **Federal Register** on November 21, 2014 (79 FR 69521). Public scoping meetings were held in four Reservation communities in October 2015, and a Scoping Meetings Report was released in March 2016. An administrative draft DEIS was prepared and reviewed by the IRMP Core Team and appropriate revisions were incorporated along with supplemental information.

The Draft EIS (DEIS) was completed in November 2016. Notices of Availability (NOA) were published in the **Federal Register** by the BIA on June 14, 2017 (82 FR 27278) and the EPA on July 28, 2017 (82 FR 35200). The public review period ended on September 11, 2017. The Response to Comments was released on January 24, 2018. The original FEIS was completed on August 14, 2018, and page-count revisions were completed on December 18, 2018.

Public Comment Availability

Comments, including names and addresses of respondents, will be

available for public review during regular business hours at the BIA mailing address shown in the ADDRESSES section of this notice. Before including your address, telephone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

This notice is published pursuant to 40 CFR 1506.10(a) of the Council of Environmental Quality Regulations (40 CFR 1500 *et seq.*) and 43 CFR 46.305 of the Department of Interior Regulations (43 CFR part 46), the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4371 *et seq.*), and is in accordance with the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.

Bryan Newland,

Assistant Secretary—Indian Affairs.

Agency Information Collection Activities; Backcountry/Wilderness Use Permit

AGENCY: National Park Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 we, the National Park Service (NPS) are proposing to revise a previously approved information collection.

DATES: Interested persons are invited to submit comments on or before January 30, 2023.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to Phadrea Ponds, NPS Information Collection Clearance Officer, 12201 Sunrise Valley Drive (MS–242), Reston, Virginia 20192; or to phadrea_ponds@nps.gov (email). Please reference Office of Management and Budget (OMB) Control Number 1024–

0022 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Roger Semler, Chief, Wilderness Stewardship Division at roger_semler@nps.gov (email). Please reference OMB Control Number 1024–0022 in the subject line of your comments. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point of contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal

identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Backcountry/Wilderness Use Permit is an extension of the NPS statutory authority and responsibility to protect the park areas it administers and to manage the public use thereof (54 U.S.C. 100101, 100751, and 320102). In 1976, the NPS initiated a backcountry registration system by the regulations codified in 36 CFR 1.5, 1.6, and 2.10. The NPS regulations codified in 36 CFR parts 1 through 7, 12, and 13 are designated to implement statutory mandates that provide for resource protection and public enjoyment. The registration system aims to provide users access to backcountry and wilderness areas of national parks while enhancing the protection of natural and cultural resources by using better management practices by the park management. Data collected through the registration process serves as an important resource that informs backcountry/wilderness management and stewardship planning, decision-making, and operations, and provides a means of disseminating public safety and outdoor ethics messages regarding backcountry/wilderness travel and camping along with continuing opportunities for primitive and unconfined recreation. Permitting enhances the ability of the NPS to educate users on potential hazards, search and rescue efforts, and resource protection. The objectives of the permit system carried out by park managers are to ensure:

- (1) Requests by backcountry users are evaluated by park managers per applicable statutes and NPS regulations.
- (2) The use of consistent standards and permitting criteria throughout the agency.
- (3) To the extent possible, the use of a single and efficient permitting document, NPS Forms 10–404 *Backcountry/Wilderness Use Permit Application* and 10–404A *Backcountry/Wilderness Use Permit Hangtag*, are used to provide access to NPS backcountry areas, including areas that require a reservation to enter where use limits are imposed per other NPS regulations. The 10–404AK *Alaska Backcountry/Wilderness Use Permit Application*, is used within Alaskan park units, Denali National Park and Preserve and Glacier Bay National Park
