

§ 622.388 Annual catch limits (ACLs), annual catch targets (ACTs), and accountability measures (AMs).

* * * * *

- (a) * * *
- (1) * * *

(ii) The commercial ACL for the Gulf migratory group of king mackerel is 2,998,400 lb (1,360,051 kg) for the 2021–2022 fishing year, 3,110,400 lb (1,410,854 kg) for the 2022–2023 fishing year, and 3,196,800 lb (1,450,044 kg) for the 2023–2024 and subsequent fishing years. The ACL is further divided into a commercial ACL for vessels fishing with hook-and-line and a commercial ACL for vessels fishing with run-around gillnets. The hook-and-line ACL (which applies to the entire Gulf) is 2,368,736 lb (1,074,441 kg) for the 2021–2022 fishing year, 2,457,216 lb (1,114,574 kg) for the 2022–2023 fishing year, and 2,525,472 lb (1,145,535 kg) for the 2023–2024 and subsequent fishing years. The run-around gillnet ACL (which applies to the southern zone) is 629,664 lb (285,611 kg) for the 2021–2022 fishing year, 653,184 lb (296,279 kg) for the 2022–2023 fishing year, and 671,328 lb (304,509 kg) for the 2023–2024 and subsequent fishing years.

* * * * *

(2) *Recreational sector.* If recreational landings, as estimated by the SRD, reach or are projected to reach the recreational ACL of 6,371,600 lb (2,890,109 kg) for the 2021–2022 fishing year, 6,609,600 lb (2,998,064 kg) for the 2022–2023 fishing year, and 6,793,200 lb (3,081,344 kg) for the 2023–2024 and subsequent fishing years, the AA will file a notification with the Office of the Federal Register to implement bag and possession limits for Gulf migratory group king mackerel of zero, unless the best scientific information available determines that a bag limit reduction is unnecessary.

[Docket No. 220126–0034]

RTID 0648–XC581

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfers From NJ to NY and RI

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification; quota transfers.

SUMMARY: NMFS announces that the State of New Jersey is transferring a portion of its 2022 commercial bluefish quota to the states of New York and Rhode Island. These quota adjustments are necessary to comply with the Atlantic Bluefish Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial bluefish quotas for New Jersey, New York, and Rhode Island.

DATES: Effective December 2, 2022, through December 31, 2022.

FOR FURTHER INFORMATION CONTACT: Laura Deighan, Fishery Management Specialist, (978) 281–9184.

SUPPLEMENTARY INFORMATION: Regulations governing the Atlantic bluefish fishery are found in 50 CFR 648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2022 allocations were published on February 2, 2022 (87 FR 5739).

The final rule implementing Amendment 1 to the Bluefish Fishery Management Plan (FMP) published in the **Federal Register** on July 26, 2000 (65 FR 45844), and provided a mechanism for transferring bluefish quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e)(1)(i) through (iii). The Regional Administrator must approve any such transfer based on the criteria in § 648.162(e). In evaluating requests to transfer a quota or combine quotas, the Regional Administrator shall consider whether: the transfer or combinations would preclude the overall annual quota from being fully harvested; the transfer addresses an unforeseen variation or contingency in the fishery; and the transfer is consistent with the objectives of the FMP and the Magnuson-Stevens Act.

New Jersey is transferring 42,500 lb (19,278 kg) to New York and 42,500 lb (19,278 kg) to Rhode Island through mutual agreement of the states. These transfers were requested to ensure that New York and Rhode Island would not exceed their 2022 state quotas. The revised bluefish quotas for 2022 are: New Jersey, 434,158 lb (196,931 kg);

New York, 497,193 lb (225,523 kg); and Rhode Island, 382,456 lb (173,479 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.162(e)(1)(i) through (iii), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 2, 2022.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Island Fisheries; 2022 U.S. Territorial Longline Bigeye Tuna Catch Limits for the Commonwealth of the Northern Mariana Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Announcement of a valid specified fishing agreement.

SUMMARY: NMFS announces a valid specified fishing agreement that allocates up to 1,500 metric tons (t) of the 2022 bigeye tuna limit for the Commonwealth of the Northern Mariana Islands (CNMI) to U.S. longline fishing vessels. The agreement supports the long-term sustainability of fishery resources of the U.S. Pacific Islands and fisheries development in the CNMI.

DATES: The specified fishing agreement was valid as of July 21, 2022. The start date for attributing 2022 bigeye tuna catch to the CNMI is November 21, 2022.

ADDRESSES: The Fishery Ecosystem Plan for Pelagic Fisheries of the Western Pacific (FEP) describes specified fishing agreements and is available from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, telephone: 808–522–8220, fax: 808–522–8226, or <http://www.wpcouncil.org>.

NMFS prepared environmental analyses that describe the potential impacts on the human environment that would result from the action. The
