

national stage entry; (3) the application or national stage entry was not filed electronically in Patent Center; (4) the application is not an original (non-reissue), nonprovisional utility application filed under 35 U.S.C. 111(a), or an international application that has entered the national stage under 35 U.S.C. 371; (5) the application was previously granted special status; (6) the application does not contain at least one method claim that complies with the eligibility requirements set forth in section V of this notice; or (7) the application pertains to a medical device adapted to detect or treat a cancer and discloses a use for the medical device that is not related to the treatment or detection of a cancer.

#### VII. Requirement for Restriction or Unity of Invention

If the claims in the application are directed to multiple inventions, the examiner may make a requirement for restriction or unity of invention in accordance with current restriction practice. If such a requirement is made, the applicant must make an election without traverse to an invention that meets the eligibility requirements of this program.

If the applicant elects the product or apparatus, claims to the qualifying method will be withdrawn but must remain pending and depend from or be commensurate in scope with the examined product or apparatus claims (that is, the qualifying method claims must contain all of the limitations of the examined product or apparatus claims). Any reply to an Office action that cancels all of the method claims that meet the eligibility requirements for the pilot program or does not present eligible method claims that are commensurate in scope with or depend from the product or apparatus claims under examination will be treated as not fully responsive. The petition must include a statement that if the applicant elects a product or an apparatus for examination, the applicant agrees to present eligible method claims that are commensurate in scope with or depend from the claims to the elected product or apparatus throughout the pendency of the application.

Where the applicant elects claims directed to an eligible product or apparatus, and all product or apparatus claims are subsequently found allowable, withdrawn eligible method claims that include all the limitations of the allowable product or apparatus claims will be considered for rejoinder in accordance with sections 806.05 *et seq.* and 821.04 *et seq.* of the MPEP. In the event of rejoinder, the requirement

for restriction between the product or apparatus claims and the rejoined method claims will be withdrawn, and the rejoined method claims will be fully examined for patentability in accordance with 37 CFR 1.104.

#### VIII. Period for Reply by the Applicant

The time periods set for reply in Office actions for an application granted special status under the pilot program will be the same as those set forth in section 710.02(b) of the MPEP.

#### IX. Replies by the Applicant Under the Pilot Program

Throughout the pendency of an application granted special status under the pilot program, the applicant's replies to Office actions must be fully responsive to the rejections, objections, and requirements made by the examiner. Any amendment filed in reply to an Office action may be treated as not fully responsive if it attempts to: (1) add claims that would result in more than 3 independent claims or more than 20 total claims pending in the application; (2) add any multiple dependent claim(s); (3) cancel all method claims that meet the eligibility requirements of the pilot program; or (4) cancel all claims to the elected invention. The amendment may also be treated as not fully responsive if it does not present eligible method claims that are commensurate in scope with or depend from the claims to the elected product or apparatus. If a reply to a non-final Office action is not fully responsive for the reasons set forth above but is a *bona fide* attempt to advance the application to final action, the examiner may, at their discretion, issue a notice of nonresponsive amendment and provide a shortened statutory period of two months for the applicant to supply a fully responsive reply. Extensions of this time period under 37 CFR 1.136(a) to the notice of nonresponsive amendment will be permitted, but in no case can any extension carry the date for reply to this notice beyond the maximum period of *six months* set by statute (35 U.S.C. 133). However, any further nonresponsive amendment typically will not be treated as *bona fide*; therefore, the time period set in the prior notice will continue to run.

#### X. After-Final and Appeal Procedures

Any amendment, affidavit, or other evidence after a final Office action and prior to appeal must comply with 37 CFR 1.116. During the appeal process, the application will be treated in accordance with the normal appeal procedure (*see* MPEP Chapter 1200).

#### XI. Withdrawal From the Pilot Program

There is no provision for withdrawal from the pilot program. The applicant may abandon an application that has been granted special status under the pilot program in favor of a continuing application. However, a continuing application will not automatically be granted special status based on the petition filed in the parent application. Each application (including each continuing application) must, on its own, meet all requirements for special status under the pilot program, and be accompanied by its own petition as detailed in section IV above.

##### SUPPLEMENTARY INFORMATION:

##### Deletions

On 8/19/2022 and 9/9/2022, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed deletions from the Procurement List. This notice is published pursuant to 41 U.S.C. 8503 (a)(2) and 41 CFR 51-2.3.

After consideration of the relevant matter presented, the Committee has determined that the product(s) and service(s) listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

**Regulatory Flexibility Act Certification**

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.
2. The action may result in authorizing small entities to furnish the product(s) and service(s) to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the product(s) and service(s) deleted from the Procurement List.
