

recipients and grantees to ensure the appropriate implementation of the BAP in its programs. At this time, HUD is issuing, without substantive change other than minor, inconsequential grammatical revisions this Exigent Circumstances Waiver via this final notice.

VI. Impact of This Waiver on Other Federal Financial Assistance

Where the BAP or other BABA requirements are made applicable to projects of a grantee or funding recipient by another Federal agency, the grantee or funding recipient may not rely on this waiver as a waiver of any requirement imposed by the other Federal agency for the projects, nor is the grantee or funding recipient exempt from the application of those requirements in accordance with the requirements of the Federal agency providing such Federal Financial Assistance.

VII. Assessment of Cost Advantage of a Foreign-Sourced Product

Under OMB Memorandum M–22–11, “Memorandum for Heads of Executive Departments and Agencies,” published on April 18, 2022, agencies are expected to assess “whether a significant portion of any cost advantage of a foreign-sourced product is the result of the use of dumped steel, iron, or manufactured products or the use of injuriously subsidized steel, iron, or manufactured products” as appropriate before granting a public interest waiver.¹¹ HUD’s analysis has concluded that this assessment is not applicable to this waiver, as this waiver is not based in the cost of foreign-sourced products. HUD will perform additional market research during the duration of the waiver to better understand the market to limit the use of waivers caused by dumping of foreign-sourced products.

Secretary.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it will proceed with full reviews pursuant to the Tariff Act of 1930 to determine whether revocation of the antidumping duty orders on emulsion styrene-butadiene rubber from Brazil, Mexico, Poland, and South Korea would be likely to lead to continuation
