

sale” is defined to mean a provider’s website and any alternate sales channels through which the provider’s broadband internet access service is sold, including a provider-owned retail location, third-party retail location, and over the phone. For labels displayed on provider websites, the label must be displayed in close proximity to the associated advertised service plan. “Point of sale” also means the time a consumer begins investigating and comparing broadband service offerings available to them at their location. “Point of sale” for purposes of the E-Rate and Rural Health Care programs is defined as the time a service provider submits its bid to a program participant. Providers participating in the E-Rate and Rural Health Care programs must provide their labels to program participants when they submit their bids to participants. Broadband internet access service providers that offer online account portals to their customers shall also make each customer’s label easily accessible to the customer in such portals.

(3) The content of the label required under paragraph (a)(1) of this section must be displayed on the broadband internet access service provider’s website in a machine-readable format. Broadband internet access service providers must provide the information in any label separately in a spreadsheet file format on their websites via a dedicated uniform resource locator (URL) that contains all of their labels. Providers must publicize the URL with the label data in the transparency disclosures required under this paragraph (a).

(4) The label required under paragraph (a)(1) of this section must be provided in English and in any other languages in which the broadband internet access service provider markets its services in the United States.

(5) Broadband internet access service providers shall maintain an archive of all labels required under paragraph (a)(1) of this section for a period of no less than two years from the time the service plan reflected in the label is no longer available for purchase by a new subscriber and the provider has removed the label from its website or alternate sales channels. Providers must provide any archived label to the Commission, upon request, within thirty days. Providers must provide an archived label, upon request and within thirty days, to an existing customer whose service plan is associated with the particular label. A provider is not required to display a label once the associated service plan is no longer offered to new subscribers.

(6) Broadband consumer label requirements and the transparency rule in paragraph (a) of this section are subject to enforcement using the same processes and procedures. The label required under paragraph (a)(1) of this section is not a safe harbor from the transparency rule or any other requirements established by the Commission.

(7) Paragraphs (a)(1) through (6) of this section may contain an information-collection and/or recordkeeping requirement. Compliance with paragraphs (a)(1) through (6) of this section will not be required until this paragraph (a)(7) is removed or contains a compliance date, which will not occur until after the Office of Management and Budget completes review of such requirements pursuant to the Paperwork Reduction Act or until after the Consumer and Governmental Affairs Bureau determines that such review is not required. The compliance date will be one year after the removal or amendment of this paragraph (a)(7) for providers with 100,000 or fewer subscriber lines and six months after the removal or amendment of this paragraph (a)(7) for all other providers, except that the compliance date for paragraph (a)(3) of this section will be one year after the removal or amendment of this paragraph (a)(7) for all providers. The compliance date for the requirement in paragraph (a)(2) of this section to make labels accessible in online account portals will be one year after the removal or amendment of this paragraph (a)(7) for all providers. The Commission directs the Consumer and Governmental Affairs Bureau to announce compliance dates for paragraphs (a)(1) through (6) of this section by subsequent Public Notice and notification in the **Federal Register** and to cause this section to be revised accordingly.

SUPPLEMENTARY INFORMATION:

I. Background

This interim rule revises the DFARS to implement section 848 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2022 (Pub. L. 117–81). Section 848 prohibits the use of funds to knowingly procure any products mined, produced, or manufactured wholly or in part by forced labor from the Xinjiang Uyghur Autonomous Region of the People's Republic of China (XUAR) and requires a certification from offerors for contracts with DoD stating the offeror has made a good faith effort to determine that forced labor from XUAR was not or will not be used in the performance of a contract.

II. Discussion and Analysis

This interim rule makes the following changes to the DFARS to implement section 848 of the NDAA for FY 2022:

A. Definitions

The interim rule adds a new section for definitions in DFARS 252.7022–2. “Forced labor” is defined as all work or service which is exacted from any person under the menace of any penalty for its nonperformance and for which the worker does not offer themselves voluntarily.

In addition, the rule defines “person” as—

a. A natural person, corporation, company, business association, partnership, society, trust, or any other nongovernmental entity, organization, or group; or

b. Any successor, subunit, parent entity, or subsidiary of, or any entity under common ownership or control with, any entity described in item a.

Lastly, “XUAR” is added and is defined as the Xinjiang Uyghur Autonomous Region of the People's Republic of China.

B. Prohibition

At DFARS 252.7022–3, the statutory prohibition is added that DoD shall not award a contract utilizing funds appropriated or otherwise made available for fiscal year 2022 to an entity that uses forced labor from XUAR.

C. Certification

The statute requires a certification from offerors for all DoD contracts stating the offeror has made a good faith effort to determine that forced labor from XUAR was not or will not be used in the performance of such contract. A solicitation provision is created to facilitate receipt of the good faith certification from offerors. A contract clause is created to provide the associated terms and conditions for

compliance, as they will apply to the contract. The solicitation provision and contract clause are added to the list at DFARS 212.301 of clauses and provisions that apply to the acquisition of commercial items.

D. Solicitation Provision and Contract Clause

A new solicitation provision at 252.225–7059, Prohibition on Certain Procurements From the Xinjiang Uyghur Autonomous Region–Certification, is added for use in solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial services, commercial products, or commercially available off-the-shelf (COTS) items. The provision is used in solicitations that contain the clause at 252.225–7060, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region. This provision will be used to determine whether the offeror is subject to the statutory prohibition and therefore is prohibited from consideration for contract award. If the offeror responds that it does not certify that it has made a good faith effort to determine that forced labor from XUAR was not or will not be used in the performance of a contract resulting from the solicitation, then the offeror is ineligible for contract award.

A new contract clause at 252.225–7060, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region, is added for use in solicitations and contracts, utilizing funds appropriated or otherwise made available for fiscal year 2022, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial services, commercial products, or COTS items. The new clause prohibits contractors from providing, throughout the period of performance of the contract, any products mined, produced, or manufactured wholly or in part by forced labor from XUAR or from an entity that has used labor from within or transferred from XUAR as part of any forced labor programs.

E. Exceptions

The section 848 prohibition will not apply to—

- Purchases under the micro-purchase threshold made using the Governmentwide commercial purchase card; or
- Purchases using the SF 44, Purchase Order-Invoice-Voucher, in accordance with 213.306.

III. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Services and Commercial Products, Including Commercially Available Off-the-Shelf (COTS) Items

This DFARS rule implements section 848 of the NDAA for FY 2022. Section 848 prohibits the use of funds to knowingly procure any products mined, produced, or manufactured wholly or in part by forced labor from XUAR and requires a certification from offerors for DoD contracts.

This rule creates a new solicitation provision at DFARS 252.225–7059, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region–Certification, and a new contract clause at DFARS 252.225–7060, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region. The clause at DFARS 252.225–7060 is prescribed for use in solicitations and contracts utilizing funds appropriated or otherwise made available for fiscal year 2022, including solicitations using FAR part 12 procedures for the acquisition of commercial services and commercial products including COTS items. DoD has made the determination to apply the rule to contracts valued at or below the simplified acquisition threshold (SAT) and to the acquisition of commercial services and commercial products, including COTS items, as defined at FAR 2.101.

A. Applicability to Contracts at or Below the Simplified Acquisition Threshold

The statute at 41 U.S.C. 1905 governs the applicability of laws to contracts or subcontracts in amounts not greater than the SAT. It is intended to limit the applicability of laws to such contracts or subcontracts. The statute at 41 U.S.C. 1905 provides that if a provision of law contains criminal or civil penalties, or if the Federal Acquisition Regulatory Council makes a written determination that it is not in the best interest of the Federal Government to exempt contracts or subcontracts at or below the SAT, the law will apply to them. The Principal Director, Defense Pricing and Contracting (DPC), is the appropriate authority to make comparable determinations for regulations to be published in the DFARS, which is part of the FAR system of regulations.

B. Applicability to Contracts for the Acquisition of Commercial Services and Commercial Products, Including COTS Items

The statute at 10 U.S.C. 2375 (redesignated 10 U.S.C. 3452) exempts

contracts and subcontracts for the acquisition of commercial services and commercial products (including COTS items) from provisions of law enacted after October 13, 1994, that, as determined by the Under Secretary of Defense for Acquisition and Sustainment (USD (A&S)), set forth policies, procedures, requirements, or restrictions for the acquisition of property or services unless—

- The provision of law—
- Provides for criminal or civil penalties;
- Requires that certain articles be bought from American sources pursuant to 10 U.S.C. 2533a or that strategic materials critical to national security be bought from American sources pursuant to 10 U.S.C. 2533b; or
- Specifically refers to 10 U.S.C. 2375 (now 10 U.S.C. 3452) and states that it shall apply to contracts and subcontracts for the acquisition of commercial services and commercial products (including COTS items); or USD (A&S) determines in writing that it would not be in the best interest of the Government to exempt contracts or subcontracts for the acquisition of commercial products and services from the applicability of the provision. This authority has been delegated to the Principal Director, Defense Pricing and Contracting.

C. Determinations

Section 848 is silent on applicability to contracts and subcontracts in amounts at or below the SAT or for the acquisition of commercial products and commercial services. Also, the statute does not provide for civil or criminal penalties. Therefore, it does not apply to the acquisition of contracts or subcontracts in amounts not greater than the SAT or the acquisition of commercial services and commercial products (including COTS items), unless the Principal Director, Defense Pricing and Contracting, makes a written determination as provided for in 41 U.S.C. 1905 and 10 U.S.C. 2375 (redesignated 10 U.S.C. 3452).

The solicitation provision and contract clause provided are necessary to implement the statutory restrictions and to protect the contracting officer from violating the prohibition on the use of funds to knowingly procure any products mined, produced, or manufactured wholly or in part by forced labor from XUAR or from an entity that has used labor from within or transferred from XUAR as part of a forced labor program.

If the solicitation provision and contract clause are not included in

solicitations and contracts valued at or below the SAT and for the acquisition of commercial services and commercial products (including COTS items) it becomes more likely that a contracting officer could procure a prohibited product, thereby undermining the overarching public policy purpose of the law. Subjecting FAR part 13 simplified acquisitions to section 848 will not impact simplified acquisitions conducted without issuance of a purchase order through the use of the Governmentwide commercial purchase card or the SF 44, as these acquisitions are excepted from section 848.

An exception for contracts for the acquisition of commercial services and commercial products, including COTS items, would exclude some high dollar value contracts, thereby undermining the overarching public policy purpose of the law. However, the prohibition in section 848 covers only “knowingly” procuring covered items. It would be unreasonable to expect the parties to a procurement through the use of the Governmentwide commercial purchase card or the SF 44 to know whether the commercial products or commercial services being procured are mined, produced, or manufactured wholly or in part by forced labor from XUAR or from an entity that has used labor from within or transferred from XUAR as part of a forced labor program.

Based on the findings above, it would not be in the best interest of the United States to exempt acquisitions not greater than the SAT (except for purchases made regardless of dollar value through the use of the Governmentwide commercial purchase card or the SF 44) and acquisitions of commercial services or commercial products, including COTS items, from the applicability of section 848 of the NDAA for FY 2022.

IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

V. Congressional Review Act

As required by the Congressional Review Act (5 U.S.C. 801–808) before an interim or final rule takes effect, DoD will submit a copy of the interim or final rule with the form, Submission of Federal Rules under the Congressional Review Act, to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States. A major rule under the Congressional Review Act cannot take effect until 60 days after it is published in the **Federal Register**. The Office of Information and Regulatory Affairs has determined that this rule is not a major rule as defined by 5 U.S.C. 804.

VI. Regulatory Flexibility Act

This interim rule may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* An initial regulatory flexibility analysis has been performed and is summarized as follows:

DoD is amending the DFARS to implement section 848 of the National Defense Authorization act (NDAA) for Fiscal Year (FY) 2022 (Pub. L. 117–81). Section 848 prohibits the use of funds to knowingly procure any products mined, produced, or manufactured wholly or in part by forced labor from the Xinjiang Uyghur Autonomous Region in the People’s Republic of China (XUAR) or from an entity that has used labor from within or transferred from XUAR as part of any forced labor programs. In addition, section 848 requires a certification from offerors for DoD contracts stating the offeror has made a good faith effort to determine that forced labor from XUAR was not or will not be used in the performance of a contract.

The objective of the rule is to implement the prohibition and certification requirement of section 848. The rule includes a new solicitation provision at DFARS 252.225–7059, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region—Certification, which includes a certification requirement, and a new contract clause at DFARS 252.225–7060, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region, which prohibits contractors from providing any products mined, produced, or manufactured wholly or in part by forced labor from XUAR or from an entity that has used labor from within or transferred from XUAR as part of any forced labor programs. The legal basis for this rule is section 848 of the NDAA for FY 2022.

DoD reviewed data obtained from the Federal Procurement Data System (FPDS) for FY 2020, 2021, and 2022, for DoD purchases of supplies or end products valued above the micro-purchase threshold, including commercial products and COTS items. DoD made an average of 374,735 awards to 16,122 unique entities, of which 154,515 awards were made to 12,187 unique small entities. In addition to the small entities that received awards, DoD estimates there were approximately 621,718 unsuccessful offerors. Note that the unsuccessful offerors are not unique entities; in other words, a single entity may have been counted more than once as an unsuccessful offeror. The rule will apply to successful offerors that receive awards and unsuccessful offerors.

The solicitation provision at DFARS 252.225-7059, Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region—Certification, requires offerors to certify that the offeror has made a good faith effort to determine that forced labor from XUAR was not or will not be used in the performance of a contract resulting from the solicitation containing the provision. Small entities that sell products to DoD will be subject to this requirement when they submit offers for DoD contracts. The rule does not require any other reporting or recordkeeping.

The rule does not duplicate, overlap, or conflict with any other Federal rules.

The section 848 prohibition will not apply to purchases under the micro-purchase threshold made using the Governmentwide commercial purchase card or to purchases using the SF 44, Purchase Order-Invoice-Voucher (see DFARS 213.306). DoD was unable to identify any other alternatives that would reduce burden on small businesses and still meet the objectives of the statute.

DoD invites comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD will also consider comments from small entities concerning the existing regulations in subparts affected by this rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C 610 (DFARS Case 2022-D008), in correspondence.

VII. Paperwork Reduction Act

This rule contains information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35). This information collection requirement has been assigned OMB Control Number

0750-0007, entitled Prohibition on Certain Procurements from the Xinjiang Uyghur Autonomous Region—Certification.

VIII. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment (41 U.S.C. 1707(d)). This action is necessary because section 848 of the NDAA for FY 2022 adds the prohibition that requires the offeror to provide a certification that it made a good faith effort to determine that forced labor from XUAR was not or will not be used in the performance of a contract. DoD recognizes that Congress considers this an important public policy to avoid further genocide (see the Joint Explanatory Statement to Accompany the National Defense Authorization Act for Fiscal Year 2022).

Consequently, this interim rule is necessary to ensure implementation of the new statutory certification requirements in section 848. The law containing section 848 was enacted in December 2021, and section 848 is currently in effect.

However, pursuant to 41 U.S.C. 1707 and FAR 1.501-3(b), DoD will consider public comments received in response to this interim rule in the formation of the final rule.

Defense Federal Acquisition Regulation Supplement: United States-Mexico-Canada Agreement (DFARS Case 2020-D032)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD is issuing a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement the United States-Mexico-Canada Agreement Implementation Act.

DATES: Effective December 30, 2022.

FOR FURTHER INFORMATION CONTACT: Ms. Kimberly Bass, telephone 703-717-3446.

SUPPLEMENTARY INFORMATION:

I. Background

DoD published a proposed rule in the **Federal Register** at 87 FR 11002 on February 28, 2022, to implement the United States-Mexico-Canada Agreement Implementation Act. A correction notification was published in the **Federal Register** at 87 FR 12923 on March 8, 2022, to correct the comment period due date from May 27, 2022, to April 29, 2022. There were no public comments received in response to the proposed rule.

II. Discussion and Analysis

A. Summary of Significant Changes

No changes are made to the final rule as a result of public comments.

B. Other Changes

The proposed rule reflected redesignation of the paragraph numbering structure for several definitions in paragraph (a) for DFARS clauses 252.225-7036, Buy American—Free Trade Agreements—Balance of Payments Program, and 252.225-7045, Balance of Payments Program—Construction Material Under Trade Agreements. Those paragraph redesignations are no longer required in this final rule, since those redesignations were accomplished with the publication of the final rule for DFARS Case 2019-D045, Maximizing the Use of American-Made Goods,
