DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by January 17, 2023 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Office of Partnerships and Public Engagement

Title: USDA 1994 Tribal Scholars Program.

OMB Control Number: 0503–0016.

Summary of Collection: The purpose of the U.S. Department of Agriculture 1994 Tribal Scholars Program is to strengthen the long-term partnership between USDA and the 1994 Land-Grant Institutions to increase the number of students studying and graduating in food, agricultural, natural resources, and other related fields of study, and to develop a pool of scientists and professionals to annually fill 50,000 jobs in the food, agricultural, and natural resources system. The USDA 1994 Tribal Scholars Program is an annual joint human capital initiative between USDA and the Nation's 1994 Land-Grant Institutions, also known as 1994 Tribal Colleges and Universities. This program offers a combination of paid work experience with a USDA sponsoring agency through an appointment under the Fellowship Experience Program. USDA Tribal Scholarship recipients are required to study in the food, and agricultural, and related sciences, as defined by the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103 (8)).

Need and Use of the Information: Information will be collected to determine the eligibility of applicants to the USDA Tribal Scholars Program. Each applicant to the program will be required to submit the following: An essay, resume, two letters of recommendation, and transcripts. The collected information is needed for identifying and tracking capital needs of USDA agencies and the hiring of students from 1994 Land-Grant Institutions through a paid training program and associated scholarship with the objective of preparing the student to complete for placement into USDA's workforce.

Description of Respondents: Individuals or households.

Number of Respondents: 170.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 663.

SUPPLEMENTARY INFORMATION:

Title: Phytosanitary Export Certification.

OMB Control Number: 0579-0052.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to certify as to the freedom of plants, plant products, or biological control organisms from plant pests or noxious weeds, or the exposure of plants, plant products, or biological control organisms to plant pests or noxious weeds, according to the phytosanitary or other requirements of the countries to which the plants, plant products, or biological control organisms may be exported.

The Animal and Plant Health Inspection Service (APHIS), among other things, provides export certification services to assure other countries that the plants and plant products they are receiving from the United States are free of plant pests specified by the receiving country. Our regulations do not require that we engage in export certification activities. However, we perform this work as a service to exporters who are shipping plants or plant products to countries that require phytosanitary certification as a condition of entry.

The export certification regulations in 7 CFR part 353 describe the procedures for obtaining certification for plants and plant products offered for export or re-export. To request that we perform a phytosanitary inspection, an exporter must complete and submit an Application for Inspection and Certification of Plants and Plant Products for Export. After assessing the condition of the plants or plant products intended for export (*i.e.*, after conducting a phytosanitary inspection), an inspector (who may be an APHIS employee or a State or county plant regulatory official) will issue an internationally recognized

phytosanitary certificate or a phytosanitary certificate for re-export. All of these forms are critical to our ability to certify plants and plant products for export. Without them, we would be unable to conduct an export certification program.

In addition, APHIS uses the following information collection activities, such as recordkeeping, a compliance agreement for State inspectors, requests for APHIS to negotiate with national plant protection organizations for industry-issued certificates or documentation, memorandum of understanding with industry for inspection and use of International Standards for Phytosanitary Measures Guidelines for Regulating Wood Packaging Material in International Trade (ISPM 15), and the application of an ISPM 15 mark.

We are asking OMB to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.007 hours per response.

Respondents: State, local, and county plant regulatory officials, U.S. growers, shippers, and exporters.

Estimated annual number of respondents: 9,101.

Estimated annual number of responses per respondent: 6,162.

Estimated annual number of responses: 56,080,454.

Estimated total annual burden on respondents: 401,228 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of December 2022.

Anthony Shea,

Administrator, Animal and Plant Health Inspection Service.
