FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 22-118; RM-11924; DA 22-1234; FR ID 118038]

**Television Broadcasting Services
Helena, Montana**

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On March 10, 2022, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking (NPRM)* in response to a petition for rulemaking filed by Scripps Broadcasting Holdings LLC (Petitioner), the licensee of KTVH-DT (Station), channel 12, Helena, Montana, requesting the substitution of channel 31 for channel 12 at Helena in the Table of TV Allotments. For the reasons set forth in the *Report and Order* referenced below, the Bureau amends FCC regulations to substitute channel 31 for channel 12 at Helena.

DATES: Effective December 16, 2022.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418-1647 or JoyceBernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 87 FR 16159 on March 22, 2022. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 31. No other comments were filed. The *Report and Order* substitutes channel 31 for channel 12 at Helena, Montana. According to the Petitioner, it has received many complaints from viewers unable to receive a reliable signal on VHF channel 12, and the Commission has recognized that VHF channels have certain characteristics that pose challenges for their use in providing digital television service. The Engineering Statement provided with the Petition confirmed that the proposed channel 31 contour would continue to reach virtually all of the population within the Station's current service area and fully cover the city of Helena. An analysis using the Commission's

TVStudy software tool indicates that KTVH-DT's move from channel 12 to channel 31 is predicted to create an area where 2,168 persons are predicted to lose service. The loss area, however, is partially overlapped by the noise limited contour of other NBC affiliated stations and reduces the number of people who are predicted to lose NBC network service to 226 persons. Once those other sources of NBC programming are factored into the loss analysis, the new loss area that would be created by the proposed channel substitution would contain only 226 persons, which is a level of service loss the Commission considers to be *de minimis*. Concurrence from the Canadian government was required and has been obtained.

This is a synopsis of the Commission's *Report and Order*, MB Docket No. 22-118; RM-11924; DA 22-1234, adopted November 29, 2022, and released November 29, 2022.
