[Docket No. CP23-22-000]

Great Lakes Gas Transmission Limited Partnership; Notice of Application and Establishing Intervention Deadline

Take notice that on December 8, 2022, Great Lakes Gas Transmission Limited Partnership (Great Lakes), 700 Louisiana Street, Suite 1300, Houston, Texas 77002-2700, filed in the above referenced docket, an application under section 7(b) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization to temporarily abandon a portion of its certificated horsepower at its Compressor Station No. 1 located near St. Vincent, Minnesota, and to temporarily abandon the associated system design capacity from Great Lakes' point of receipt at Emerson in Kittson County, Minnesota, to its point of delivery at Fortune Lake in Iron County, Michigan.

More specifically, Great Lakes requests to temporarily abandon, for up to 36 months, the certificated horsepower of Station No. 1 from 32,330 HP to 15,830 HP and reduce the associated design capacity from 2,049 MDth/d to 1,905 MDth/d in the summer (144 MDth/d) and from 2,132 MDth/d to 1,947 MDth/d in the winter (185 MDth/d) from Great Lakes' point of receipt at Emerson in Kittson County, Minnesota, to its point of delivery at Fortune Lake in Iron County, Michigan, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

In its application, Great Lakes states that the temporary abandonments will have no impact on service to Great

Lakes' shippers because the capacity being abandoned is unsubscribed and the HP being abandoned has not been used by Great Lakes for deliverability since 2018-2019. Great Lakes also states that these temporary abandonments will allow Great Lakes time for an analysis of long-term needs for this capacity versus the cost of repair or replacement of certain compressor units on its system.
