

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**[Docket No. FAA-2022-1031; Airspace
Docket No. 22-ANM-1]

RIN 2120-AA66

**Establishment of Class E Airspace;
Brookings Airport, Brookings, OR****AGENCY:** Federal Aviation
Administration (FAA), Department of
Transportation (DOT).**ACTION:** Final rule.**SUMMARY:** This action establishes Class E airspace extending upward from 700 feet above the surface at Brookings Airport, OR. This action will support the Airport's transition from visual flight rules (VFR) to instrument flight rules (IFR) at the airport.**DATES:** Effective 0901 UTC, February 23, 2023. The Director of the Federal Register approves this incorporation by reference under Title 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11, Airspace Designations and Reporting Points, and publication of conforming amendments.**ADDRESSES:** FAA Order JO 7400.11G and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.**FOR FURTHER INFORMATION CONTACT:** Nathan A. Chaffman, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198; telephone (206) 231-3460.**SUPPLEMENTARY INFORMATION:****Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the Agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would establish Class E airspace extending

upward from 700 feet above the surface at Brookings Airport, OR, to support IFR operations at the airport.

History

The FAA published a notice of proposed rulemaking (NPRM) in the **Federal Register** for FAA-2022-1031 (87 FR 57160; September 19, 2022) to establish Class E airspace extending upward from 700 feet above the surface at Brookings Airport, OR. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. Two comments were received. One comment was in favor, and the other was not germane to the proposal.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

The FAA is amending 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface at Brookings Airport, OR. Class E airspace extending upward from 700 feet above the surface is intended to contain departing aircraft until reaching 1,200 feet above the surface, and arriving aircraft below 1,500 feet above the surface. The airspace is centered on the Brookings Airport reference point, with a 6.4-mile radius, excluding the portion northeast of the airport, as circling is not authorized there. A 6.4-mile radius is needed due to rising terrain from north to southeast of the airport, clockwise.

The Class E5 airspace designation is published in paragraph 6005 of FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11 is published annually and becomes effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are

necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT regulatory policies and procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant the preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, incorporation by reference, navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth

* * * * *

ANM OR E5 Brookings, OR [New]

Brookings Airport, OR
(Lat. 42°04'26" N, long. 124°17'23" W)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the airport beginning at the 127° bearing to the 340° bearing, thence to the point of beginning.

Issued in Des Moines, Washington, on December 13, 2022.

B.G. Chew,
Group Manager, Operations Support Group,
Western Service Center.

Docket No. 21-AEA-22]

RIN 2120-AA66

**Amendment and Establishment of Area
Navigation (RNAV) Routes; Eastern
United States**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published by the FAA in the **Federal Register** on December 7, 2022, that, in part, amends navigation (RNAV) routes T-315, and T-325. In the amended route T-315, the final rule identified the DVANY, WP, CT, route point as a waypoint (WP) in error. In the

amended T-325, the final rule identified the START, IL, route point and the DEBOW, WI, as WPs in error. This action makes editorial corrections to the DVANY, CT, START, IL, and DEBOW, WI, WPs to change them to be reflected as Fixes. This correction is necessary to match the FAA National Airspace System Resource (NASR) database information.

DATES: Effective date 0901 UTC, February 23, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. For further information, you can contact the Rules and Regulations Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

The FAA published a final rule in the **Federal Register** for Docket No. FAA-

2022-0932, in the **Federal Register** (87 FR 74962; December 7, 2022) amending, in part, RNAV routes T-315 and T-325. Subsequent to the publication, the FAA determined that the DVANY, CT, START, IL, and DEBOW, WI, route points were inadvertently identified as WPs, in error. The correct reference for the three points is a Fix. This rule corrects the errors by changing the reference of the DVANY, CT, WP to the DVANY, CT, Fix; the START, IL, WP to the START, IL, Fix; and the DEBOW, WI, WP to the DEBOW, WI, Fix.

These are editorial changes only to match the FAA NASR database information and do not alter the alignment of routes T-315 or T-325.

United States RNAV T-routes are published in paragraph 6011, and RNAV Q-routes are published in paragraph 2006, respectively, of FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The RNAV routes listed in this document will be published subsequently in FAA Order JO 7400.11.

Correction to Final Rule

The references to the DEVANY, CT, START, IL, and DEBOW, WI, WPs, as published in the **Federal Register** of December 7, 2022 (87 FR 74962), FR Doc. 2022-26489, is corrected as follows:

On page 74964, correct the table for T-315 JARLO, WV to Burlington, VT (BTV) [Amended] to read:
