

DEPARTMENT OF COMMERCE**Census Bureau****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Survey of Construction Questionnaire for the Building Permit Official (SOC–QBPO)**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 13, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Commerce.

Title: Survey of Construction Questionnaire for the Building Permit Official (SOC–QBPO).

OMB Control Number: 0607–0125.

Form Number(s): SOC–QBPO.

Type of Request: Regular submission, request for an extension, without change, of a currently approved collection.

Number of Respondents: 1,000.

Average Hours per Response: 15 minutes.

Burden Hours: 250.

Needs and Uses: The U.S. Census Bureau is requesting an extension of the currently approved collection for the Survey of Construction Questionnaire for the Building Permit Official (SOC–QBPO). The information collected on the SOC–QBPO is necessary to carry out the sampling for the Survey of Housing Starts, Sales and Completions (OMB number 0607–0110), also known as the Survey of Construction (SOC). Government agencies and private companies use statistics from the SOC to monitor and evaluate the large and dynamic housing construction industry.

The SOC–QBPO is an electronic questionnaire. The field representatives (FRs) either call or visit the respondents to enter their survey responses into a laptop computer using the Computer Assisted Personal Interviewing (CAPI) software formatted for the SOC–QBPO. The overall length of the interview will

not change, and the sample size will only receive a minor downward adjustment.

The Census Bureau FRs use the SOC–QBPO to obtain information on the operating procedures of a permit office. This enables them to locate, classify, list, and sample building permits for residential construction. These permits are used as the basis for the sample selected for SOC. The Census Bureau also uses the information to verify and update the geographic coverage of permit offices.

Failure to collect this information would make it difficult, if not impossible, to accurately classify and sample building permits for the SOC. Data for two principal economic indicators are produced from the SOC: New Residential Construction (housing starts and housing completions) and New Residential Sales. Government agencies use these statistics to evaluate economic policy, measure progress towards the national housing goal, make policy decisions, and formulate legislation. For example, the Board of Governors of the Federal Reserve System uses data from this survey to evaluate the effect of interest rates in this interest-rate sensitive area of the economy. The Bureau of Economic Analysis (BEA) uses the data in developing the Gross Domestic Product (GDP). The private sector and other data users from Department of Housing and Urban Development (HUD) and the National Association of Home Builders (NAHB) use the information for estimating the demand for housing, building materials and the many products used in new housing and to schedule production, distribution, and sales efforts. The financial community uses the data to estimate the demand for short-term (construction loans) and long-term (mortgages) borrowing.

Affected Public: State, local, or Tribal government.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, sections 131 and 182.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or

by using the search function and entering either the title of the collection or the OMB Control Number 0607–0125.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–07–P

DEPARTMENT OF COMMERCE**Foreign-Trade Zones Board**

[B–62–2022]

Foreign-Trade Zone (FTZ) 163—Ponce, Puerto Rico; Notification of Proposed Production Activity, Global Manufacturing LLC, (Mattresses and Box Springs), Ponce, Puerto Rico

CODEZOL, C.D., grantee of FTZ 163, submitted a notification of proposed production activity to the FTZ Board (the Board) on behalf of Global Manufacturing LLC, located in Ponce, Puerto Rico within FTZ 163. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on December 8, 2022.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed finished products include mattresses with inner springs, box springs, and bunkettes—one layer of pre-cut wood with a layer of fabric (duty rate ranges from duty-free to 3%).

The proposed foreign-status materials and components include: knitted fabrics in rolls and pre-cut composed of (98.5% polyester and 1.5% elastane/100% polyester/96% polyester and 4% metallic); woven fabrics in rolls and pre-cut composed of 80 percent polyester and 20 percent polypropylene; polyurethane foam in rolls and pre-cut; memory foam in rolls and pre-cut; 100% polyester non-woven felt pad sheets used to upholster the interior of the mattress; innerspring units (with uncovered and covered inner springs); pre-cut pine wood; steel wire; and, steel mesh (duty rate ranges from duty-free to 14.9%). The request indicates that inner spring units and pre-cut pine wood are
