Risk Management Agency

Title: Multiple Peril Crop Insurance.
OMB Control Number: 0563-0053.

Summary of Collection: The Federal Crop Insurance Corporation (FCIC) is a wholly-owned Government corporation created February 16, 1938 (7 U.S.C. 1501). The program was amended previously, by Public Law 96-365, dated September 26, 1980, that provided for nationwide expansion of a comprehensive crop insurance program. The Federal Crop Insurance Act (Act), as amended in later years, further expanded the role of the crop insurance program to be the principal risk management safety net used by producers to cover crop losses. The Act further required that the crop insurance program operate on an actuarially sound basis. To meet these goals, existing crop programs must be improved and expanded, new crop products developed, and new insurance concepts studied for possible implementation. Meeting these goals requires the collection of a wide range of information (data elements). These data elements are used in part to determine insurance coverage, premiums, subsidies, payments, and indemnities. It

allows for other program and administrative operations. It also creates an information database used to support continued development and improvements in crop insurance products available to producers and which meet the goal of a sound insurance program. The Act was again amended on June 20, 2000, by Public Law 106-224 which mandates changes to crop insurance regulations, provides for independent review of crop insurance products by persons experienced as actuaries and in underwriting, and gives contracting authority for the development of new products.

Need and Use of the Information: The collection of information involves producers and insurance companies. Specific information (data) is required to apply for crop insurance, determine program eligibility, report crop information, establish liability, change coverage, determine a loss, etc. Producers must provide records, documents, or other information to the insurance company during an investigation or settlement of a claim. Insurance companies may provide late or prevented planting coverage, or provide coverage under a written agreement when coverage would not otherwise be available, etc. Pertinent information must be collected by the established dates to administer the crop insurance program in an actuarially sound manner.

The information collection requirements for this revised package are necessary for administering the crop insurance program. Insurance companies must obtain enough information so insurability, liability, premium, subsidy, and indemnities can be accurately determined. It is important that insurance agents work closely with producers to collect accurate information since the guarantee, liability, premium, subsidy, and any applicable indemnities are based on this information.

Forest Service

Title: Annual Wildfire Summary Report.

OMB Control Number: 0596-0025.

Summary of Collection: The Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101) requires the Forest Service (FS) to collect information about wildfire suppression efforts by State and local fire fighting agencies in order to support specific congressional funding requests for the Forest Service State and Private Forestry Cooperative Fire Program. The program provides supplemental funding for State

and local firefighting agencies. The FS works cooperatively with State and local fire fighting agencies to support their fire suppression efforts. FS will collect information using form FS 3100–8, Annual Wildfire Summary Report.

Need and Use of the Information: FS will collect information using form FS–3100–8 to determine if the Cooperative Fire Program funds, provided to the State and local fire fighting agencies have been used by State and local agencies to improve their fire suppression capabilities. The information collected includes the numbers of fires and acres burned on State and private land by cause, such as lightning, campfires, smoking, debris burning, arson, equipment, railroads, children and miscellaneous activities. Information about the importance of the State and Private Cooperative Fire Program will be shared with the public. The form also collects information on numbers of fires and acres burned by size classes. FS would be unable to assess the effectiveness of the State and Private Forestry Cooperative Fire Program if the information provided on FS–3100–8, were not collected.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 56.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 28.

Title: Infrastructure Investment and Jobs Act Financial Assistance to Facilities that Purchase and Process Byproducts for Ecosystem Restoration (CFDA 10.725) Wood Products Infrastructure Assistance (WPIA).

OMB Number: 0596–0254.

Expiration Date of Approval: 05/31/2023.

Type of Request: Extension with no revision of a currently approved information collection.

Abstract: The grants and agreements awarded under this announcement will support the Bipartisan Infrastructure Law (BIL), 2021. Section 40804(b)3 directs the USDA Forest Service Forest Service to provide financial assistance to an entity seeking to establish, reopen, expand, or improve a sawmill or other wood processing facility in close proximity to a unit of federal or Indian land that has been identified as high or very high priority for ecological restoration. Eligible applicants are for-profit entities; state, local governments; Indian Tribes; school districts; community, not-for-profit organizations; institutions of higher education; and special purpose districts (e.g., public utilities districts, fire districts, conservation districts, and ports). The need and process to collect information from applicants is detailed in 2 CFR part 200 and Forest Service Handbook 1509.11, Chapter 20, which prescribes administrative requirements and processes applicable to all Forest Service domestic Federal Financial Assistance awards. In particular, collection of information is necessary to assist in accelerating the pace and scale of ecosystem restoration on federal and Indian lands. Information collected will be reviewed by Forest Service staff to evaluate eligibility and proposed activities of the applicant.

Affected Public: Individuals and Households, the Private Sector (Businesses and Non-Profit Organizations, and/or State, Local or Tribal Government).

Estimate of Burden per Response: 8.25 hours.

Estimated Annual Number of Respondents: 78.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 643.50 hours.

Comment is Invited: Comment is invited on: (1) whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
