SUPPLEMENTARY INFORMATION:

Background

On March 4, 2021, Commerce published its *Initiation Notice* for the administrative review of the CVD order on softwood lumber from Canada covering the period January 1, 2020, through December 31, 2020.¹ In the *Initiation Notice*, Commerce inadvertently omitted the following companies, for which we had received timely requests for an administrative

review: Brink Forest Products Ltd.; Deep Cove Forest Products, Inc.; and Vanderhoof Specialty Wood Products Ltd.² Additionally, in the *Final Results* of the CVD administrative review covering the 2020 period of review (POR), Commerce omitted those same companies from Appendix II as being among the firms subject to the review that received the subsidy rate applicable to companies not selected for individual examination.³

With the issuance of this amended notice, we confirm that Brink Forest Products Ltd. and Vanderhoof Specialty Wood Products Ltd. are included among the firms subject to the CVD administrative review covering the 2020 period of review and are among the non-selected companies subject to a subsidy rate of 3.83 percent, effective August 9, 2022.⁴ While the company Deep Cove Forest Products, Inc. was inadvertently omitted from the *Initiation Notice*, the company did not have entries during the POR according to the U.S. Customs and Border Protection (CBP) entry data on the record.⁵ As a result, Deep Cove Forest Products, Inc. will not be subject to the assessment and cash deposit rates covering the 2020 POR.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.212(b)(2), Commerce will determine, and CBP shall assess, CVDs on all appropriate entries of subject merchandise covered by this review. However, currently we have instructed CBP to suspend all entries subject to this review, pursuant to a suspension of liquidation request filed in accordance with 19 CFR 356.8 and 19 U.S.C. 516A(g)(5)(C).⁶ We also intend to

In accordance with section 751(a)(2)(C) of the Act, Commerce intends to instruct CBP to collect cash deposits of estimated CVDs in the amounts shown for the companies subject to this review, effective August 9, 2022, the date of publication of the *Final Results* in the **Federal Register**, for the two companies previously omitted. Therefore, Commerce will instruct CBP to collect cash deposits for Brink Forest Products Ltd. and Vanderhoof Specialty Wood Products Ltd. as included among the firms subject to the CVD administrative review covering the 2020 POR and as among the non-selected companies subject to a subsidy rate of 3.83 percent. SUPPLEMENTARY INFORMATION: Publication of this notice on the NCWM’s behalf is undertaken as a public service and does not itself constitute an endorsement by the National Institute of Standards and Technology (NIST) of the content of the notice. NIST participates in the NCWM as an NCWM member and pursuant to 15 U.S.C. 272(b)(10) and (c)(4) and in accordance with Federal policy (e.g., OMB Circular A-119 “Federal Participation in the Development and Use of Voluntary Consensus Standards”).

The NCWM is an organization of weights and measures officials of the states, counties, and cities of the United States, and representatives from the private sector and federal agencies. These meetings bring together government officials and representatives of business, industry, trade associations, and consumer organizations on subjects related to the field of weights and measures technology, administration, and enforcement. NIST hosted the first meeting of the NCWM in 1905. Since then, the conference has provided a model of cooperation between Federal, State, and local governments and the private sector. NIST participates to encourage cooperation between federal agencies and the states in the development of legal metrology requirements. NIST also promotes uniformity in state laws, regulations, and testing procedures used in the regulatory control of commercial weighing and measuring devices,

packaged goods, and for other trade and commerce issues.

The NCWM has established multiple committees, task groups, and other working bodies to address legal metrology issues of interest to regulatory officials, industry, consumers, and others. The following are brief descriptions of some of the significant agenda items that will be considered by some of the NCWM Committees at the NCWM Interim Meeting. Comments will be taken on these and other issues during several public comment sessions. At this stage, the items are proposals.

This meeting also includes work sessions in which the Committees may accept comments, and where recommendations will be developed for consideration and possible adoption at the NCWM 2023, 108th Annual Meeting. The Committees may withdraw or carryover items that need additional development.

These notices are intended to make interested parties aware of these development projects and to make them aware that reports on the status of the project will be given at the Interim Meeting. The notices are also presented to invite the participation of manufacturers, experts, consumers, users, and others who may be interested in these efforts.

The following are brief descriptions of some of the significant agenda items that will be considered at the 2023 NCWM Interim Meeting. Comments will be taken on these and other recommendations to amend NIST Handbook 44, “Specifications, Tolerances, and other Technical Requirements for Weighing and Measuring Devices” (NIST Handbook 44 or HB 44), NIST Handbook 130, “Uniform Laws and Regulations in the areas of Legal Metrology and Fuel Quality” (NIST Handbook 130 or HB 130), and NIST Handbook 133, “Checking the Net Contents of Packaged Goods” (NIST Handbook 133 or HB 133). These NIST Handbooks are regularly adopted by reference or through the administrative procedures of all the states.

NCWM S&T Committee (S&T 2023 Interim Meeting)

The Specifications and Tolerances Committee (S&T Committee) will consider proposed amendments to NIST Handbook 44. Those items address weighing and measuring devices used in commercial applications, that is, devices that are used to buy from or sell to the public or used for determining the quantity of products or services sold among businesses.
