

data and information are collected by various state and local air quality management agencies and reported to the EPA. State and local air management agencies were required to submit either monitoring or modeling information in order to meet the initial and on-going requirements, as applicable, to characterize air quality concentrations in areas with specific emissions sources identified under the final SO<sub>2</sub> Data Requirements Rule (DRR). This proposed ICR Renewal adopts (with some revisions) the estimates contained in the original ICR, and it includes burden estimates for the development, submittal, and processing of the information described above to meet ongoing requirements under the DRR during the period January 1, 2023–December 31, 2025. For those state and local air management agencies that chose to conduct ambient monitoring rather than air quality modeling to characterize air quality around specific emissions sources during the initial phase of DRR implementation (2016), such monitoring is required by subpart BB of part 51, and information collections associated with initial ambient air quality monitoring required under part 51 were initially included in the prior versions of the DRR ICR. Currently, the DRR requires that ongoing monitoring continue to meet the operational constraints and requirements in 40 CFR part 58, and any collections associated with ongoing monitoring under the DRR are now covered by the part 58 ICR (EPA ICR No. 0940.29; OMB No. 2060–0084). Therefore, ongoing collections of ambient monitoring data have been removed from coverage by the DRR ICR to avoid duplicative burden calculations. Future renewals of the part 58 ICR will continue to cover any collections of ongoing ambient air monitoring data that were initiated under subpart BB of part 51, so long as any of those monitors continues to operate.

*Form Numbers:* None.

*Respondents/affected entities:* State, local and tribal air pollution management control agencies.

*Respondent's obligation to respond:* Mandatory (40 CFR part 51).

*Estimated number of respondents:* 36 states, providing emissions and in some cases air quality modeling for 137 sources.

*Frequency of response:* Annually for ongoing modeling annual report.

*Total estimated burden:* Specific hours for modeling not estimated, all labor is reported in the estimated cost for modeling. Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$3,014,000 (per year) for modeling.

*Changes in Estimates:* Air agencies that elected under subpart BB of part 51 to conduct ambient monitoring for listed DRR sources are responsible for collecting ambient air quality data information and submitting these data electronically to EPA's Air Quality System (AQS) and other voluntary databases. While information collections associated with initial ambient air quality monitoring under part 51 were included in the prior version of the DRR ICR, any collections associated with ongoing monitoring are now covered by the part 58 ICR for ambient monitoring. This information collection and the associated burden are captured under the Ambient Air Quality Surveillance 40 CFR part 58 ICR (OMB #2060–0084, EPA ICR# 0940.29). Ongoing collections have been removed from the DRR ICR to avoid duplicative burden calculations.

The prior renewal of this ICR estimated a maximum possible burden of \$5,100,000 annually for modeling sources. This ICR renewal, estimating a range of \$150,700 to \$3,014,000 annually, reflects a decrease in the maximum possible burden of \$2,086,000 annually for modeling sources. This decrease is due to the reduced number of listed sources for which states chose to conduct air quality modeling to meet their DRR requirements.

## FEDERAL COMMUNICATIONS COMMISSION

[MB Docket No. 20–299; FCC 22–1309; FR ID 120095]

### Sponsorship Identification Requirements for Foreign Government-Provided Programming

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** In this document, the Media Bureau extends the comment and reply comment deadlines for the Second Notice of Proposed Rulemaking Regarding Sponsorship Identification Requirements for Foreign Government-Provided Programming.

**DATES:** The extended comment deadline is January 9, 2023, and the extended reply comment deadline is January 24, 2023.

**ADDRESSES:** You may submit comments, identified by MB Docket No. 20–299, by any of the following methods:

- *Electronic Filers:* Comments may be filed electronically using the internet by accessing the ECFS: <http://apps.fcc.gov/ecfs/>.

- *Paper Filers:* Parties who choose to file by paper must file an original and one copy of each filing.

Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.

- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 45 L Street NE, Washington, DC 20554.

- Effective March 19, 2020, and until further notice, the Commission no longer accepts any hand or messenger delivered filings. This is a temporary measure taken to help protect the health and safety of individuals, and to mitigate the transmission of COVID–19. See FCC Announces Closure of FCC Headquarters Open Window and Change in Hand-Delivery Policy, Public Notice, DA 20–304 (March 19, 2020). <https://www.fcc.gov/document/fcc-closes-headquarters-open-window-and-changes-hand-delivery-policy>.

### Synopsis

1. By this Public Notice, the Media Bureau extends the deadlines for filing comments and reply comments in the above-captioned proceeding. On October 6, 2022, the Commission released a Second Notice of Proposed Rulemaking (Second Notice) seeking comment on new rules to strengthen the process for identifying foreign governmental entities. The Second Notice specified comment and reply comments dates of 30 and 45 days, respectively, after **Federal Register** publication. That publication occurred on November 17, 2022, and on November 18, 2022, the Media Bureau released a Public Notice (Public Notice), announcing a comment filing deadline of December 19, 2022, and a reply comment filing deadline of January 3, 2023, for the Second Notice.

2. On December 7, 2022, the Multicultural Media, Telecom and Internet Council (MMTC) and the National Association of Broadcasters (NAB) (collectively, Joint Filers) requested an extension of the comment and reply comment filing deadlines until January 9 and January 24, 2023, respectively. The Joint Filers correctly note that "three significant Federal holidays" occur during the comment cycle. Citing holiday-related closures, the Joint Filers explain how it is "challenging" under the original filing deadline "to gather relevant information from individual broadcasters and lessees affected by the proposed rules, build useful consensus around the issues in this proceeding, and draft comments and reply comments." A coalition of religious organizations (the Religious Programmers) filed in support of the Joint Filers' Motion, also noting the difficulties presented by the intervening holidays.

3. As set forth in section 1.46(a) of the Commission's rules, the Commission's policy is that extensions of time shall not be routinely granted. We find, however, that the Joint Filers have provided sufficient justification to warrant grant of their requested extension. As an extension should enable interested parties to present more complete and thoughtful comments to the Commission, we agree with the Joint Filers that the extension should not disadvantage any party or cause significant delay in the resolution of this proceeding.

Federal Communications Commission.
